

Parallels and Meridians

Thursday

1. Lines of latitude are also called parallels. Why?

2. Lines of longitude are not parallel to each other. Explain why.

Friday

1. Between which two parallels and which two meridians is the tip of Africa located?

2. Are 15°N latitude and 75°E longitude locations in the continent of Asia or Europe?

Challenge

Write the following memory trick as a caption on the map page. Illustrate the caption to help you remember in which directions the parallels and meridians run.

- The lines of *latitude*, which sounds like “ladder,” lie like the rungs of a ladder.
- The lines of *longitude* are “long” and all run from the North Pole to the South Pole.
