The Stepford Wives By Ira Levin:

The Stepford Wives Ira Levin, 1972 **The Stepford Wives** Ira Levin, 1998 The book of the major new film starring Nicole Kidman and Matthew Broderick **The Stepford Wives** Ira Levin, 2011-07-21 The women of Stepford are not all that they seem All the beautiful people live in idyllic Stepford Connecticut an affluent suburban Eden populated with successful satisfied hubbies and beautiful dutiful wives For Joanna Eberhart newly arrived with her husband and two children it all seems too good to be true from the sweet Welcome Wagon lady to all those cheerful friendly faces in the supermarket checkout lines But just beneath the town's flawless surface something is sordid and wrong something abominable with roots in the local Men's Association And it may already be too late for Joanna to save herself from being devoured by Stepford's hideous perfection The Stepford Wives ,1974 The Stepford wives : a novel Ira Levin, 1972 **The Stepford Wives** ,1981 *The Stepford Wives* Samantha Lindop, 2022 The Stepford Wives 1975 occupies an unusual position in cinematic history As is often the case with cult texts the film was both a box office flop and widely misunderstood on release Intended as a feminist diatribe it was derided by Betty Friedan whose 1963 book *The Feminine Mystique* it literalised Even Ira Levin author of the novel from which the film was adapted concedes he was less than enthused with the filmed version Despite this the term Stepford wife has become idiolect for a particular kind of one dimensional upper middle class woman who is figuratively and to some extent literally an automation Indeed one does not need to have seen or even heard of the film or Levin's book to be familiar with the concept This study finally gives *The Stepford Wives* the serious scholarly attention it deserves The Stepford Wives Ira Levin, 1996 **LIFE** ,1972-10-13 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use **The Stepford Wives, ER B** Ira Levin, 2019 *Horror and Science Fiction Cinema and Society* Martin Harris, 2024-09-02 Examining how horror and science fiction films from the 1950s to the present invent and explore fictional us versus them scenarios this book analyzes the different ways such films employ allegory and or satire to interrogate the causes and consequences of increasing polarization in American politics and society Starting with the killer ants film with an anti communist subtext *Them* 1954 and concluding with Jordan Peele's social horror film with revenge seeking homicidal doppelgangers *Us* 2019 Martin Harris highlights social and political contexts contemporary reviews and responses and retrospective evaluations to show how American horror and science fiction films reflect and respond to contemporary conflicts marking various periods in U S history from post WWII to the present including those concerning race gender class faith political ideology national identity and other elements of American society *Horror and Science Fiction Cinema and Society* draws upon cinematic sociology to provide a resourceful approach to American horror and science fiction films that integrates discussion of plot construction and character development with analyses of the

thematic uses of conflict guiding readers understanding of how filmmakers create otherworldly confrontations to deliver real world social and political commentary *“Veronica’s Room” and Other Dramas* Ira Levin, 2025-02-04 Ira Levin’s trio of dramatic plays includes *Veronica’s Room* a chilling psychological drama that explores the thin line between reality and madness This beautiful new edition includes an introduction by Nicholas Levin In *Veronica’s Room* self possessed college student Susan is enticed to an ornate and ominous Victorian house by its two aging caretakers and agrees to impersonate the long dead sister of an elderly spinster who is at death’s door As the evening wears on Susan wonders is she who she thinks she is a self assured college student of the 1970s or is she really Veronica a conflicted young lady living in 1935 imagining herself to be Susan Crafted like a Rubik’s Cube within a kaleidoscope the play features four ensemble roles that constitute some of the most complex in the theatrical canon Gaslighting manipulation repression and unrelenting suspense keep the audience aghast and guessing until the very end **Technophobia!** Daniel Dinello, 2013-08-26

Techno heaven or techno hell If you believe many scientists working in the emerging fields of twenty first century technology the future is blissfully bright Initially human bodies will be perfected through genetic manipulation and the fusion of human and machine later human beings will completely shed the shackles of pain disease and even death as human minds are downloaded into death free robots whereby they can live forever in a heavenly posthuman existence In this techno utopian future humanity will be saved by the godlike power of technology If you believe the authors of science fiction however posthuman evolution marks the beginning of the end of human freedom values and identity Our dark future will be dominated by mad scientists rampaging robots killer clones and uncontrollable viruses In this timely new book Daniel Dinello examines the dramatic conflict between the techno utopia promised by real world scientists and the techno dystopia predicted by science fiction Organized into chapters devoted to robotics bionics artificial intelligence virtual reality biotechnology nanotechnology and other significant scientific advancements this book summarizes the current state of each technology while presenting corresponding reactions in science fiction Dinello draws on a rich range of material including films television books and computer games and argues that science fiction functions as a valuable corrective to technological domination countering techno hype and reflecting the weaponized religiously rationalized profit fueled motives of such science By imaging a disastrous future of posthuman techno totalitarianism science fiction encourages us to construct ways to contain new technology and asks its audience perhaps the most important question of the twenty first century is technology out of control

The American Robot Dustin A. Abnet, 2020-03-27 Although they entered the world as pure science fiction robots are now very much a fact of everyday life Whether a space age cyborg a chess playing automaton or simply the smartphone in our pocket robots have long been a symbol of the fraught and fearful relationship between ourselves and our creations Though we tend to think of them as products of twentieth century technology the word robot itself dates to only 1921 as a concept they have colored US society and culture for far longer as Dustin A Abnet shows to dazzling effect in *The American Robot* In tracing the history of the idea of robots in US culture Abnet draws on intellectual history religion literature film and television He explores how robots and their many kin have not only conceptually connected but literally embodied some of the most critical questions in modern culture He also investigates how the discourse around robots has reinforced social and economic inequalities as well as fantasies of mass domination chilling thoughts that the recent increase in job automation has done little to quell *The American Robot* argues that the deep history of robots has abetted both the literal replacement of humans by machines and the figurative transformation of humans into machines connecting advances in technology and capitalism to individual and societal change Look beneath the fears that fracture our society Abnet tells us and you're likely to find a robot lurking there
