A Help to Domestic Happiness John A.

James, 2015-07-13 Wives submit to your husbands as is fitting in the Lord Husbands love your wives and do not be harsh with them Children obey your parents in everything for this pleases the Lord Fathers do not embitter your children or they will become discouraged Colossians 3 18 21 It is an unquestionable truth that if a man be not happy at home he cannot be happy anywhere and the converse of the proposition is no less true that he who is happy there need be miserable no where Any attempt however feeble to render the domestic circle what it ever should be a scene of comfort is at least benevolent Nor is this a hopeless effort for he who has the bible in his hand and speaks as the oracles of God can disclose at once and in few words the important secret The principles of greatest consequence to mankind whether we refer to science or to morals lie not buried deep in gloom and mystery but are to be found like the manna of the Israelites upon the surface of things The secret of happiness lies folded up in the leaves of the bible and is carried in the bosom of religion I know of no other way to felicity and therefore does not profess to teach any other Let the two parties in wedded life be believers in Christ Jesus and partake themselves of the peace that passes understanding let them when they become a father and a mother bring up their children in the fear of God and as a master and a mistress be diligent and successful in instructing their servants in the principles of religion and if happiness is to be found upon earth it will be enjoyed within the hallowed circle of a family thus united by love and sanctified by grace I do not deny that much of worldly comfort may be and often is enjoyed in some families which neither possess nor profess a serious regard to the claims of religion While it must be acknowledged on the other hand that there are to be found professors of religion whose households are anything but happy ones In reference to the former it may be affirmed that piety while it would raise their enjoyment to a sublimer kind and a higher degree of happiness in this world would also perpetuate it through eternity While in reference to the latter it may be remarked that their disquietude is not produced by religion but occasioned by the lack of it A mere profession of the Christian faith is rather a hindrance to felicity than a help nothing short of real religion can be expected to yield its joys

Monitor Or a Help to Domestic Happiness The substance of the following chapters was delivered by the Author in a course of sermons which followed a series of expository lectures on the epistle to the Ephesians The consecutive method of preaching which he principally uses is attended he thinks with this among many other advantages that it brings under the review of a minister many subjects which would otherwise be overlooked affords an opportunity for the introduction of some topics which from their peculiarity seem to require such a way of access to the pulpit and also furnishes an apology for the discussion of others which the fastidiousness of modern delicacy has almost excluded from the range of pastoral admonition On entering upon the first branch of relative duties the author was so much under the influence perhaps improperly of this excess of refinement and felt so much the difficulty of making a public statement of the duties of husbands and wives that he had determined at one time to relieve himself from the embarrassment by merely reading large extracts from Mr Jay s beautiful sermon on this subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Family Monitor John Angell James,1829

study is the first treatment devoted to Sir Arthur Helps 1813-1875 who was a prominent figure in the mid-Victorian world. Readers will discover that from the 1840s until his death, Helps was influential and well known to many key figures. Carlyle, Ruskin, Froude, and the Queen were among those whom he befriended. In fact, it was almost certainly these relationships which Helps sought to protect by directing that the bulk of his private papers and correspondence be destroyed upon his death. Making use of extensive primary and secondary sources, this book begins the process of recovering this once eminent Victorian. Helps did become a forgotten figure, but nevertheless, during the course of his career, he made notable impacts upon many areas of British life. At once a social activist and literary figure, Helps labored to promote social reform while also lifting his pen to educate his readers about the complexity of both societal problems and the difficulties inherent in adequately addressing them. He looked well beyond Britain as well; it would be Helps who authored a four-volume history of the Spanish conquest of the New World while developing unrivaled expertise on the history and practice of slavery in the Americas. As Clerk of the Privy Council, Helps played a decisive role in addressing the problems caused by the Cattle Plague which shocked Britain in the middle of the 1860s. Most important, perhaps, it would be as Clerk that Helps served Queen Victoria not only as an informal confidant but by making decisions which refashioned the monarchy's public image. The book then reintroduces Helps by documenting and assessing his contributions to Victorian Britain.

A Man's Place John Tosh, 2008-10-01

div Domesticity is generally treated as an aspect of women's history. In this fascinating study of the nineteenth-century middle class, John Tosh shows how profoundly men's lives were conditioned by the Victorian ideal and how they negotiated its many contradictions. Tosh begins by looking at the experience of boyhood, married life, sex, and fatherhood in the early decades of the nineteenth century, illustrated by case studies representing a variety of backgrounds, and then contrasts this with the lives of the late Victorian generation. He finds that the first group of men placed a new value on the home as a reaction to the disorienting experience of urbanization and as a response to the teachings of Evangelical Christianity. Domesticity still proved problematic in practice, however, because most men were likely to be absent from home for most of the day, and the role of father began to acquire its modern indeterminacy. By the 1870s, men were becoming less enchanted with the pleasures of home. Once the rights of wives were extended by law and society, marriage seemed less attractive, and the bachelor world of clubland flourished as never before. The Victorians declared that to be fully human and fully masculine, men must be active participants in domestic life. In exposing the contradictions in this ideal, they defined the climate for gender politics in the next century.

The Fantasy of Family Elizabeth Thiel, 2013-06-17

The myth of the Victorian family remains a pervasive influence within a contemporary Britain that perceives itself to be in social crisis. Nostalgic for a golden age of Victorian values in which visions of supportive, united families

predominate the common consciousness exhorting by social and political discourse continues to vaunt the traditional natural family as the template by which all other family forms are gauged Yet this fantasy of family nurtured and augmented throughout the Victorian era was essentially a construct that belied the realities of a nineteenth century world in which orphanhood fostering and stepfamilies were endemic Focusing primarily on British children's texts written by women and drawing extensively on socio historic material The Fantasy of Family considers the paradoxes implicit to the perpetuation of the domestic ideal within the Victorian era and offers new perspectives on both nineteenth century and contemporary society
