

# 7154 SERVICE SHEET No. 603

## "B" "C" and "M" Group Models

October, 1946  
Revised July, 1947

### THE LUBRICATION SYSTEM

The engine lubrication system is of the dry sump type operated by a double-throw pump, situated in the bottom of the crankcase on the right-hand side. The pump draws the supply and return pipes to the tank and the rocker feed and delivery pipes in the B Group. The oil drawn from the oil tank to the supply side of the pump first passes through a close mesh filter. This filter is not fitted to B Group machines as a bit filter is incorporated in the oil return pipe.

### B.S.A. Service Sheet No. 603 (continued)

After lubricating the big-end and circulating throughout the engine in the form of oil mist, the oil drains down, through a filter to the bottom of the crankcase from which it is drawn by the return pump past ball valve C and delivered up the return pipe to the tank.

On "B" group machines oil is fed through a union situated in the pipe between the return pump and the tank, to the rocker spindles, and after lubricating the rockers and the base of the inlet valve spring housing (see Fig. 53) An internal oilway connects the two valve spring wells.

Incorrect seating of the ball valve. I will allow oil to transfer from the tank to the engine, whilst the machine is stationary. In this event, unscrew the plug over the ball valve C should get stuck in its seating. Clean the ball and its seating and correct, remove the plug.

maintenance and repair of BSA models from 1945 through the mid 60 s At some point in the 1930 s BSA began identifying their various model types by groups and the models manufactured from 1945 through the mid 60 s were in Groups A B C D and M The service sheets were identified numerically and while there are some exceptions the numbers relate to a particular model group They are as follows The 200 series of service sheets were applicable to Group A models the 300 series to Group B the 400 series to Group C the 500 series to Group D and the 600 series to Group M Also there was a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups

Unfortunately as these service sheets were issued individually and at random times the numbering sequence within a group is at times illogical and not necessarily consecutive Consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles The most complete compilation of the 1945 and onwards service sheets was a BSA dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages This manual contains 51 service sheets 169 pgs and includes 14 sheets 62 pgs from that dealer only publication plus the 37 service sheets 107 pgs that were published by BSA under part number 00 4021 It covers the S V and O H V rigid spring frame girder and telescoping fork M20 M21 and M33 models from 1945 63 Obviously as the M20 and M21 were introduced in 1937 this manual will also be of use to owners of those earlier models

Please note that service sheets other than those in the 600 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention For additional information the reader is directed to The Book of the BSA 250cc 350cc 500cc 600cc OHV SV singles 1945 1959 ISBN 9781588502292 which covers the B31 B32 B33 B34 C10 C11 C11DL M20 M21 M33 models The OHV 1955 1958 M33 models are also covered in The Book of the BSA OHV Singles 350cc 500cc 1955 1967 ISBN 9781588501561
