A Short History of Reconstruction Eric Foner, 2010-10-19 An abridged version of Reconstruction America's Unfinished Revolution the definitive study of the aftermath of the Civil War winner of the Bancroft Prize Avery O Craven Prize Los Angeles Times Book Award Francis Parkman Prize and Lionel Trilling Prize

Short History of the Reconstruction Foner, 1990-01-01

Neoliberal Globalization Paul C. Mocombe, 2022-08-17 This work uses the theory of phenomenological structuralism to put forth the argument that neoliberal globalization represents a Durkheimian mechanicalization of the world via the Protestant Ethic and the spirit of capitalism under American hegemony It concludes that America attempts to enframe nation states around the latter form of social integration via the systemicity of the dollar backed by the world's commodities which it privatizes Amidst reactionary nationalism and fascism which emerges to protect the citizenry of the world from the exploitative effects of the whole process climate change threatens the American globalist project

Capitalism, Lakouism, and Libertarian Communism Paul C. Mocombe, 2020-02-11 This work highlights the Haitian sociopolitical economic organization Lakous It posits that the Lakou is a form of libertarian communism that must be vertically integrated at the nation state level so that the people can experience total freedom from neoliberal capitalist relations of production and their deleterious effects such as exploitation and climate change

Identity and Ideology in the Haitian U.S. Diaspora Paul C. Mocombe, 2020-05-21 This work puts forth the argument that in the Haitian diaspora in the USA a new Haitian identity has emerged among the youth which is tied to the practical consciousness of the black American underclass Black Americans in the postindustrial capitalist world system of America are no longer Africans Instead their practical consciousnesses are the product of two identities the black bourgeoisie or African Americans on the one hand under the leadership of educated professionals and preachers and the black underclass on the other hand under the leadership of street and prison personalities athletes and entertainers vying for ideological and linguistic domination of black America These two social class language games were and still are historically constituted by structural differentiation and different ideological apparatuses the church and education on the one hand and the streets prisons and the athletic and entertainment industries on the other of the global capitalist racial class structure of inequality under American hegemony which replaced the African ideological apparatuses of Vodou peristyles lakous and agricultural production as found in Haiti for example Among Haitian youth in the US after 1986 following the topple of Jean Claude baby doc Duvalier the latter social class language game the black American underclass came to serve as the bearer of ideological and linguistic domination against Haitian bourgeois purposive rationality and agents of the Vodou Ethic and the spirit of communism

A Treatise on Northern Ireland Brendan O'Leary, 2019 The first volume of the definitive political

history of Northern Ireland **Friedrich Hecker** Sabine Freitag,2006 Friedrich Hecker 1811 1881 lived the first half of his life in the Grand Duchy of Baden a small state in southern Germany He was a major leader of a rebellion on behalf of the German republican movement in 1848 but his defeat forced him into exile in America There he spent the second half of his life as a farmer in southern Illinois helping to found the Republican Party and campaigning among his countrymen in local and national elections During the Civil War he served bravely fighting in some of the most important battles Although much better known in Germany than in America he founded a remarkable family in the Midwest that is still flourishing and is a major example of the melding of the European and American traditions of liberty The work draws heavily from original sources including letters and diaries at the Western Historical Manuscript Collection the Missouri Historical Society and the St Louis Mercantile Library **Women of the Civil War South** Marilyn Mayer Culpepper,2003-12-31 Presented here are excerpts from diaries and letters written by Southern women from different walks of life and areas of the country Mary White a fifteen year old girl attempted to get through the blockade in Wilmington North Carolina Nancy Jones lived in fear amid the violence that rocked Missouri and saw her close friends and family murdered and her young son taken prisoner by the Yankees Sarah Dandridge Duval and her family were refugees living near Richmond Virginia The book includes personal reminiscences from Union and Confederate women living in Winchester Virginia a town that reportedly changed hands 76 times during the war and the reactions of Southern women to the surrender at Appomattox **The Reckoning** Robin Blackburn,2024-02-06 The Age of Revolution 1776 1848 destroyed the main slave regimes of the Caribbean but a Second Slavery surged in the US South Cuba and Brazil powered by demand for plantation produce and a system of financial credit that leveraged the value of the slaves By 1860 more than 6 million captives of African descent toiled to produce the cotton sugar and coffee craved by global consumers This Second Slavery mimicked capitalist disciplines intensified slavery's racial character and launched half a century of headlong economic growth On the eve of the American Civil War the Slave Power seemed invincible The slaveholding elite entrenched their peculiar institution in the fabric of the Union only to risk everything on secession Nobody solicited the slaves wishes until it became clear that wherever they could they were deserting the plantations and joining the Union forces Abolition radicals destroyed the Second Slavery and victory for the North also spelled defeat for slavery in Cuba and Brazil But in each of these societies racial oppression was to be reconfigured by Black Codes Jim Crow and toxic doctrines of racial destiny Slavery leaves an indelible mark on many Atlantic nations The Reckoning charts the historic impact of slavery and anti slavery of black and white activists of fugitive slaves feminists writers clerics and soldiers Notwithstanding much unfinished business the anti slavery struggle retains its capacity to illuminate and inspire *Father Abraham* Richard Striner,2006 Offering a fresh portrait of Lincoln that helps make sense of his many contradictions the author describes a fervent idealist and a crafty politician with a remarkable gift for strategy

Mind, Body, and Consciousness in Society Paul C. Mocombe,2018-12-21 This book explores the nature of learning

and development in the philosophy of phenomenological structuralism which represents an effort to resolve the structure agency problematic of the social sciences within structurationist sociological theory Through the analysis and critique of structurationist sociology the book outlines the underlying tenets of this problematic It goes on to synthesize Haitian ontology and epistemology phenomenology Althusserian structural Marxism quantum mechanics and Ludwig Wittgenstein's notion of language games As such it offers an alternative reading of the structure agency problematic which holds on to the notions of structure duality dualism and the individual's rational ability to choose to account for the constitution of the individual and society in and as the resource framework of the earth In the final analysis the study outlines the implications for this social ontology in the domain of learning and development It utilizes two case studies black America and Haiti to highlight its conclusions that learning and development in this phenomenological structuralism are both Vygotskyian and Chomskyian A synopsis of the book by Paul can be seen here https://youtu.be/2A_OCxQeUW4

Anthropology Across Borders and Limits Roman Ignatiev, Vladislav Fediushin, 2024-01-23 This volume presents a collection of papers on New World anthropology and history from physical anthropology to historical memory to women's history The papers were presented at the 3rd 4th and 5th Russian American Research Nexus RARN Forums and offer a unique perspective on the New World from a variety of Russian and American scholars This book will be of interest to students and scholars of anthropology and history of the New World It is also an essential resource for anyone interested in the latest research on this important topic

Happy Dreams of Liberty R. Isabela Morales, 2022 A beautifully narrated and rich saga of one family's journey from slavery to freedom and from the South to the North and West set against Americans changing attitudes towards mixed race people from the late antebellum period to the Jim Crow era

Southern Womanhood and Slavery Leigh Fought, 2003-06-01 Southern Womanhood and Slavery is the first full length biography of Louisa S McCord one of the most intriguing intellectuals in antebellum America The daughter of South Carolina planter and politician Langdon Cheves and an essayist in her own right McCord supported unregulated free trade and the perpetuation of slavery and opposed the advancement of women's rights This study examines the origins of her ideas Leigh Fought constructs an exciting narrative that follows McCord from her childhood as the daughter of a state representative and president of the Bank of the United States through her efforts to accept her position as wife and mother her career as an author and plantation mistress and the Union invasion of South Carolina during the Civil War to the end of her life in the emerging New South Fought analyzes McCord's poetry letters and essays in an effort to comprehend her acceptance of slavery and the submission of women Fought concludes that McCord came to a defense of slavery through her experience with free labor in the North which also reinforced her faith in the paternalist model for preserving social order McCord's life as a writer on unfeminine subjects her reputation as strong minded and masculine her late marriage her continued ownership of her plantation after marriage and her position as the matron of a Civil War hospital contradicted her own philosophy that women should remain the quiet force

behind their husbands She lived during a time of social flux in which free labor slavery and the role of women underwent dramatic changes as well as a time that enabled her to discover and pursue her intellectual ambitions Fought examines the conflict that resulted when those ambitions clashed with McCord s role as a woman in the society of the South McCord s voice was an interesting articulate and necessary feminine addition to antebellum white ideology Moreover her story demonstrates the ways in which southern women negotiated through patriarchy without surrendering their sense of self or disrupting the social order Engaging and very readable *Southern Womanhood and Slavery* will be of special interest to students of southern history and women s studies as well as to the general reader *The Library of Congress Civil War Desk Reference* Margaret E. Wagner, Gary W. Gallagher, Paul Finkelman, 2009-11-24 History *The American Presidents* Melvin I. Urofsky, 2004-11-23 What makes a president great Here is the ideal source for students scholars and the general public *The American Presidents* is a collection of articles that analyze and evaluate the presidential careers of the men who have occupied the office since its inception in 1789 In this volume the leading presidential historians in the United States offer insights into what makes a president great mediocre or in the case of most of them something in between The contributors to *The American Presidents* were not asked to write straightforward biographies of the presidents other sources are available for that Rather they were asked to evaluate their subjects No strict patterns were imposed by the editor each author approached his or her subject in the way that best illustrated the strengths and weaknesses of the president under consideration Forty one have held the office of president and all in one way or another were exceptional men Some like Andrew Jackson and Harry Truman are usually thought of as representing the common folk but nothing was common about either of them Each proved to be an extraordinary and singular politician able to rally and represent the country through the challenges of their times Some presidents had achieved brilliance in other fields Ulysses Grant in the military and Herbert Hoover as an engineer and humanitarian for example but had presidencies that are considered unsuccessful What accounts for this seeming paradox in which insight sensitivity and competence suddenly become nontransferable when the man reaches the White House This book offers the reader multiple perspectives on this and other issues Examination of the ways in which challenges affect presidential greatness Theodore Roosevelt a successful president by any standard was acutely aware that the prosperity and peace the country enjoyed during his two terms in office would ironically prevent him from reaching the upper tier of greatness enjoyed by Washington and Lincoln After he left office he yearned to return in hope of finding the challenge that would seal his greatness Earlier in the late nineteenth century the electorate placed competent men such as Rutherford B Hayes Grover Cleveland and Benjamin Harrison in the White House but they are little remembered today None faced earth shaking challenges at home and abroad and their presidencies slipped into obscurity Discussion of personal characteristics and presidential performance For more than two centuries the presidency has proved a remarkably durable institution Presidential personalities have varied widely from the patrician aloofness of Washington to the moody

introspection of Lincoln to the noisy exuberance of Theodore Roosevelt The articles in *The American Presidents* consider the ways in which personality has affected performance Special features 41 signed essays by the leading experts illustrated with portraits of the presidents Selected bibliographies At a glance summaries of each president's achievements Useful charts and tables on cabinet members first ladies and vice presidents from Washington to Clinton Addresses and Web sites for major presidential libraries

Civil War St. Louis Louis S. Gerteis, 2001 St Louis played a key role as a strategic staging ground for the Union Army in the American Civil War This is a portrait of a war torn city encompassing a wide range of events such as the murder of publisher Elijah Lovejoy the infamous Dred Scott saga battles in the city and more *"If the Workers Took a Notion"* Josiah Bartlett Lambert, 2018-08-06 Once a fundamental civic right strikes are now constrained and contested In an unusual and thought provoking history Josiah Bartlett Lambert shows how the ability to strike was transformed from a fundamental right that made the citizenship of working people possible into a conditional and commercialized function Arguing that the executive branch rather than the judicial branch was initially responsible for the shift in attitudes about the necessity for strikes and that the rise of liberalism has contributed to the erosion of strikers rights Lambert analyzes this transformation in relation to American political thought His narrative begins before the Civil War and takes the reader through the permanent striker replacement issue and the alienation of workplace based collective action from community based collective action during the 1960s *If the Workers Took a Notion* maps the connections among American political development labor politics and citizenship to support the claim that the right to strike ought to be a citizenship right and once was regarded as such Lambert argues throughout that the right to strike must be protected He challenges the current law turn in labor scholarship and takes into account the role of party alliances administrative agencies the military and the rise of modern presidential powers
