Compare and Contrast

Students practice comparing by looking for the similarities and differences between two or more people or things.

Make Inferences

Students practice making inferences by using clues in a passage to understand what is being implied.

DAY
1

Introduce the Compare and Contrast skill to students. Say: "When we look at how two or more things are similar, we are comparing. When we look at how they are different, we are contrasting. Draw a Venn diagram and label the two circles 'egg' and 'gold ball.' I invite volunteers to list similarities and differences between these two objects. (eg., Both are round and white. One is a food, and the other is used in sports.) Read aloud the instructions at the top of the page. Then remind students of the Make Inferences strategy (Week 2). Ask: Have you ever worked on a project with a friend or relative who has a different idea of how to do the project? Then say: As you read the story, think of that experience to help you understand how the characters in the story feel. Expect students to read the story and complete the skill and strategy practice activities on their own. Review the answers as a group."

WEEK 9
DAY 5

READ THE PASSAGE

Compare the two accounts of a handworking monkey named Mani.

An Unusual Goat Herder

There's a quiet farm in southern India with a most unusual goat herder. She is Mani, a monkey who came to the farm on her own and stayed to do an important job: protecting the goats. The farm grows coffee, oranges, and a spice called cardamom (KAH-duh-mum). The farm is also home to about 75 goats. These playful creatures usually need a human's watchful eye to make sure they don't get lost. At this farm, though, Mani does the daily work of herding the goats.

When Mani first came to the farm, she was injured. The owners nursed her back to health and tried to set her free. Instead of leaving, however, Mani befriended the goats. She takes the goats out to pasture every morning and watches over them until they all return in the evening.

Special Skills

Although Mani cannot speak, this goat-herding monkey uses sounds and gestures to accomplish her duties. When a goat is lost or in danger, Mani alerts the farmers by making a warning sound. Mani's tree-climbing skills really come in handy. When goats can't reach the fruit growing on a high branch, Mani climbs the tree and pulls the branch lower.

Mani has become a regular member of the farm team. She even brings her baby to work every day. She and her baby play with the goats and ride on their backs as they wander to the fields to eat. The farm owners trust Mani to supervise the 75 goats as well as any human could.

SKILL PRACTICE Read each question. Fill in the bubble next to the correct answer.

1. What do both accounts say about Mani?
 - ☐ She keeps the goats from getting lost.
 - ☐ Her health was poor when she first arrived.
 - ☐ She is Mani similar to a human.
 - ☐ She talks long raps during work.
2. How is Mani similar to a human?
 - ☐ She is watchful and wise.
 - ☐ She rides on the goats.
