There isn't a lot of technical information within these pages Some information might fit into a technical section if one were included but there isn't any because that wasn't a goal It should be fairly easy to go on the Internet and uncover the technical data for any of these boats if you really want it The simple goal of this particular work was to have those who are most knowledgeable discuss the stories and insights behind the sailboats they personally know in some cases better than anyone else in the world The small trimarans featured in this book fall into 2 categories Production Sailboats which I also sometimes refer to as commercial or commercially produced boats Self Built Sailboats This is really the only logical arrangement of order There is one exception the Trinidad model Featured boats include The Magnum 18 21 21S Trimarans The Windrider 16 17 Rave Hydrofoil Trimarans The Weta Beach Trimaran The Waapa Tamanu Small Trimaran Sailing Canoes The Fast 17 A18T A21 Cardiff 21 Z65 Small Trimarans The Seaclipper 10 16 Trimarans The Scarab Small Trimaran Models The Discovery 20 Small Trimaran The Warren 23 27 Small Trimarans The L7 Multi 23 Beach Tri 22 Small Trimarans The KH 16 Spitfire 20 KH 23 Small Trimarans The Trinidad Trimaran The Tremolino Trimaran The K24T Small Cabin Cruiser Trimaran Plus An Interview about Wooden Boatbuilding with Chuck Leinweber publisher of Duckworks Magazine Interviews featuring production models are in the front And the small trimaran models most often self built at home by a do it yourselfer follow This order of arrangement isn't meant to convey some boats are better than others Such assessment is purely subjective It'll be shaped most often by what an individual wants in a boat at any given time In my opinion all of boats talked about in these pages are fun fast and desirable

101 Tips and Hints for Your Boat Jacques Damour,1981-01-01 Cruising Boat Basics Cap'n Fatty

Goodlander,2018-01-03 This book contains 58 years of seamanship and ship s husbandry distilled into more than 350 readable pages It is chockfull of technical information gathered during three circumnavigations and a lifetime of living aboard in foreign ports It tells you the nitty gritty technical details of the sea gypsy lifestyle It isn t merely about the boat it is also about the knowledge required to safely handle that boat and ultimately how to manage the cruise as well It contains what every sea gypsy understands but few marine publications address the good the bad and the ugly of ocean cruising It does not cop out by telling you to throw money at your problems by hiring marine experts It does exactly the opposite It informs you how to not need those experts It clearly communicates the morality the economy the karma and the delights of sailing the world with empty pockets and full hearts Cruising offshore isn t rocket science It is all basic logical stuff The skills required can be explained step by step This book reveals the reality of buying a well found inexpensive boat and outfitting it for living aboard then taking it inshore gunkholing coastal sailing offshore cruising and ocean storm strutting Reading this book is like sitting in the cockpit of a battered ketch at anchor in an exotic port and having one of the most famous circumnavigators spin yarns tell jokes and give the most outrageous of advice on cruising under sail Forget the you gotta have a pile of money rock hugger thinking You don t There are a million good reasons why not to go to sea lack of money is not one of them Basic seamanship is far more important than coinage and you can t buy seamanship In fact circumnavigators with large purses actually have less fun than work as you sail sea gypsies This book was not written for the edification of Topside clad yachtsmen or teak trodding credit card captains but rather for the working class sailor attempting to transit from dirt dweller to ocean vagabond without losing sight of the daily fun factor Does sailing across an ocean on a small vessel seem like an immense challenge It doesn t need to be if you are prepared with a well found boat strong offshore safety gear

and some basic seamanship skills Fatty and his wife Carolyn are currently on their fourth circumnavigation They sail across oceans with no more concern than most yachties experience while putt putting to the fuel dock Are you just getting your sealegs but have a burning desire to live within Mother Ocean s warm embrace To be truly free To sail to Borneo Madagascar Cocos Keeling the Caribbean and Chagos To kiss life full on the lips from the deck of a small boat on a big ocean Then you are in luck This book is written with the specific aim of helping sailors exactly like you accomplish these very real very worthwhile cruising dreams without a massive amount of money complication or BS Welcome aboard
