[The Complete Aliens Collection: Living Nightmares \(Phalanx, Infiltrator, Vasquez\)](#) Scott Sigler, V. Castro, Weston, 2024-11-05

Collected together for the first time, this omnibus brings new authors to the Alien universe. Across three epic novels, discover the origins of fan favorite character PFC Jenette Vasquez and her family fight extinction at the hands of Xenomorphs and find the researchers of Pala Station courting disaster of the Xenomorph kind. *INFILTRATOR*: The official prequel to *Aliens Fire Team Elite* from Cold Iron Studios. Dr. Timothy Hoenikker arrives on Pala Station, a Weyland-Yutani facility lured there by the promise of alien artifacts. Instead, he finds a warped bureaucracy and staff of misfits testing the effects of Xenomorph bio materials on living creatures. Unbeknownst to the personnel, however, there is an infiltrator among them whose actions could spell disaster. Also on staff is Victor Rawlings, a former marine who gathers together other veterans to prepare for the worst. As Pala Station receives a delivery of alien eggs, the experiments spin out of control, and only the former Colonial Marines stand between the humans and certain death.

*PHALANX*: *Ataegina* was an isolated world of medieval castles and rich cultures vibrant until the demons rose and slaughtered ninety percent of the planet's population. Swarms of lethal creatures with black husks, murderous claws, barbed tails, and dreaded tooth tongues rage across the land. Terrified survivors hide in ruined mountain keeps where they eke out a meager existence. Skilled runners travel the treacherous paths between keeps, maintaining trade and sharing information. If caught, they die screaming. Ahiliyah of Lemeth Hold is an exceptional runner, constantly risking her life for her people. When she and her closest companions discover a new weapon, it may offer the one last chance to end the demon plague. But to save humanity, the trio must fight their way to the tunnels of Black Smoke Mountain, the lair of the mythical Demon Mother.

*VASQUEZ*: Even before the doomed mission to Hadley's Hope, Jenette Vasquez had to fight to survive. Born to an immigrant family with a long military tradition, she looked up to the stars but life pulled her back down to Earth, first into a street gang, then prison. The Colonial Marines proved to be Vasquez's way out, a way that forced her to give up her twin children. Raised by Jenette's sister, Roseanna, those children, Leticia and Ramon, have been forced to discover their own ways to survive. Leticia, by following her mother's path into the military, and Ramon, by embracing the corporate hierarchy of Weyland-Yutani. Their paths converge on an unnamed world which some see as a potential utopia while others would use it for highly secretive research. Regardless of what humans might have planned for it, however, Xenomorphs will turn the planet into a living hell. Sarcastic, sexy, and action-packed, Vasquez brings generational heritage into the Alien universe in an explosive way.

Living with Emetophobia....My Story Caroline Dowdall,2011-09-02 Living with any kind of phobia must be at best inconvenient and no doubt can become a living hell It depends what you're phobic about if it's something that's easy to avoid like heights it's not likely to cause too much difficulty on the other hand if the object of your phobia is something that is an inescapable part of everyday existence it must make life difficult to bear One well known example is agoraphobia Less well known but apparently very common is emetophobia which is narrowly defined as a fear of vomiting but usually includes the additional fear of seeing other people vomiting and also

extends to a general fear of feeling nauseous Generally the effect on the life of an emetophobe is that he or she lives a life dictated by a constant programme of trying to avoid becoming nauseous or being exposed to people who are For me and probably for countless other women sufferers the most profoundly traumatic effect was the impact my phobia had on me during motherhood which in its early stages is a period which is almost defined by nausea and vomiting And that was only the beginning Then comes the fear that my children might get bugs that would cause them to vomit And of course they did leading to crises of anxiety and compulsive preventative and curative behaviour This has made me to feel that I didnt adequately perform my duties as a mother despite being so evidently devoted to that role Aside from my children there were many other strands of life that this phobia affected For instance I am still troubled by guilt that I didnt adequately support friends who were ill including two who ultimately died from cancer because of a fear of them vomiting in my presence More trivially there was fear of travel sickness which was so bad I avoided travelling by aeroplane for 30 years I am now a Grandmother to three beautiful children I live in Southern Spain and my dearest wish is to be able to have them come and visit me for holidays I want to be able to love them properly and not at arms length as I did with my own children My story is a compelling account of life with a near debilitating fear and how I managed to keep it a secret for 46 years but through my own shame and not without the understanding and love of my 3rd husband have almost managed to overcome it
