RELATIONSHIP

THE UNITED STATES AND  
MILITARY GOVERNMENT IN  
THAILAND, 1947–1958

Daniel Fineman

# A Special Relationship The United States And Military Government In Thailand 1947 1958

**Mark Philip Bradley**

## **A Special Relationship The United States And Military Government In Thailand 1947 1958:**

*A Special Relationship* Daniel Fineman, 1997-01-01 The development of the Thai American alliance from 1947 to 1958 dramatically transformed both countries involvement in Southeast Asia Bounded by two important political events in Thailand an army coup in 1947 and the military s assumption of complete control of government in 1958 the period witnessed both the entrenchment of authoritarian military government in Thailand and a revolution in U S Thai relations During these years the modern Thai political system emerged and the United States established its interest and influence in mainland Southeast Asian affairs The developments of the period made possible American s later more extensive involvement in Indochina *A Special Relationship* provides the most comprehensive analysis of this critical founding period of the Thai American alliance It reveals surprising new information on joint covert operations in Indochina American support for suppression of government opponents and CIA involvement in Thai domestic politics *The Ideal Man* Joshua Kurlantzick, 2011-10-13 How the West s greatest spy in Asia tried to stop the new American way of war and the steep price he paid for failing Jim Thompson landed in Thailand at the end of World War II a former American society dilettante who became an Asian legend as a spy and silk magnate with access to Thai worlds outsiders never saw As the Cold War reached Thailand America had a choice Should it as Thompson believed help other nations build democracies from their traditional cultures or as his ex OSS friend Willis Bird argued remake the world through deception and self serving alliances In a story rich with insights and intrigue this book explores a key Cold War episode that is still playing out today Highlights a pivotal moment in Cold War history that set a course for American foreign policy that is still being followed today Explores the dynamics that put Thailand at the center of the Cold War and the fighting in neighboring Laos that escalated from sideshow to the largest covert operation America had ever engaged in Draws on personal recollections and includes atmospheric details that bring the people events and the Thailand of the time to life Written by a journalist with extensive experience in Asian affairs who has spent years investigating every aspect of this story including Thompson s tragic disappearance *Dynamics of the Cold War in Asia* T. Vu, W. Wongsurawat, 2009-12-21 This book focuses on the neglected cultural front of the Cold War in Asia to explore the mindsets of Asian actors and untangle the complex cultural alliances that undergirded the security blocs on this continent **Elite Rivalry, Mass Killing and Genocide in Authoritarian Regimes** Eelco van der Maat, 2024-06-18 This book explains how mass killing is driven by elite politics within authoritarian regimes Mass killing and genocide defy reason and explanation How can genocidal elites present defenceless victims as an existential threat Why use indiscriminate killing that drives victims to coordinated resistance Mass killing seems counterproductive irrational and therefore inherently ideological By building on new insights on authoritarian politics this book argues that mass killing is not ideological but instead is a rational response to elite rivalry within authoritarian regimes Mass killing is therefore not driven by rivalries between groups but by elite rivalry within groups In Rwanda for example the genocide was not driven by conflicts between

Hutu and Tutsi but by conflicts within the Hutu regime The work demonstrates how mass killing helps elites build coalitions with groups that benefit from violence and how it divides support coalitions of rival elites Mass killing can therefore help elites win dangerous internal rivalries By qualitatively and quantitatively exploring elite rivalry and mass killing this book provides a new explanation for a host of mass killings and genocides It demonstrates that well known genocides such as the Rwandan and Cambodian genocides which are seemingly ideological are instead better explained by elite rivalry Mass killing is therefore not driven by the random madness of leaders nor by the desire to kill an outgroup but by the internal threats that authoritarian elites face This book will be of much interest to scholars and students of civil wars genocide political violence and International Relations in general

*Israel's Quest for Recognition and Acceptance in Asia* Jacob Abadi, 2004-03-01 This title represents a comprehensive study of Israel's attempts to build diplomatic relations with countries on the Asian continent The author argues that despite the persistence of the Arab Israeli conflict the Israeli Foreign Ministry was remarkably successful in gaining recognition in most Asian countries He provides an overview of Israel's relations with Asian countries from 1948 until the present and analyses the political social and economic factors in each country and the role that each played in the process of rapprochement with Israel He explores the reasons for Israel's successes as well as its failures and analyses the flaws in Israeli diplomacy

*"Good Coup" Gone Bad* Pavin Chachavalpongpun, 2014-06-18 What did the 2006 military coup show us It demonstrated that the crux of the Thai crisis is far more serious and much wider in scope than had previously been thought The monarchy is surely not a victim in the protracted conflict but the root cause and continuing factor that has eroded Thai politics The coup set in motion more prejudicial uses of the lese majeste law and in the process has led to more political prisoners It has also shredded the military into several segments turning generals into desperate royalists who continue to live off the monarchy in order to survive Issues of violence in the Thai south and the Thai Cambodian dispute became greatly intensified in the age of militarized politics The coup also produced unique colour coded politics and created crises of legitimacy This book is a collection of essays that reflect developments in Thai politics in the post coup period

*The Oxford Handbook of Higher Education in the Asia-Pacific Region* Devesh Kapur, Lily Kong, Florence Lo, David M. Malone, 2023-01-20 Since the turn of the millennium it has become clear that the Asia Pacific Region is economically the fastest growing continent in the world and is likely to remain so for some time despite the setbacks of the COVID 19 pandemic Asia Pacific's share of the world's Gross Domestic Product GDP doubled from 15 per cent to 30 per cent between 1970 and 2017 and is projected to account for half of global GDP by 2050 With South East and South Asia also growing rapidly with over half the world's population and three of the world's five largest economies Asia is soon poised to home half of the world's middle class a class that is both the driver and the product of higher education The quality of a country's system of higher education may be seen both as a gauge of its current level of national development as well as of its future economic prospects It is therefore natural that the putative Asian Century should generate interest in the region's

higher education systems which on the one hand share common characteristics a fixation with credentials and engineering high technology especially among male students and business degrees while at the same time are also highly differentiated not only across countries but also within As such a better understanding of higher education achievements failings potential and structural limitations in the Asia Pacific Region is imperative This handbook presents a number of significant country case studies and documents cross cutting trends relating to among other things the trilemma faced by governments juggling competing claims of access accessible cost and quality the balance between teaching and research the links between labour markets demand and higher education supply preferred fields of study and their consequences the rise of the research university in Asia the lure of institutions of international reputation within the region new education technologies and their effects and trends in government policy within the wider region and sub regions

*Finding Their Voice* Charles Keyes, 2014-01-05 The rural Lao speaking people of northeastern Thailand constitute over a third of the entire population of Thailand Over the last century this ethnically separate community has evolved from a traditional peasantry into cosmopolitan villagers who are actively shaping Thai politics Eminent anthropologist Charles Keyes traces this evolution in detail beginning with the failure of a Buddhist millenarian uprising in 1901 2 and concluding with the successful election of the Thai Rak Thai Pheu Thai Party in the 2000s In the intervening century rural northeasterners have become more educated and prosperous and they have gained a sophisticated understanding of the world and of their position in it as Thai citizens Although northeasterners have often been thwarted in their efforts to press government agencies to redress their grievances they have rejected radical revolutionary efforts to transform the Thai political system Instead they have looked to parliamentary democracy as the system in which they can make their voices heard As the country engages with the processes of democracy the Pheu Thai Party and the Red Shirt movement appear to have established the people of northeastern Thailand as an authentic voice in the nation s political landscape Highlights Traces the evolution of a marginalized peasantry into a significant political force in Thai society Examines the disjunction between the urban middle class negative perspectives on the northeastern Thai rural population and real characteristics of that population Highlights the different views of political authority and legitimacy in Thailand that have contributed to the twenty first century crisis in the Thai political order What Others Are Saying *Finding Their Voice* by anthropologist Charles Keyes is a culmination of decades of careful ethnography consistently combined with an astute political analysis and sense of history Reminiscent of Eugen Weber s classic *Peasants into Frenchmen* Keyes s book shows that the people of Isan have become the makers and undoers of governments and are more firmly wedded to the modern notion of parliamentary democracy than are the refined urban elites This book has as much to say about the polarized politics of Thailand as it does about the rich culture and history of Isan Philip Hirsch University of Sydney

*Southeast Asia on Screen* Gaik Cheng Khoo, Thomas Barker, Mary Ainslie, 2025-10-01 After the end of World War II when many Southeast Asian nations gained national independence and up until the Asian

Financial Crisis film industries here had distinctive and colourful histories shaped by unique national and domestic conditions Southeast Asia on Screen From Independence to Financial Crisis 1945 1998 addresses the similar themes histories trends technologies and sociopolitical events that have moulded the art and industry of film in this region identifying the unique characteristics that continue to shape cinema spectatorship and Southeast Asian filmmaking in the present and the future Bringing together scholars across the region chapters explore the conditions that have given rise to today s burgeoning Southeast Asian cinemas as well as the gaps that manifest as temporal belatedness and historical disjunctures in the more established regional industries

*Understanding ASEAN's Role in Asia-Pacific Order* Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN s prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN s contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day

**Transnational Soldiers** N. Arielli, B. Collins, 2012-11-28 Warfare in the modern era has often been described in terms of national armies fighting national wars This volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present Truly global in scope it offers an alternative way of reading the military history of the last 250 years

**Suharto's Cold War** Mattias Fibiger, 2023 This book examines President Suharto s effort to purge Indonesia of communism ensure the Left could never again pose a threat to the regnant order in Indonesia and promote anticommunist stability across the wider Southeast Asian region It emphasizes the role of international capital flows in the unfolding of the global Cold War showing how Suharto mobilized international aid and investment to construct his New Order dictatorship

**Before the Quagmire** William J. Rust, 2012-05-22 In the decade preceding the first U S combat operations in Vietnam the Eisenhower administration sought to defeat a communist led insurgency in neighboring Laos Although U S foreign policy in the 1950s focused primarily on threats posed by the Soviet Union and the People s Republic of China the American engagement in Laos evolved from a small cold war skirmish into a superpower confrontation near the end of President Eisenhower s second term Ultimately the American experience in Laos foreshadowed many of the mistakes made by the United States in Vietnam in the 1960s In *Before the Quagmire* American Intervention in Laos 1954 1961 William J Rust delves into key policy decisions made in Washington and their implementation in Laos which became first steps on the path to the wider war in Southeast Asia Drawing on previously untapped archival sources *Before the Quagmire* documents how ineffective and sometimes self defeating assistance to Laotian anticommunist elites reflected fundamental misunderstandings

about the country's politics, history and culture. The American goal of preventing a communist takeover in Laos was further hindered by divisions among Western allies and U.S. officials themselves who at one point provided aid to both the Royal Lao Government and to a Laotian general who plotted to overthrow it. Before the Quagmire is a vivid analysis of a critical period of cold war history filling a gap in our understanding of U.S. policy toward Southeast Asia and America's entry into the Vietnam War.

A Companion to Post-1945 America Jean-Christophe Agnew, Roy Rosenzweig, 2008-04-15 A Companion to Post 1945 America is an original collection of 34 essays by key scholars on the history and historiography of Post 1945 America. Covers society and culture, people and movements, politics and foreign policy. Surveys and evaluates the best scholarship on every important era and topic. Includes book review section on essential readings.

Thai South and Malay North Michael John Montesano, Patrick Jory, 2008 The portion of the Malay Peninsula where the Thai Buddhist civilization of Thailand gives way to the Malay Muslim civilization of Malaysia is characterized by multiple forms of pluralism. This book examines a broad range of issues relating to the turmoil afflicting the region.

**The Oxford Handbook of the History of Nationalism** John Breuilly, 2013-03-07 Thirty six essays by a team of leading scholars providing a global coverage of the history of nationalism in its different aspects: its ideas, its sentiments and its politics.

Legacy of Engagement in Southeast Asia Ann Marie Murphy, Bridget Welsh, 2008 By looking back to understand the contemporary political and economic landscape of Southeast Asia, these essays shed light on how modern Southeast Asia has evolved. Special focus centres on US engagement with the region by both governmental and non governmental organisations.

*Thailand* Maurizio Peleggi, 2007-05-30 Tourist brochures and travel guides depict Thailand as an exotic country with a rich cultural heritage, strong religious traditions and a popular monarchy. Historians also contribute to Thailand's international allure with chronicles of its unique historical and cultural continuity in comparison to the other Southeast Asian countries whose histories are stained by colonialism and nationalist struggles for independence. Thailand challenges these stereotypes with a reinterpretation as well as an introduction to the emergence of Thailand as a nation state. The book argues that the development of Thai nationhood was a long term process shaped by interactions with the outside world, its pursuit of civilization and more recently globalization. Maurizio Peleggi's original account investigates among other issues the evolution of the geographical and linguistic landscapes, changes in class and gender relations, the role of institutions and ideologies, modern cultural expressions, social memory and the conception of the Thai national self as contrasted against the racial and cultural Others of Burmese, Chinese and Westerners. Thailand is a concise and compelling introduction to the complexities that lie behind Thailand's exotic facade.

*Imagining Vietnam and America* Mark Philip Bradley, 2003-06-19 In this study of the encounter between Vietnam and the United States from 1919 to 1950, Mark Bradley fundamentally reconceptualizes the origins of the Cold War in Vietnam and the place of postcolonial Vietnam in the history of the twentieth century. Among the first Americans granted a visa to undertake research in Vietnam since the war, Bradley draws on newly available Vietnamese

language primary sources and interviews as well as archival materials from France Great Britain and the United States Bradley uses these sources to reveal an imagined America that occupied a central place in Vietnamese political discourse symbolizing the qualities that revolutionaries believed were critical for reshaping their society American policymakers he argues articulated their own imagined Vietnam a deprecating vision informed by the conviction that the country should be remade in America's image Contrary to other historians who focus on the Soviet American rivalry and ignore the policies and perceptions of Vietnamese actors Bradley contends that the global discourse and practices of colonialism race modernism and postcolonial state making were profoundly implicated in and ultimately transcended the dynamics of the Cold War in shaping Vietnamese American relations

*Globalization, Development And Security In Asia (In 4 Volumes)* ,2014-04-28

Asian countries are undergoing rapid political economic and social transformations meanwhile there is a growing demand for knowing more about Asia This Major Reference Set is designed to help general readers as well as specialists to have a good grasp of the latest developments in Asia in the key areas of economic growth trade energy environment foreign policy and security With 4 volumes this set covers all major dimensions of Asia's political economy Contributors include both scholars and practitioners who provide first hand description and analysis of fundamental issues in Asia Peace and political stability are of ultimate importance with Asia at the forefront of wealth creation in the global economy Volume 1 unpacks and examines the foreign policy strategies of key states and the role of regional institutions in responding to the security demands of an Asian century Volume 2 studies the strong economic integration through trade and cross border investment that has been essential to Asia The region's future prosperity depends on it being able to remain open and outward looking As Asia grows larger and richer more concerted efforts are required to surmount regional rivalry and to further strengthen the regional architecture of economic cooperation Volume 3 looks at the emerging economies thirst for energy that creates huge competition around which domestic regional and international political economy unfolds Climate change and aspiration for sustainable development further complicate the challenge Volume 4 offers a comprehensive coverage of subjects on environment and sustainable development in Asia with case studies of selected and representative countries that are at different stages of economic development and facing different environment related problems and challenges in the twenty first century This interdisciplinary set is a fine example of international cooperation with contributors hailing from different parts of Asia as well as North America and Europe It is a must have for anyone keen on understanding Asia's dynamic and changing scene
