Francesca Woodman's Dark Gaze Claire Raymond, 2016-05-20 Focusing on the later work of the American photographer Francesca Woodman (1958-1981), Claire Raymond takes up the question of the disintegrative condition of the art she produced in the last year of her life. Departing from the techniques of her earlier compositions, Woodman worked in the diazotype process for many of these late pieces, most importantly the monumental *Blueprint for a Temple*. Raymond shows that through her use of diazotype, a medium that breaks down when exposed to light, Woodman created art that is both supremely evocative aesthetically and inherently unstable physically. Woodman contends that she was imaginatively responding to the end of the durable image, a historical reality acknowledged in the way her work plays the ephemeral and evanescent against the monumental and enduring. Raymond focuses on the theoretical and the curatorial issues surrounding Woodman's diazotypes, a thematic and practical distress that haunts much of her later art, especially the artist's book and photo series *Some Disordered Interior Geometries* and *Portrait of a Reputation*. Rather than conceiving of Woodman herself as fragile, an artist chronicling and seeming to yearn for her own disappearance, Raymond juxtaposes Woodman's career-spanning documentation of her own image against other post-war witnesses of trauma: an artist standing in the museum ruins where she emerges most distinctly as a figure of postmodernity.

The Palgrave Handbook of Contemporary Irish Theatre and Performance Eamonn Jordan, Eric Weitz, 2018-09-18 This Handbook offers a multiform sweep of theoretical, historical, practical, and personal glimpses into a landscape roughly characterised as contemporary Irish theatre and performance. Bringing together a spectrum of voices and sensibilities in each of its four sections: *Histories*, *Close-ups*, *Interfaces*, and *Reflections*, it casts its gaze back across the past sixty years or so to recall, analyse, and assess the recent legacy of theatre and performance on this island. While offering information, overviews, and reflections of current thought across its chapters, this book will serve most handily as food for thought and a springboard for curiosity. Offering something different in its mix of themes and perspectives, so that previously unexamined surfaces might come to light individually and in conjunction with other essays, it is a wide-ranging and indispensable resource in Irish theatre studies.

**Streaming and Copyright Law** Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright

and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
