A Century Of New Testament Study

Luke Timothy Johnson, Todd C. Penner

A Century Of New Testament Study:

A Century of New Testament Study John Riches, 1993 Part of the Century series each book reviews and summarises the key developments in a particular branch of religious studies during the past century Great changes have taken place during the past one hundred years This is no less true of New Testament study than it is of the wider sphere of social and political life This book not only presents a detailed survey of all the major and many of the lesser New Testament studies of the time but also attempts to relate the changes in approach to the broad socio political and international sphere The book starts with a review of the achievements of Biblical studies to the end of the nineteenth century and then turns to the work of the History of Religions school in Germany and reactions to it elsewhere There follows a survey of developments leading up to the work of R Bultmann and then a series of detailed studies of the major post war works in the field of Jesus Paul Mark and John The book concludes with a review of recent discussions of the nature of New Testament theology Central to the book is Bultmann's attempt to reconcile critical historical and theological New Testament studies and the ultimate failure of that synthesis Reviewing recent developments and considering the future of New Testament theology the author asks whether the time has not come for a similar attempt to integrate modern approaches to the subject **A Century of Theological and Religious Studies in Britain** Ernest Nicholson, 2004-01-15 The essays in this volume give an account of how the agenda for theology and religious studies was set and reset throughout the twentieth century by rapid and at times cataclysmic changes wars followed by social and academic upheavals in the 1960s by new movements of thought by a bounty of archaeological discoveries and by unprecedented archival research Further new trends of study and fresh approaches existentialist Marxian postmodern have in more recent years generated new quests and horizons for reflection and research The centenary of the British Academy in 2002 has provided a most welcome opportunity for reconsidering the contribution of British scholarship to theological and religious studies in the last hundred years **New Testament Studies** Bruce Manning Metzger, 1980-01-01 **The Century**, 1889 *The Making of the New Testament* Arthur G. Patzia, 2025-11-04 The story of the making of the New Testament is one in which scrolls bumped across cobbled Roman roads and pitched through rolling Mediterranean seas finally finding their destinations in stuffy dimly lit Christian house churches in Corinth or Colossae There they were read aloud and reread handled and copied forwarded and collected studied and treasured And eventually they were brought together to make up our New Testament This revised and expanded edition of *The Making of the New Testament* is a textbook introduction to the origin collection copying and canonizing of the New Testament documents Like shrewd detectives reading subtle whispers of evidence biblical scholars have studied the trail of clues and pieced together the story of these books Arthur Patzia tells the story answering our many questions How were books and documents produced in the first century What motivated the early Christians to commit teaching and narrative and vision to papyrus How were the stories and sayings of Jesus circulated handed down and shaped into Gospels What do we know about

ancient letter writing secretaries and copy shops Why were four Gospels included instead of just one How were Paul's letters sent here and there gathered into a single collection Who decided and by what criteria which documents would be included in the New Testament Explore these questions and more about these Scriptures whose everyday gritty story rings true to their extraordinary message the palpable mystery of the Word made flesh [The New Testament Church](#) John P. Harrison, James D. Dvorak, 2012-05-01 Christian communities today face enormous challenges in the new contexts and teachings that try to redefine what churches should be Christians look to the New Testament for a pattern for the church but the New Testament does not present a totally uniform picture of the structure leadership and sacraments practiced by first century congregations There was a unity of the Christian communities centered on the teaching that Jesus is the Christ whom God has raised from the dead and has enthroned as Lord yet not every assembly did exactly the same thing and saw themselves in exactly the same way Rather in the New Testament we find a collage of rich theological insights into what it means to be the church When leaders of today see this diversity they can look for New Testament ecclesiologies that are most relevant to the social and cultural context in which their community lives This volume of essays written with the latest scholarship highlights the uniqueness of individual ecclesiologies of the various New Testament documents and their core unifying themes **The Face of Old Testament Studies** David W. Baker, Bill T. Arnold, 2004-10 Leading scholars provide an overview of current issues in Old Testament studies **The Writings of the New Testament** Luke Timothy Johnson, Todd C. Penner, 1999 This publication includes a revised and updated version of Luke Timothy Johnson's introduction to the New Testament with a CD ROM The CD ROM includes a fully searchable version of Johnson's text links to the NRSV text from each biblical reference in the book a glossary hyperlinked to key words in the text student friendly summaries for each chapter additional discussion reflection questions for each chapter suggestions for research paper topics and links to additional resources on the Web primary documents other introductory material museum artefacts artwork **1 Peter (Baker Exegetical Commentary on the New Testament)** Karen H. Jobes, 2022-10-18 In this new edition in the award winning BECNT series leading evangelical biblical scholar Karen Jobes offers a substantive commentary on 1 Peter The first edition widely regarded as one of the leading commentaries on 1 Peter has sold over 22 000 copies The second edition takes recent scholarship into account and has been updated and revised throughout Jobes takes a historical grammatical approach to exegeting 1 Peter and considers the possibility that the original readers of the letter were actual exiles who had known Peter in some other location probably Rome She analyzes each discourse unit of the Greek text with a view toward not only what the letter meant in its original setting but how it speaks to readers today As with all BECNT volumes this commentary features an acclaimed user friendly design and admirably achieves the dual aims of the series academic sophistication with pastoral sensitivity and accessibility making it a useful tool for pastors church leaders students and teachers [A Narrative Theology of the New Testament](#) Timo Eskola, 2015-07-21 Focusing on the metanarrative of exile and restoration Timo Eskola

claims that a post liberal narrative New Testament theology is both consistent and explanative Combining a post New Quest perspective on Jesus with an eschatological reading of Paul the author states that Jesus temple criticism aims at restoration eschatology Jesus starts a priestly community that expects God s jubilee to begin with Jesus work and proceed with the preaching of the new gospel The reception of this message in the post Easter church results in resurrection Christology that proclaims Jesus Davidic kingship on God s throne of glory Both Paul and Jewish Christian teachers later present Christ s community as a new temple where believers serve the Lord as priests of the new covenant Furthermore restoration eschatology provides a new basis for understanding Paul s contrast with the words of the law and his teaching of justification

An Introduction to the New Testament, Second Edition Charles B. Puskas, C. Michael Robbins, 2011-06-16 Studying the New Testament requires a determination to encounter this collection of writings on its own terms This classic introduction by Charles B Puskas revised with C Michael Robbins provides helpful guidance Since the publication of the first edition which was in print for twenty years a host of new and diverse cultural historical social scientific socio rhetorical narrative textual and contextual studies has been examined Attentive also to the positive reviews of the first edition the authors retain the original tripartite arrangement on 1 the world of the New Testament 2 interpreting the New Testament and 3 Jesus and early Christianity This volume supplies readers with pertinent primary and secondary material The new edition carries on a genuine effort to be nonsectarian and although it is more of a critical introduction than a general survey it is recommended to midlevel college and seminary students and to anyone who wants to be better informed about the New Testament

The Christian World Around the New Testament Richard Bauckham, 2017-10-20 Most of these thirty one essays by Richard Bauckham a well known New Testament scholar were first published between 1979 and 2015 in journals and multi authored volumes Two are previously unpublished and one has not been published in English before They range widely over early Christianity and early Christian literature in both the New Testament period and the early patristic period reflecting the author s conviction that the historical study of early Christianity should not isolate the New Testament literature from other early Christian sources such as the apostolic fathers and the Christian apocryphal literature Some of the essays develop further the themes of the author s books on aspects of the Gospels such as the intended audiences of the Gospels the way in which Gospel traditions were transmitted the role of the eyewitnesses in the origins of the Gospels the importance of Papias s evidence about Gospel traditions and the relationship between canonical and Gnostic Gospels Some of the essays relate to important persons such as Peter Barnabas Paul and James These include a full investigation of the evidence for the martyrdom of Peter and an attempt to locate the estate of Publius where Paul stayed on Malta There are studies of the Sabbath and the Lord s Day in both the New Testament and patristic periods There are studies that survey most of the main categories of apocryphal Christian literature including apocryphal Gospels and Acts and with a special focus on the non canonical apocalypses such as the Apocalypse of Peter and the Latin Vision of Ezra

The Bible and Social Justice Cynthia Long Westfall, Bryan R.
