consequences policymakers struggling with divisive issues concerning free enterprise ecology and public health and activists coordinating campaigns based on their respective visions of economic salvation and environmental ruin Throughout the book Wilber illustrates otherwise dense policy and legal issues in human terms and shows how ordinary people can affect extraordinary events      *Moduli Spaces of Riemann Surfaces* Benson Farb, Richard Hain, Eduard Looijenga, 2013-08-16 Mapping class groups and moduli spaces of Riemann surfaces were the topics of the Graduate Summer School at the 2011 IAS Park City Mathematics Institute This book presents the nine different lecture series comprising the summer school covering a selection of topics of current interest The introductory courses treat mapping class groups and Teichmüller theory The more advanced courses cover intersection theory on moduli spaces the dynamics of polygonal billiards and moduli spaces the stable cohomology of mapping class groups the structure of Torelli groups and arithmetic mapping class groups The courses consist of a set of intensive short lectures offered by leaders in the field designed to introduce students to exciting current research in mathematics These lectures do not duplicate standard courses available elsewhere The book should be a valuable resource for graduate students and researchers interested in the topology geometry and dynamics of moduli spaces of Riemann surfaces and related topics Titles in this series are co published with the Institute for Advanced Study Park City Mathematics Institute Members of the Mathematical Association of America MAA and the National Council of Teachers of Mathematics NCTM receive a 20% discount from list price      *Library Assessment* Stephanie P. Remensnyder, 2012-02-20 The word medieval is often used in a negative way when talking about contemporary issues Why the Middle Ages Matter refreshes our thinking about this historical era and our own by looking at some pressing concerns from today's world asking how these issues were really handled in the medieval period and showing why the past matters now The contributors here cover topics such as torture animal rights marriage sexuality imprisonment refugees poverty and end of life care They shed light on relations between Christians and Muslims and on political leadership This collection challenges many negative stereotypes of medieval people revealing a world from which for instance much could be learned about looking after the spiritual needs of the dying and about integrating prisoners into the wider community with the emphasis on reconciliation between victim and criminal It represents a new level of engagement with

issues of social justice by medievalists and provides a highly engaging way into studying the middle ages for students
