Слингерленд, 2023-06-01 Remembering Dionysus Susan Rowland, 2016-07-28 Dionysus god of dismemberment and
sponsor of the lost or abandoned feminine originates both Jungian psychology and literature in Remembering Dionysus
Characterized by spontaneity fluid boundaries sexuality embodiment wild nature ecstasy and chaos Dionysus is invoked in
the writing of C G Jung and James Hillman as the dual necessity to adopt and dismiss literature for their archetypal vision of
the psyche or soul Susan Rowland describes an emerging paradigm for the twenty first century enacting the myth of a god
torn apart to be re membered and remembered as reborn in a great renewal of life Rowland demonstrates how persons forms
of knowing and even eras that dismiss Dionysus are torn apart and explores how Jung was Dionysian in providing his most
dismembered text The Red Book Remembering Dionysus pursues the rough god into the Sublime in the destruction of
meaning in Jung and Jacques Lacan to a re membering of sublime feminine creativity that offers zoe or rebirth participating
in an archetype of instinctual life This god demands to be honoured inside our knowing and being just as he re joins us to
wild nature This revealing book will be invigorating reading for Jungian analysts psychotherapists arts therapists and
counsellors as well as academics and students of analytical psychology depth psychology Jungian and post Jungian studies
literary studies and ecological humanities Drunk Edward Slingerland, 2021-06-01 An entertaining and enlightening deep
dive into the alcohol soaked origins of civilization and the evolutionary roots of humanity's appetite for intoxication Daniel E
Lieberman author of Exercised While plenty of entertaining books have been written about the history of alcohol and other
intoxicants none have offered a comprehensive convincing answer to the basic question of why humans want to get high in
the first place Drunk elegantly cuts through the tangle of urban legends and anecdotal impressions that surround our notions

of intoxication to provide the first rigorous scientifically grounded explanation for our love of alcohol Drawing on evidence from archaeology history cognitive neuroscience psychopharmacology social psychology literature and genetics Drunk shows that our taste for chemical intoxicants is not an evolutionary mistake as we are so often told In fact intoxication helps solve a number of distinctively human challenges enhancing creativity alleviating stress building trust and pulling off the miracle of getting fiercely tribal primates to cooperate with strangers Our desire to get drunk along with the individual and social benefits provided by drunkenness played a crucial role in sparking the rise of the first large scale societies We would not have civilization without intoxication From marauding Vikings and bacchanalian orgies to sex starved fruit flies blind cave fish and problem solving crows Drunk is packed with fascinating case studies and engaging science as well as practical takeaways for individuals and communities The result is a captivating and long overdue investigation into humanity s oldest indulgence one that explains not only why we want to get drunk but also how it might actually be good for us to tie one on now and then
