A Scream Goes Through The House What Literature Teaches Us About Life:

A Scream Goes Through the House Arnold Weinstein, 2007-12-18 For too long we have been encouraged to see culture as an affair of intellect and reading as a solitary exercise But the truth is different literature and art are pathways of feeling and our encounter with them is social inscribing us in a larger community Through art we discover that we are not alone So writes the esteemed Brown University professor Arnold Weinstein in this brilliant radical exploration of Western literature In the tradition of Harold Bloom and Jacques Barzun Weinstein guides us through great works of art to reveal how literature constitutes nothing less than a feast for the heart Our encounter with literature and art can be a unique form of human connection an entry into the storehouse of feeling Writing about works by Sophocles Shakespeare Dickens Charlotte Brontë Munch Proust O'Neill Burroughs DeLillo Tony Kushner Toni Morrison and others Weinstein explores how writers and artists give us a vision of what human life is really all about Reading is an affair of the heart as well as of the mind deepening our sense of the fundamental forces and emotions that govern our lives including fear pain illness loss depression death and love Provocative beautifully written essential *A Scream Goes Through the House* traces the human cry that echoes in literature through the ages demonstrating how intense feelings are heard and shared With intellectual insight and emotional acumen Weinstein reveals how the scream that resounds through the house of literature history the body and the family shows us who we really are and joins us together in a vast and timeless community Emerson, Romanticism, and Intuitive Reason Patrick J. Keane, 2005 Comparative study in transatlantic Romanticism that traces the links between German idealism British Romanticism Wordsworth Coleridge Carlyle and American Transcendentalism Focuses on Emerson's development and use of the concept of intuitive Reason which became the intellectual and emotional foundation of American Transcendentalism Provided by publisher *The Cambridge Companion to the City in Literature* Kevin R. McNamara, 2014-10-06 This Companion offers readers an accessible survey of the historical and symbolic relationships between literature and the city *Gifts of the Muse: Reframing the Debate about the Benefits of the Arts* Kevin F. McCarthy, Elizabeth H. Ondaatje, Laura Zakaras, Arthur Brooks, 2001-03-02 During the past decade arts advocates have relied on an instrumental approach to the benefits of the arts in arguing for support of the arts This report evaluates these arguments and asserts that a new approach is needed This new approach offers a more comprehensive view of how the arts create private and public value underscores the importance of the arts intrinsic benefits and links the creation of benefits to arts involvement *Hope for the Embattled Language Classroom* Olivia Kanna, 2022-10-01 Learning as it is being increasingly recognized is centrally predicated upon students well being Research findings indicate that in the instances of wounding and trauma students capacity and ability to learn can be severely compromised This understanding applies particularly to the immigrant students in the language classroom many of whom are refugees bringing with them past experiences of privation violence wounding and trauma Since teachers often find themselves wearing multiple hats not only

as instructors but also as friends philosophers guides confidantes and counsellors to their refugee and immigrant learners addressing those students trauma with compassion and employing appropriate pedagogical practices to mitigate their suffering should be of great relevance and inform the teachers praxis in the classroom This book takes an interdisciplinary look at trauma from the vantage points of critical language theories neuroscience psychotherapy and Buddhist psychology and suggests pedagogies for well being and trauma healing that utilize contemplative ways of education The practical aim of this book is to support teachers in addressing trauma in their classrooms

Death in Literature Outi Hakola, Sari Kivistö, 2014-05-02 Death is an inevitable yet mysterious event Fiction is one way to imagine and gain knowledge of death Death is very useful to literature as it creates plot twists suspense mysteries and emotional effects in narrations But more importantly stories about death seem to have an existential importance to our lives Stories provide fictional encounters with death and give meaning for both death and life Thus death is more than a physical or psychological experience in literature it also highlights existential questions concerning humanity and storytelling This volume entitled Death in Literature approaches death by examining the narratives and spectacles of death dying and mortality in different literary genres The articles consider literary representations of death from ancient Rome to the Netherlands today and explore ways of dealing with death and dying The discussions also transcend the boundaries of literature by studying literary representations of such socially relevant and death related issues as euthanasia and suicide The articles offer a broad perspective on death s role in literature as well as literature s role in the social and cultural debates about death

The Imaginative Argument Frank L. Cioffi, 2017-12-11 More than merely a writing text *The Imaginative Argument* offers writers instruction on how to use their imaginations to improve their prose Cioffi shows writers how they can enliven argument the organizing rubric of all persuasive writing by drawing on emotion soul and creativity the wellsprings of imagination While Cioffi suggests that argument should become a natural habit of mind for writers he goes still further inspiring writers to adopt as their gold standard the imaginative argument the surprising yet strikingly apt insight that organizes disparate noises into music that makes out of chaos chaos theory Rather than offering a model of writing based on established formulas or templates Cioffi urges writers to envision argument as an active parsing of experience that imaginatively reinvents the world Cioffi's manifesto asserts that successful argument also requires writers to explore their own deep seated feelings to

exploit the fuzzy but often profoundly insightful logic of the imagination But expression is not all that matters Cioffi's work anchors itself in the actual Drawing on Louis Kahn's notion that a good architect never has all the answers to a building's problems before its physical construction Cioffi maintains that in argument too answers must be forged along the way as the writer inventively deals with emergent problems and unforeseen complexities Indeed discovery imagination and invention suffuse all stages of the process The Imaginative Argument offers all the intellectual kindling that writers need to ignite this creativity from insights on developing ideas to avoiding bland assertions or logical leaps It cites exemplary nonfiction prose stylists including William James Ruth Benedict and Erving Goffman as well as literary sources to demonstrate the dynamic of persuasive writing Provocative and lively it will prove not only essential reading but also inspiration for all those interested in arguing more imaginatively more successfully This edition features new chapters that cover the revision process in greater depth as well as the particular challenges of researching and writing in the digital age such as working with technology and avoiding plagiarism The book also includes new sample essays an appendix to help instructors use the book in the classroom and much more *Philosophy in Schools* Michael Hand, Carrie Winstanley, 2009-09-10 A collection of original philosophical essays that together make a robust case for the teaching of philosophy in schools

Teaching Beauty in DeLillo, Woolf, and Merrill J. Green-Lewis, M. Soltan, 2008-04-14 What happened to beauty How did the university literature classroom turn into a seminar on politics Focusing on such writers as Don DeLillo Virginia Woolf and James Merrill this book examines what has been lost to literature as a discipline and to literary criticism as a practice as a result of efforts to reduce the aesthetic to the ideological Green Lewis and Soltan celebrate the return of beauty as a subject in its own right to literary studies a return all the more urgent given beauty s ability to provide not merely consolation but a sense of order and control in the context of a threatening political world
