**The Pasa Directory 2008**, 2008 **Handbook of Language and Ethnic Identity** Joshua Fishman, Ofelia Garcia, 2011-04-21 Like the first volume The Handbook of Language and Ethnic Identity Volume 2 is a reference work on the interconnection between language and ethnic identity In this volume 37 new essays provide a systematic look at different language and ethnic identity efforts assess their relative successes and failures and place the cases on a success failure continuum The reasons for these failures and successes and the linguistic social and political contexts involved are subtle and highly complex Some of these factors have to do with whether the language is considered a dialect as in the cases of Bavarian Ebonics and Scots considered to be dialects of German American English and British English respectively Other factors have to do with government policy as in the cases of Basque and Navajo Still other factors are historical such as the way Canaanite was supplanted in present day Israel by another classical language Hebrew Although the volume offers considerable sophistication in the treatment of language ethnicity and identity it has been written

for the non specialized reader whether student or layperson The contributors are an international group of well known scholars in a range of fields Fishman and Garc a provide a detailed introduction that addresses the difficulty of assessing the success or failure of a language They also present a conclusion that integrates the data presented in the volume
