Hogsette,2022-08-04 An ever expanding critical library on fantasy fiction requires an analysis of why the genre is so ubiquitous enduring and beloved This work analyzes the mythic elements in foundational fantasy texts arguing that mythopoeic fantasy reveals timeless truths that link human cultures past and present Through close readings of works like

Phantastes The King of Elfland s Daughter The Fellowship of the Ring The Lion the Witch and the Wardrobe A Wizard of Earthsea The Neverending Story A Wrinkle in Time and Out of the Silent Planet this book explores how mythopoeic fantasy speaks to the deepest concerns of the human heart It investigates the genre s use of an imagination that is sometimes atrophied by the demands of contemporary life and explores how fantasy provides restoration consolation and hope within a cultural context that too often decries such ideas Each chapter focuses on a representative text providing author background and engaging relevant scholarship on a variety of relevant thematic issues Offering new insights on these classic texts by drawing upon post secular critical approaches this work is suitable for both new and seasoned students of fantasy

Nonsense and Other Senses Elisabetta Tarantino with the collaboration of Carlo Caruso, 2020-07-24 This book deals with a topic that is gaining increasing critical attention the literature of nonsense and absurdity The volume gathers together twenty one essays on various aspects of literary nonsense according to criteria that are deliberately inclusive and eclectic Its purpose is to offer a gallery of nonsense practices in literature across periods and countries in the conviction that important critical insights can be gained from these juxtapositions Most of the cases presented here deal with linguistic nonsense but in a few instances the nonsense operates at the higher level of the interpretation of reality on the part of the subject or of the impossibility thereof The contributors to the volume are established and younger scholars from various countries Chronologically the chapters range widely from Dante to V clav Havel and offer a large span of national literatures Czech English Finnish French German Italian Japanese and literary genres poetry prose and drama inviting the readers to trace their own pathway and draw their own lines of connection One point that emerges with particular force is the notion that what distinguishes literary nonsense is its somehow regulated nature Literary nonsense thus sounds like a deliberate last ditch attempt to snatch order from the
