Federal Criminal Procedure Litigation Manual 2015 Stephen A. Saltzburg, David A. Schlueter, 2015-01-01 The Federal Criminal Procedure Litigation Manual 2015 is designed to assist the busy litigator prosecutor and judge in understanding the application of the rules in situations that recur in federal criminal trials The work is up to date reflecting the latest changes and amendments to the Federal Rules along with the latest and most significant cases The Federal Criminal Procedure Litigation Manual provides a thorough yet concise analysis of the Federal Rules of Criminal Procedure The manual sets out the official text of each rule followed by a short commentary that focuses on the key issues for each rule Numbered section headings facilitate quick reference to the pertinent commentary Practice Tips are also included throughout the commentary The manual provides balanced practice pointers for both the prosecutor and the defense counsel Following the commentary the reader will find lists of additional references Anyone who has practiced in federal court understands that while the rules of procedure are an important starting point there are many federal statutes that may have an impact on the trial Thus the manual lists selected federal statutes following the commentary The text also includes references to two leading treatises on the subject of the federal rules of criminal procedure and where appropriate to treatises on the federal rules of evidence Finally the authors have briefly noted selected leading federal cases that should provide a helpful starting point for further research

Paying for the Past Richard S. Frase, Julian V. Roberts, 2019 All modern sentencing systems in the US and beyond consider the offender's prior record to be an important determinant of the form and severity of punishment for subsequent offences Repeat offenders receive harsher punishments than first offenders and offenders with longer criminal records are punished more severely than those with shorter records Yet the vast literature on sentencing policy law and practice has generally overlooked the issue of prior convictions even though this is the most important sentencing factor after the seriousness of the crime In *Paying for the Past* Richard S Frase and Julian V Roberts provide a critical and systematic examination of current prior record enhancements under sentencing guidelines across the US Drawing on empirical data and analyses of guidelines from a number of jurisdictions they illustrate different approaches to prior record enhancements and the differing outcomes of those approaches Roberts and Frase demonstrate that most prior record enhancements generate a range of adverse outcomes at sentencing Further the pervasive justifications for prior record enhancement such as the repeat offender's assumed higher risk of reoffending or greater culpability are uncertain and have rarely been subjected to critical appraisal The punitive sentencing premiums for repeat offenders prescribed by US guidelines cannot be justified on grounds of prevention or retribution Shining a light on a neglected but critically important topic *Paying for the Past* examines the costs of prior record enhancements for repeat offenders and offers model guidelines to help reduce racial disparities and reallocate criminal justice resources for jurisdictions who use sentence enhancements

insulate the process from political winds David Cole New York Review of Books A cogent and provocative argument about how to achieve true institutional reform and fix our broken system Emily Bazelon author of Charged Deserved Criminal Sentences Andreas von Hirsch, 2017-02-09 This book provides an accessible and systematic restatement of the desert model for criminal sentencing by one of its leading academic exponents The desert model emphasises the degree of seriousness of the offender's crime in deciding the severity of his punishment and has become increasingly influential in recent penal practice and scholarly debate It explains why sentences should be based principally on crime seriousness and addresses among other topics how a desert based penalty scheme can be constructed how to gauge punishments seriousness and penalties severity what weight should be given to an offender's previous convictions how non custodial sentences should be scaled and what leeway there might be for taking other factors into account such as an offender's need for treatment The volume will be of interest to all those working in penal theory and practice criminal sentencing and the criminal law more generally Michigan Sentencing Guidelines Manual Michigan Sentencing Guidelines Commission, West Group, 2001

Challenges in the Field of Economic and Financial Crime in Europe and the US Katalin Ligeti, Vanessa Franssen, 2017-02-23 In the past few years criminal justice systems have faced important global challenges in the field of economic and financial crime The 2008 financial crisis revealed how strongly financial markets and economies are interconnected and illustrated that misconduct in the economic and financial sectors is often of a systemic nature with wide spread consequences for a large number of victims The prevention control and punishment of such crimes is thus confronted with a strong globalisation Moreover continuous technological evolutions and socio economic developments make the distinction between socially desirable and undesirable behaviour more problematic Besides economic and financial misconduct is notoriously difficult to detect and investigate In light of these challenges legislators and law enforcers have been searching for adequate responses to combat economic and financial crime by adapting existing policies norms and practices and by creating new enforcement mechanisms The purpose of this volume is to analyse those challenges in the field of economic and financial crime from different perspectives and to examine which particular solutions criminal justice systems across Europe give to those challenges The volume has four parts The first part focuses on a number of key questions with respect to substantive criminal law whereas the second part will address issues affecting the administration of justice and criminal procedure Part three then explores particular challenges concerning multi agency cooperation and multi disciplinary investigations Finally part four will concentrate on issues regarding shared or integrated enforcement models
