Social Work with Disadvantaged and Marginalised People Jonathan Parker, Sara Ashencaen Crabtree, 2017-10-30 Social workers whatever their specialism practise with people at the margins of society It is therefore essential that all social work students not only understand the powers and processes that lead to disadvantage and marginalisation but develop the knowledge and skills needed to bring about change and uphold social justice in all aspects of their professional practice Split into three parts this book considers what is meant by disadvantage and marginalisation how this can come about and the impact this may have on lives before unpicking the key knowledge and skills needed to practice effectively with individuals and groups It then goes on to show what good ethical and reflective practice looks like going step by step through the ins and

outs of using the law and policy to bring about change before considering key ethical dilemmas in practice Ciudades
circulares y viviendas saludables María Luisa Gómez Jiménez, 2022-10-19 La obra que se presenta aborda la necesidad de
atender el examen de la sostenibilidad desde la perspectiva de la inteligencia territorial pero en confluencia con la necesidad
de atención a la emergencia climática y a la singularidad tecnológica como elementos clave que nos permiten aprehender la
respuesta que los operadores públicos deben dar para adecuar las premisas urbanas de nuestras ciudades a los nuevos retos
que ha revelado los recientes escenarios sociales que atravesamos La emergencia sanitaria y la crisis económica energética
derivada de los escenarios de confrontación internacional nos han situado ante la constatación de una necesidad de cambio en
la gestión de los recursos públicos y una atención a la economía circular en las ciudades en la definición de procesos
productivos y en la misma definición de los parámetros de salud pública que el diseño urbano debe incorporar Así el texto que
ahora tiene la oportunidad de leerse desde una proyección interdisciplinar un aporte sólido coherente y original que
apuesta por la búsqueda de un novedoso concepto el de las ciudades circulares entendidas como aquellas que nos hacen
sentir saludables eficientes sostenibles y seguros Aquellas que proporcionan espacios habitables para nuestros mayores
integrando los servicios socio sanitarios y el enfoque tecnológico de partida y que utilizan el diseño de la inteligencia
territorial con un fin de abordar los nuevos retos de la movilidad el desarrollo urbano y la utilización del espacio por las
comunidades resilientes en la era post COVID Las ciudades inteligentes deben ser pues circulares y eficientes en la gestión y
uso de los recursos entre ellos el uso de la energía Le invitamos a que se adentre pues en el tema desde el caleidoscopio que
muestra la conexión entre los aspectos vinculados a las smart cities el cambio climático la inteligencia artificial las nuevas
tipologías de vivienda saludables y adaptadas o las soluciones basadas en la naturaleza entre otros temas abordados
Elementos que permitirán perfilar una propuesta de ciudad circular y resiliente huérfana aún de una atención normativa
integradora Esta obra emana del trabajo sólido del grupo de Investigación PASOS SEJ 650 y de las actividades desarrolladas
