**Critical Stylistics** Lesley Jeffries, 2017-09-16 This original and engaging textbook is concerned with stylistic choices and the textual analysis which can illuminate the choices that a text producer has made. It combines the strengths of two approaches: critical discourse analysis and stylistics to uncover the deep-seated ideologies of everyday texts. In so doing, it introduces a comprehensive set of tools which will help readers to explain and analyse the power of written texts. Each chapter focuses on a particular linguistic feature such as naming and describing, prioritizing, negating and hypothesizing, gives an overview of its argument and then explains the technical aspects of the feature along with a wealth of examples. This book will be ideal reading for students on a wide range of courses including stylistics, discourse analysis, critical discourse analysis, English functional grammar and advanced composition.

discursive practices that play a crucial part in everyday interaction Steering a course between traditional perspectives and new theoretical approaches this innovative and exciting way of looking at irony and banter will no doubt open new avenues for research Exploring Language and Society with Big Data Minna Korhonen, Haidee Kotze, Jukka Tyrkkö, 2023-11-15

As the legislative bodies of democratic nations parliaments play a fundamental role in society Consequently the linguistic practices observed in parliamentary discourse are of importance to everyone This volume brings together leading researchers in areas of corpus linguistics big data parliamentary discourse and historical linguistics in a truly interdisciplinary exploration at the vanguard of big data and corpus methods with the aim to investigate the intersection between linguistic and social change Making use of both quantitative and qualitative methods the studies included in this volume range from a focus on explicitly linguistic phenomena to topics that contribute to our understanding of language and society more generally It breaks new ground in its critical reflection on the conceptual and methodological challenges of using large corpora of parliamentary discourse to study both the specialised language of parliamentary speech and the societies that the parliaments in question represent and govern The Ethics and Poetics of Alterity Maylis

Rospide, Sandrine Sorlin, 2015-09-04 This volume focuses on language and ethics in literary genres such as dystopia science fiction and fantasy that depict encounters with alterity Indeed so called genre literature embodies a heuristic model that dramatizes and exacerbates these encounters by featuring exotic subhuman or post human beings that defy human knowledge elements particularly prevalent in science fiction and fantasy These genres have often been regarded as an entertaining or escapist field that does not lend itself to ethical and poetical reflections limiting its scope to a hollow and servile repetition of genre codes This volume shows unequivocally that this field does lend itself to such reflections The contributors to this book highlight genre literature's defamiliarising power through which things can be seen In meta conceptualising the relationship between language and reality it problematises and enhances this relation by making it more easily perceivable The book shows that rather than contenting itself with merely questioning the mechanism of estrangement genre literature explores the confines of readability and the boundary between the readerly and the writerly In their desire to represent the Other in all its complexity writers are indeed confronted with an ethical and poetical aporia how can what escapes humanity be described in human language How can human language represent things that have no known referent in the reader's world of experience This collection of essays reveals that the most prototypical traits of genre literature lie in the encounter with otherness and the linguistic issues this raises Sherko Bekas Ulrike Tabbert, Mahmood K.

Ibrahim, 2023-06-13 This book explores poetry by Sherko Bekas a Kurdish writer and Swedish Tucholsky award winner providing contextualising biography with original new information from an interview with his son and critical stylistic analyses of two selected poems The authors also include a section on the Kurdish language and translation of the poems into English There are very few English translations of some of Bekas poems and no book so far on the stylistic or even linguistic

analysis of his work with the result that Bekas is not widely known in the Western world This book aims to fill this lacuna in the literary and linguistic canon and it will be of interest to students and scholars of Translation Stylistics Middle Eastern History and Literature      **Stylistic Approaches to Nigerian Fiction** D. Tunca,2014-08-07 Drawing on the discipline of stylistics this book introduces a series of methodological tools and applies them to works by well known Nigerian writers including Abani Adichie and Okri In doing so it demonstrates how attention to form fosters understanding of content in their work as well as in African and postcolonial literatures more widely      *Perspectives on Negation* Frances Blanchette,Cynthia Lukyanenko,2025-03-31 Although negation has been studied extensively by philosophers linguists and psychologists it remains an active area of inquiry across the language sciences This dynamic and cross disciplinary volume contains a unique collection of chapters by language scientists from a variety of disciplines Readers will explore novel connections and gain insights into the nature of negation one of the few uncontroversial universal elements of natural language
