 Bikram Saha, Ms. T. Tamilvani, Dr. Sajjinarjun, 2025-04-29 We are delighted to share New Volume of Book An International
 Textbook on Emerging and Advanced Trends of Biological Science and Bioinstrumentation Techniques this book explore the
 advance emerging fields of life science providing new innovative methodologies of research and practical approach
 Interdisciplinary concerns in this book highlight the most current advancements in the field of life sciences and sets as
 benchmark to study applied branches of life science to provide students and budding researchers to take up and
 comprehends advance technology like Artificial Intelligence and in vitro techniques to upscale their skills The book serves as
 milestone acting as a valuable resource for comprehending many concepts applications and techniques in life sciences for
 research and development in order to accomplish long term progress Advances in the life sciences go beyond molecular
 fundamentals and reaches to all boundaries from land to ocean with applied use of pearl to silkworm which help to boost
 economy of nation In recent years developing nations have been preparing to compete internationally in the biological
 sciences The exponential expansion in the quantity of scientific information and the rate at which discoveries are created
 necessitates highly detailed interdisciplinary and up to date knowledge and understanding The book tried to give a great
 quantity of material from the vast and ever expanding field of Life Sciences and Forensic Sciences in an easily retrievable
 format Entire Book is divide into Four Section to understand of varied topics in the form of book chapter unveils the secretes
 of pharmaceutical drugs herbal formulation pathobiology and their therapeutic interventions environmental sustainability
 waste management and resource recovery systemic signalling in plants applied microbiology and biotechnology are all
 developing areas in biological study Section A deals with applied branches of Zoology which help young generation to scale
 up their skill in varied applied branches such as Sericulture Mariculture Aquaculture is the production of aquatic organisms
 including fish mollusks crustaceans and aquatic plants and the cultivation of freshwater and marine plants and animals under
 controlled conditions Sericulture is an agro based domestic industry with high employment potential and higher income
 generation potential Moreover it is a budget friendly occupation for small and marginal farmers offering better returns
