A Simple Guide To Uk Public Sector Transformation:

Public Sector Transformation Processes and Internet Public Procurement: Decision Support Systems Pomazalová, Natasa, 2012-12-31 While many social economic and political changes have occurred recently in internet public procurement and its decision support systems there is still a lot of opportunity for improvement Public Sector Transformation Processes and Internet Public Procurement Decision Support Systems brings together research on different perspectives from academics and practitioners on the methods theories and practices involved in the growth and expansion of decision support systems as it relates to the public sector transformation process and internet public procurement **OECD Digital Government Studies Digital Government in Chile - Improving Public Service Design and Delivery** OECD, 2020-05-30 This report presents a conceptual model for service design and delivery that challenges governments to develop a design led culture and ensure access to the enabling tools and resources necessary to deliver services that improve outcomes efficiency satisfaction and well being This model is used to analyse the situation in Chile and provide recommendations about how the ChileAtiende service delivery network can bring the state closer to citizens through a simpler more efficient and transparent approach **Delivering Social Welfare** Derek Birrell, Ann Marie Gray, 2016-12-14 As the system of social welfare governance and delivery in the United Kingdom faces continued radical change this important book argues that this change is so extensive that we should consider it a fundamental transformation or revolution Assessing twenty years of changes across the whole of the United Kingdom Derek Birrell and Ann Marie Gray show how a new public governance perspective has replaced the dominance of public management reflecting the increasingly plural and fragmented nature of public policy implementation Drawing on examples across a range of policy areas this comprehensive book unravels the complex ways in which changes in social policy and governance interact in the delivery of social welfare making it essential reading for welfare researchers students and policy makers Handbook on Strategic Public Management Carsten Greve, Tamyko Ysa, 2023-01-20 Offering essential interpretations of the surge in recent literature on strategy and public management this timely and insightful Handbook includes contributions from some of the key figures in the field focusing on concepts such as strategic management strategic planning and strategizing for public purposes Providing an in depth examination of strategic public management as a key topic in public management and governance this Handbook considers the interconnections between strategy public value and the state and the challenges of strategizing collaborative governance **Service transformation** David Sir Varney, Great Britain: H.M. Treasury, 2006-12-06 The focus of this review is how to save government citizen and business time and money by examining the scope of integrating front line service delivery The Service Sector is an important economic bulwark in a modern society with technology revolutionizing the way service providers interact with customers Yet with the continued pace of social demographic and technological change public service delivery is facing an increasing challenge with a gap developing between public and private service delivery Central

Government delivers such services through departments whilst departments make use of agents or agencies alone or in co operation with local government Such a system develops a transactional relationship that is the department focuses on the specific customer need but does not take account of the overview that is the Government s relationship with the citizen who may need multiple services but has to contact the various but separate helplines call centres front line offices and websites to obtain the relevant service they require A similar situation seems to apply to business with the need to provide the same data to different parts of government for different services The report believes that a much more fundamental and widespread change is necessary if the public service economy is to match the performance of the best service providers The Service Sector should follow international developments and learn from other countries experiences of creating a more responsive and integrated public service This report focuses on the opportunities for change in the channels through which services are delivered to citizens and business especially the development of single points of contact with government to meet a range of their needs and those of business This report builds on those published by Sir Peter Gershon ISBN 1845320328 and Sir Michael Lyons ISBN 1845320093 in 2004 available on HM Treasury website

Report 2023 Department of Economic and Social Affairs, 2023-10-25 This report examines the role that national institutional and governance innovations and changes that emerged during the COVID 19 pandemic can play in advancing progress towards the 2030 Agenda for Sustainable Development The consequences of the pandemic threaten to derail progress and make the Sustainable Development Goals SDGs more difficult to achieve Yet the pandemic also sparked rapid innovation in government institutions and public administration that could be capitalized on Against this backdrop the report focuses on how governments can reshape their relationship with people and other actors to enhance trust and promote the changes required for more sustainable and peaceful societies How they can assess competing priorities and address difficult policy trade offs that have emerged since 2020 And what assets and innovations they can mobilize to transform the public sector and achieve the SDGs The e book for this publication has been converted into an accessible format for the visually impaired and people with print reading disabilities It is fully compatible with leading screen reader technologies such as JAWS and NVDA

Broadband Services in Wales Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2012-09-17 In the Committee s report on broadband services it considers that the UK and Welsh Governments must work together and use all means available to bring broadband services in Wales up to speed with the rest of the UK and eradicate broadband slow spots and notspots as a matter of urgency Both Governments should consider promoting mobile and satellite technologies particularly in remote areas of Wales in order to deliver this and not rely solely on rolling out fibre optic cabling The availability of broadband has been consistently lower in Wales than the rest of the UK and although that gap has

narrowed in recent years latest figures show the gap is widening again The existence of notspots and slowspots has hindered existing businesses and deterred new businesses from choosing to locate in Wales to the cost of the local economy The Welsh Government's target is a commitment to provide all Welsh businesses with access to next generation broadband by the middle of 2016 The Committee also says that both Governments must ensure that the roll out of superfast broadband is not achieved at the expense of delivering a good broadband service for all The Committee recommends that Ofcom undertake a study to evaluate whether satellite broadband should be supported more vigorously in Wales the delayed Spectrum auction now planned for 2013 must ensure that 4G mobile services are available to at least 98% of people in Wales and Ofcom must continue its efforts to open up access to infrastructure in Wales BT's market power must be regulated effectively to ensure efficient operation of the market
