A History Of Preaching:

A History of Preaching Volume 1 O.C. Edwards, Jr., 2010-09-01 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser known figures, Edwards paints a detailed, compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1, appearing in the print edition, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth—all of their distinctive contributions receive careful attention. Yet lesser known figures and developments also appear: from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching; to Howell Harris and Daniel Rowlands, preachers of the eighteenth century Welsh revival; to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, contained on the enclosed CD-ROM, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches, we all participate in this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.

A History of Preaching Edwin Charles Dargan, 2017-09-16. Excerpt from A History of Preaching From the Apostolic Fathers to the Great Reformers A.D. 70-1572. The remarkable lack of treatises on the History of Preaching especially in English early impressed me and aroused a desire to do something, however little, towards supplying the need. The difficulty of the task and the pressure of other and heavy burdens have occasioned many misgivings and delays and there have been of necessity changes of plan in the execution of the work. As now planned, the present volume is the first of three proposed books. It deals with the history up to and including the Reformation; the next will treat of Modern European preaching and the last will present a History of Preaching in the United States. Some material is in hand for these later works and should this one be fortunate enough to find a public and should life and leisure be granted me, I hope in time to produce them. For the completion of the present volume, opportunity was kindly afforded by the Trustees of the Seminary in granting me leave of absence for some months to visit Europe. While abroad from June 1902 to January 1903, I had time not only to write up much material already gathered but to visit some of the places made famous in the history of the pulpit and to read somewhat in a number of the great libraries including those at Berlin. A History of Preaching in Britain and America

Frederick Roth Webber, 1952 F R Webber's three volume History of Preaching in Britain and America not only traces the various eras of the rise and fall of preaching in the English speaking countries but it strives in particular to illuminate a fact which is well known to any student of church history that poor preaching is inevitably followed by a great period of religious stagnation while the preaching of evangelical truth results in spiritual life Mr Webber presents the lives and the sermons of the famous preachers of Scotland Wales Cornwall Ireland England and America depicting their manner and style of preaching and tracing the recurrent cycles of spiritual decay and revival in these countries The 3 volumes of his History of Preaching are punctuated with dramatic episodes from the lives of more than 800 famous princes of the pulpit Their doctrinal position is set forth including their attitude toward such doctrines as Verbal Inspiration and Justification and toward such evil fads as Evolution Higher Criticism Rationalism and Modernism
