Project America Marshall Elijah Hatch, 2012-05 PROJECT AMERICA Memoirs of Faith and Hope to Win the Future is one of the most impactful and relevant literary works of our time The author Dr Marshall E Hatch sheds light on the timeless maxim that each generation must chart its own course In looking back to Dr King's global vision he conscientiously looks forward to summon the probing question Where do we go from here Project America offers a nostalgic yet visionary memoir that weaves together scenes from the author's personal journey with historical analysis and commentaries to address contemporary public policy issues In his expansive thoughtful and powerful treatise Dr Hatch presents us with the challenge to move forward beyond the sins of America's shameful history of slavery to a symphony for winning the future In this literary treasure trove Hatch's four symphonic movements unfold as the pathway to fulfilling the American promise including a massive investment in education adapting to the changing complexion of world power embracing environmental stewardship and renewing our faith to reengage the social covenant with the American people Through Project America we reflect upon Chicago's and the nation's past While learning from Hatch's insights we are encouraged to draw from the wellsprings of our faiths and to act purposefully together to achieve a brand new world Project America is truly within our grasp therefore let us heed Dr Hatch's clarion call to make a brighter future start happening now *Hermeneutica* Geoffrey Rockwell, Stefan Sinclair, 2022-06-07 An introduction to text analysis using computer assisted interpretive practices accompanied by example essays that illustrate the use of these computational tools The image of the scholar as a solitary thinker dates back at least to Descartes Discourse on Method But scholarly practices in the humanities are changing as older forms of communal inquiry are combined with modern research methods enabled by the Internet accessible computing data availability and new media Hermeneutica introduces text analysis using computer assisted interpretive practices It offers

theoretical chapters about text analysis presents a set of analytical tools called Voyant that instantiate the theory and provides example essays that illustrate the use of these tools Voyant allows users to integrate interpretation into texts by creating hermeneutica small embeddable toys that can be woven into essays published online or into such online writing environments as blogs or wikis The book's companion website Hermeneutica offers the example essays with both text and embedded interactive panels The panels show results and allow readers to experiment with the toys themselves The use of these analytical tools results in a hybrid essay an interpretive work embedded with hermeneutical toys that can be explored for technique The hermeneutica draw on and develop such common interactive analytics as word clouds and complex data journalism interactives Embedded in scholarly texts they create a more engaging argument Moving between tool and text becomes another thread in a dynamic dialogue

Oppenheimer and the Manhattan Project Cynthia C. Kelly, 2006 2004 marked the centennial of the birth of J Robert Oppenheimer and brought historians and scholars former students nuclear physicists and politicians together to celebrate this event Oppenheimer's life and work became central to 20th century history as he spearheaded the development of the atomic bomb that ended World War II This book provides a spectrum of interpretations of Oppenheimer's life and scientific achievements It approaches the extraordinary scientist and teacher from many perspectives chronicling the years from his boyhood through his role as director of the Los Alamos National Laboratory and afterwards The book also discusses Oppenheimer's connection to New Mexico which hosted two of the Manhattan Project's most crucial sites and addresses his lasting impact on contemporary science international politics and the postwar age

User Experience in Libraries Andy Priestner, Matt Borg, 2016-05-23 Modern library services can be incredibly complex Much more so than their forebears modern librarians must grapple daily with questions of how best to implement innovative new services while also maintaining and updating the old The efforts undertaken are immense but how best to evaluate their success In this groundbreaking new book from Routledge library practitioners anthropologists and design experts combine to advocate a new focus on User Experience or UX research methods Through a combination of theoretical discussion and applied case studies they argue that this ethnographic and human centred design approach enables library professionals to gather rich evidence based insights into what is really going on in their libraries allowing them to look beyond what library users say they do to what they actually do Edited by the team behind the international UX in Libraries conference *User Experience in Libraries* will ignite new interest in a rapidly emerging and game changing area of research Clearly written and passionately argued it is essential reading for all library professionals and students of Library and Information Science It will also be welcomed by anthropologists and design professionals working in related fields
