Apotheosis Now Yanhao Huang,2021-04-13 Many of us are starting to become tired

of this game of life We have been comparing and striving all our life But no matter how much success we have achieved we are still hollow and still have found nothing fulfilling We don't even know if happiness exists because it is no longer a living thing in our experience it has become dead as we only know it as a concept or memory We have sought self help advice philosophies and religious teachings to transform ourselves but have not gotten anywhere We have made some superficial improvements like adopting a new mindset but our core remains the same We are still competitive still fearful and we get disturbed all the time The problem with all attempts at self improvement is that we do not address the fundamental problem which is who is the you who needs to be improved We do not see that the one who is making the improvement is the same one who needs to be improved The more we try to improve the more conflict we introduce within and without The more knowledge we stuff in our heads the more we become trapped in a conceptual prison of reality Inevitably the more confused we get in life The book guides the reader out of their distorted beliefs to experience reality beyond the mind When the deeper intelligence is allowed to flourish without our mind's interference then the game of life becomes effortless
