A History of Magnetism in Human Civilisation Indrajit G. Roy, 2024-01-29 Humans over many millennia have been intrigued with magnetism and continuously revealing its nature and association with other objects both animate and inanimate Started with reverence for its mystic power the beautiful minds soon find the means to harness it This book is an omnibus that helps one travel through time over many millennia until today while giving glimpses of human achievements in

the Odyssey of human civilisation This is a scientific essay Nevertheless it offers a range of flavours such as the history of science philosophy social construct the early scientific revolution the impact of the Industrial Revolution the growth of modern science and discussion on scientific phenomena with no less scientific rigour while remaining simple and intelligible The book will be food for academic minds and a pleasant experience for general readers *Making Modern Science* Peter J. Bowler,Iwan Rhys Morus,2010-02-24 The development of science according to respected scholars Peter J Bowler and Iwan Rhys Morus expands our knowledge and control of the world in ways that affect but are also affected by society and culture In *Making Modern Science* a text designed for introductory college courses in the history of science and as a single volume introduction for the general reader Bowler and Morus explore both the history of science itself and its influence on modern thought Opening with an introduction that explains developments in the history of science over the last three decades and the controversies these initiatives have engendered the book then proceeds in two parts The first section considers key episodes in the development of modern science including the Scientific Revolution and individual accomplishments in geology physics and biology The second section is an analysis of the most important themes stemming from the social relations of science the discoveries that force society to rethink its religious moral or philosophical values *Making Modern Science* thus chronicles all major developments in scientific thinking from the revolutionary ideas of the seventeenth century to the contemporary issues of evolutionism genetics nuclear physics and modern cosmology Written by seasoned historians this book will encourage students to see the history of science not as a series of names and dates but as an interconnected and complex web of relationships between science and modern society The first survey of its kind *Making Modern Science* is a much needed and accessible introduction to the history of science engagingly written for undergraduates and curious readers alike **The Asian Law and Society Reader** Lynette J. Chua,David M. Engel,Sida Liu,2023-03-09 The first reader on Asian law and society scholarship this book features reading selections from a wide range of Asian countries East South Southeast and Central Asia along with original commentaries by the three editors on the theoretical debates and research methods pertinent to the discipline Organized by themes and topical areas the reader enables scholars and students to break out of country specific silos to make theoretical connections across national borders It meets a growing demand for law and society materials in institutions and universities in Asia and around the world It is written at a level accessible to advanced undergraduate students and graduate students as well as experienced researchers and serves as a valuable teaching tool for courses focused on Asian law and society in law schools area studies history religion and social science fields such as sociology anthropology politics government and criminal justice **The Information Society Reader** with Raimo Blom,Erkki Karvonen,Harri Melin,Kaarle Nordenstreng,Ensio Puoskari,Frank Webster,Professor Frank Webster,2020-04-02 There has been much debate over the idea of the information society Some thinkers have argued that information is becoming the key ordering principle in society whereas others suggest that the rise of information has been overstated

Whatever the case it cannot be denied that informization has produced vast changes in advanced societies The Information Society Reader pulls together the main contributions to this debate from some of the key figures in the field Major topics addressed include post industrialism surveillance transformations the network society democracy digital divisions virtual relations With a comprehensive introduction from Frank Webster selections from Manuel Castells Anthony Giddens Michel Foucault and Christopher Lasch amongst others and section introductions contextualising the readings this book will be an invaluable resource for students and academics studying contemporary society and all things cyber Books and the Sciences in History Marina Frasca-Spada, Nicholas Jardine, 2000-11-02 This book published in 2000 examines the intersection between science and books from early medieval times to the nineteenth century **A Postmodern Reader** Joseph P. Natoli, Linda Hutcheon, 1993-01-01 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action **Nature and Scripture in the Abrahamic Religions: Up to 1700 (2 vols)** Scott Mandelbrote, Jitse van der Meer, 2009-01-31 The four companion volumes of Nature and Scripture in the Abrahamic Religions contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation Furthermore questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences Contributors are Peter Barker Paul M Blowers James J Bono Pamela Bright William E Carroll Kathleen M Crowther Maurice A Finocchiaro Carlos Fraenkel Miguel A Granada Peter Harrison Kenneth J Howell Eric Jorink Kerry V Magruder Scott Mandelbrote Charlotte Methuen Robert Morrison Richard J Oosterhoff Volker R Remmert T M Rudavsky Stephen D Snobelen Jitse M van der Meer and Rienk H Vermij *The Reader's Guide in Economic, Social and Political Science* Richard Rogers Bowker, George Iles, 1891 Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human

geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

The Law and Society Reader II Erik Larson, Patrick Schmidt, 2016-04-22 A cornucopia of knowledge and insight on the biggest questions in the sociolegal tradition an invaluable resource for researchers and teachers Michael McCann Gordon Hirabayashi Professor for the Advancement of Citizenship University of Washington Law and society scholars challenge the common belief that law is simply a neutral tool by which society sets standards and resolves disputes Decades of research shows how much the nature of communities organizations and the people inhabiting them affect how law works Just as much law shapes beliefs behaviors and wider social structures but the connections are much more nuanced and surprising than many expect Law and Society Reader II provides an accessible overview to the breadth of recent developments in this research tradition bringing to life this dynamic field In this second volume editors Erik W Larson and Patrick D Schmidt have compiled excerpts of 43 illuminating articles published since 1993 in The Law Society Review the flagship journal of the Law and Society Association By its organization and approach this volume enables readers to join in discussing the key ideas of law and society research The selections highlight the core insights and developments in this research tradition making these works indispensable for those exploring the field and ideal for classroom use Across six concisely introduced sections it analyzes inequality lawyering the relation between law and organizations and the place of law in relation to other social institutions
