### A Theory Of Incentives In Procurement And Regulation:

A Theory of Incentives in Procurement and Regulation Jean-Jacques Laffont, Jean Tirole, 1993 Based on their work in the application of principal agent theory to questions of regulation Laffont and Tirole develop a synthetic approach to this field focusing on the regulation of natural monopolies such as military contractors utility companies and transportation authorities

A THEORY OF INCENTIVES IN PROCUREMENT AND REGULATION Jean-Jacques Laffont, 1993 Handbook of Industrial Organization Mark Armstrong, Robert H. Porter, 2007-10-05 This is Volume 3 of the Handbook of Industrial Organization series HIO Volumes 1 2 published simultaneously in 1989 and many of the chapters were widely cited and appeared on graduate reading lists Since the first volumes published the field of industrial organization has continued to evolve and this volume fills the gaps While the first two volumes of HIO contain much more discussion of the theoretical literature than of the empirical literature it was representative of the field at that time Since then the empirical literature has flourished while the theoretical literature has continued to grow and this new volume reflects that change of emphasis Thie volume is an excellent reference and teaching supplement for industrial organization or industrial economics the microeconomics field that focuses on business behavior and its implications for both market structures and processes and for related public policies Part of the renowned Handbooks in Economics series Chapters are contributed by some of the leading experts in their fields A source reference and teaching supplement for industrial organizations or industrial economists

Mandatory Financial Disclosures and the Banking Sector Kumar Dasgupta, 2023-07-27 This book explores mandatory disclosures The book raises questions regarding the efficacy of market discipline and reaches a conclusion that seems to be borne out by the recent failure of Silicon Valley Bank and Credit Suisse The book starts by asking the question why do we need mandatory disclosures First it develops a framework using a Principal Agent model that provides an economic rationale for such disclosures Second it analyses the requirements outlined in Basel banking regulations over three decades and finds support for the propositions outlined in the developed framework in all key BCBS pronouncements Last the book empirically evaluates Pillar 3 disclosures and arrives at the surprising result that such disclosures do not seem have an impact on bond investors The book concludes by outlining the policy implications regarding the design efficacy implementation and limitations of regulation in an economy \*\*Regulation\* and Development\* Jean-Jacques Laffont, 2005-03-10 In Regulation and Development Jean Jacques Laffont provides the first theoretical analysis of regulation of public services for developing countries He shows how the debate between price cap regulation and cost of service regulation is affected by the characteristics of less developed countries LDCs and offers a positive theory of privatization that stresses the role of

corruption He develops a new theory of regulation with limited enforcement capabilities and discusses the delicate issue of access pricing in view of LDC s specificities In the final chapter he proposes a theory of separation of powers which reveals one of the many vicious circles of underdevelopment made explicit by the economics of information Based on organization theory and history and using simple empirical tests wherever possible Professor Laffont offers a comprehensive evaluation of the different ways to organize the regulatory institutions and opens up a rich new research agenda for development studies

Kovacic, 1995 sector pricing **Infrastructure Regulation:** What Works, Why And How Do We Know? Lessons From Asia And Beyond Darryl S L Jarvis, M Ramesh, Xun Wu, Eduardo K Araral, Jr, 2011-06-08 Regulation of public infrastructure has been a topic of interest for more than a century Providing public goods securing their financing maintenance and improving the efficiency of their delivery has generated a voluminous literature and series of debates More recently these issues have again become a central concern as new public management approaches have transformed the role of the state in the provision of public goods and the modalities by which the financing of infrastructure and its operation are procured Yet despite the proliferation of new modalities of regulating

infrastructure little is known about what works and why Why do certain regulatory regimes fail and others succeed What regulatory designs and institutional features produce optimal outcomes and how And why do regulatory forms of governance when transplanted into different institutional contexts produce less than uniform outcomes This book addresses these questions exploring the theoretical foundations of regulation as well as a series of case studies drawn from the telecommunications electricity and water sectors It brings together distinguished scholars and expert practitioners to explore the practical problems of regulation regulatory design infrastructure operation and the implications for infrastructure Designing Natural Gas Distribution Concessions in a Megacity Juan Rosellón, Jonathan Halpern, 2001 Private participation in the development of natural gas distribution networks is often introduced through the award of exclusive concessions for defined geographic zones Designing such franchises in a megacity poses a challenge in striking a balance between economies of scale few distributors and information disclosure for regulation more distributors Approaches to making these and related tradeoffs are analyzed through a case study of Mexico City International Handbook on **Economic Regulation** Michael A. Crew, David Parker, 2006 Michael Crew and David Parker have compiled a comprehensive up to date and detailed analytical work on leading research issues in the economics of regulation With contributions from international specialists in economic regulation the Handbook provides a comprehensive discussion of major developments in both the theory and practice of regulatory economics This book will be an indispensable source for both students and practitioners of regulation The Handbook begins by looking at the principles history and methods of regulation before turning to specialist themes including pricing and social welfare regulating service guality consumer representation performance benchmarking environmental regulation calculating the cost of capital information revelation and incentives the economics of access charging regulatory governance regulatory policy in developing countries particular issues in the regulation of the telecommunications energy transport and water sectors The International Handbook on Economic Regulation is essential reading for researchers in the economics of regulation and students of regulation on final year undergraduate and postgraduate degree courses As a major reference work it is of value and assistance to economists in regulatory offices regulated companies and government departments
