**The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating

concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

*Like One of the Family* Alice Childress, 2017-01-24 Recommended by Entertainment Weekly The hilarious uncompromising novel about African American domestic workers from a trailblazer in Black women's literature and now featuring a foreword by Roxane Gay First published in Paul Robeson's newspaper *Freedom* and composed of a series of conversations between Mildred a black domestic and her friend Marge *Like One of the Family* is a wry incisive portrait of working women in Harlem in the 1950s Rippling with satire and humor Mildred's outspoken accounts vividly capture her white employers complacency and condescension and their startled reactions to a maid who speaks her mind and refuses to exchange dignity for pay Upon publication the book sparked a critique of working conditions laying the groundwork for the contemporary domestic worker movement Although she was critically praised Childress's uncompromising politics and unflinching depictions of racism classism and sexism relegated her to the fringe of American literature *Like One of the Family* has been long overlooked but this new edition featuring a foreword by best selling author Roxane Gay will introduce Childress to a new generation

*The World Is Round* Nikky Finney, 2012-07-31 *The World Is Round* Nikky Finney's third volume of poetry collects the wisps of memory we carry with us throughout our earthly lives and weaves them into deft and nuanced poems that emphasize understanding the cycles of life The settings offer a view into the kaleidoscope of human experience the sweetness and shock of family life the omnipresent wash of memory and the ebullience of warm Southern air *The World Is Round* carries with it an implicit challenge to the author as a poet and to the reader as a fellow human to see the characters and details and events of our lives with clarity fearlessness and love The result is poems that range the gamut of human reach and resilience fury and frailty The poet's vision of community requires understanding and tolerance from every breathing soul Finney illuminates the cruelties of the sometimes gawking narrow minded world and makes a plea for compassion inspired by our common humanity
