Blanks, Print, Space, and Void in English Renaissance Literature Jonathan Sawday, 2023-06-20 Blanks Print Space and Void in English Renaissance Literature is an inquiry into the empty spaces encountered not just on the pages of printed books in c 1500 1700 but in Renaissance culture more generally The book argues that print culture in the sixteenth and seventeenth centuries helped to foster the modern idea of the gap where words texts images and ideas are constructed as missing lost withheld fragmented or perhaps never devised in the first place It reimagines how early modern people reacted not just to printed books and documents of many different kinds but also how the very idea of emptiness or absence began to be fashioned in a way which still surrounds us Jonathan Sawday leads the reader through the entire landscape of early modern print culture discussing topics such as space and silence the exploration of the vacuum the ways in which race and racial identity in early modern England were constructed by the language and technology of print blackness and whiteness together with lightness darkness and sightlessness cartography and emptiness the effect of typography on reading practices the social spaces of the page gendered surfaces hierarchies of information books of memory pages constructed as waste or vacant the genesis of blank forms and early modern bureaucracy the political and devotional spaces of printed books the impact of censorship and the problem posed by texts which lack endings or conclusions The book itself ends by dwelling on blank or empty pages as a sign of human mortality Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture Sidney Shakespeare Donne Jonson and Milton for example as well as introducing readers to a host of lesser known figures The book also discusses the work of numerous women writers from the period

and her growing sense of achievement The writing style of the author is inviting easy to read humorous entertaining insightful and quite inspirational We are also treated to gems of thought like this description of effective oratory It is a poem in that words must be just right and placed just right it is a song in that it is composed of pauses and notes and each note must be hit just right it is also a painting in that it supplies mental and emotional imagery This oratorical painting is without effect if it lacks either poetry or music Toward the end of the story we find the author gradually awakening to the fact that nothing in life works out as we plan She does not imply however a sense of resignation On the contrary her personal growth hints that she is well on her way to reaching that state of mind that enables one to enjoy life no matter what The core message of the book can be said to be first learn to trust your heart and let it guide you second recognize the defining moments life offers knowing life is inviting you to be what you choose to be third accept people as they are like the weather if you want to be accepted as you are With this approach life whatever it brings can be an amazing adventure and we can be gradually awakened to riches beyond counting Comments for the author can be sent to her by e mail with subject line reader comments to ranko purityandpower verizon net
