*Public Budgeting in African Nations* Peter Fuseini Haruna,Shikha Vyas-Doorgapersad,2016-04-14 Public Budgeting in African Nations aims to provide usable budgeting and fiscal policy management information to development practitioners interested in improving the performance of governments in the context of good governance It shares regional and cross cultural experiences with international audiences and gives reflective attention to comparative budgeting and fiscal policy management With a promising economic and fiscal forecast such information is timely for international development practitioners and for scholars and researchers interested in advancing development management This book adopts an interdisciplinary pragmatic approach to analyze and present research findings on public budgeting as a sustainable development tool The central argument is that development practice will benefit from a bottom up decentralized approach to budgeting and fiscal policy management involving national sub national and civil society institutions From this perspective a balanced budget should draw from and reflect values and priorities across the full spectrum of social and political life

*South Africa's Fiscal Framework* Asma Khalid,Anh D. M. Nguyen,2025-03-31 South Africa s public debt has tripled since the global financial crisis and is not expected to stabilize over the medium term under staff s baseline Cross country evidence suggests that fiscal rules anchored in debt ceilings can be helpful in supporting fiscal adjustments aimed at reducing public debt and bolstering policy credibility Design features such as institutional coverage statutory base correction mechanisms and flexibility provisions can make the rules more credible and durable and formal enforcement mechanism and independent institutions can strengthen their compliance Strengthening South Africa s fiscal framework by introducing a debt anchor and a credible operational fiscal rule in line with international best practice could help support the authorities fiscal objectives and safeguard debt sustainability    **South Africa Carbon Pricing and Climate Mitigation Policy** Mr. Haonan Qu,Suphachol Suphachalasai,Sneha D Thube,Mr. Sébastien Walker,2023-06-26 Meeting South Africa s ambitious climate

objectives will require a comprehensive strategy that includes a more effective use of carbon pricing policy reducing inefficient government subsidies that have delayed the green transition well targeted support to affected industries and households and other green financial and sectoral measures Implemented well the mitigation policy package would promote low carbon investments raise government revenues and support economic growth    **SOUTH AFRICA AA.VV.**,2016-11-14 Has the new South Africa once an inspiring rainbow nation failed the expectations it had generated Is the country now in a crisis Two decades after the end of the apartheid regime Africa s southernmost state faces multiple political economic and social challenges A lackluster growth performance is compounded by mounting corruption and political turbulence as well as

by the frustration of many ordinary citizens who expected much more rapid social and economic improvement Labour strikes student protests and anti immigrant riots have all been on the rise As a clear sign of increasing dissatisfaction uncertainty and decline the ruling African National Congress recently ran into its worst electoral result ever if still only at local levels Meanwhile Jacob Zuma's embattled presidency marred by allegations of corruption and political cronyism sent South Africa's international image plummeting alongside the Rand the national currency This volume sheds light on the current difficulties and discusses future prospects The new South Africa is a country in dire need for change ***South Africa International Monetary Fund. African Dept., 2017-07-06*** This 2017 Article IV Consultation highlights that South Africa's vulnerabilities have become more pronounced and are set to increase further unless economic growth revives Following near standstill in economic activity in 2016 growth is projected to increase to 1.0 percent in 2017 and 1.2 percent in 2018 The current account deficit is projected to decline to 3 percent of GDP in 2017 boosted by mining and agricultural exports Consumer price inflation recently returned below 6 percent owing in part to the easing of the drought and is projected to remain marginally below the upper threshold of the 3.6 percent target band for the remainder of 2017 and in 2018 ***South Africa and***

***United Nations Peacekeeping Offensive Operations*** Garcia, Antonio, 2018-08-16 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIB's objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges
