financialization had already exacerbated social divisions in the UK prior to the pandemic. The political blueprint behind these measures combined Privatized Keynesianism and the Asset Economy. To explain, economists have highlighted that inequality derives from the fact that income from wealth increases at a faster rate than income from wages. The ensuing political assumption is that in the face of pressures on public finances, promoting asset ownership is the best alternative to government-funded welfare schemes. What this meant as the pandemic unfolded was that when tough decisions about resource allocation needed to be made, the UK Treasury and the Bank of England found almost unlimited funds to rescue and protect asset holders and middle-income homeowners whilst reverting to a narrative of misfortune for the asset-less poor. This book assesses the political decisions taken by UK policymakers during 2020-21 and their consequences. In doing so, it challenges policymakers and the informed public to reconsider the morality of inequality and to make alternative decisions to promote a more ecologically sustainable, caring, equal, and prosperous society. *Lectures on Architecture and Painting, Delivered at Edinburgh, in November, 1853* John Ruskin, 1890 *The Seven Lamps of Architecture* John Ruskin, 1885

Making Africa Work Greg Mills, Olusegun Obasanjo, Jeffrey Herbst, Dickie Davis, 2017-09-15 Sub-Saharan Africa faces three big inter-related challenges over the next generation. And this group of mostly young people will be connected with each other and the world through mobile devices. Properly harnessed and planned for, this is a tremendously positive force for change. Without economic growth and jobs, it could prove a political and social catastrophe. Old systems of patronage and of muddling through will no longer work because of these population increases. Instead, if leaders want to continue in power, they will have to promote economic growth in a more dynamic manner. *Making Africa Work* is a first-hand account and handbook of how to ensure growth beyond commodities and create jobs in the continent.
