A Time To Fight Reclaiming A Fair And Just America:

I Heard My Country Calling James Webb, 2014-05-20 In this brilliantly received memoir former senator James Webb has outdone himself It is rare in America that one individual is recognized for the highest levels of combat valor as a respected member of the literary and journalistic world and as a blunt spoken leader in national politics In this extraordinary memoir Webb writes vividly about the early years that shaped such a remarkable personal journey Webb s mother grew up in the poverty stricken cotton fields of East Arkansas His father and lifetime hero was the first in many generations of Webbs whose roots are in Appalachia to finish high school He flew bombers in World War II and cargo planes in the Berlin Airlift graduated from college in middle age and became an expert in the nation s most advanced weaponry Webb s account of his childhood is a tremendous American saga as the family endures the constant moves and challenges of the rarely examined post World War II military with a stern but emotionally invested father a loving mother who had borne four children by the age of twenty four a granite like grandmother who held the family together during his father's frequent deployments and a rich assortment of aunts siblings and cousins Webb tells of his four years at Annapolis in a voice that is painfully honest but in the end triumphant His description of Vietnam's most brutal battlefields breaks new literary ground One of the most highly decorated combat Marines of that war he is a respected expert on the history and conduct of the war Webb's novelist's eyes and ears invest this work with remarkable power whether he is describing the resiliency that grew from constant relocations during his childhood the longing for his absent father his poignant good bye to his parents as he leaves for Vietnam his role as a twenty three year old lieutenant through months of constant combat or his election to the Senate where he was a leader on national defense foreign policy and economic fairness This is a life that could happen only in America The Upper House Terence Samuel, 2025-09-23 They come to Washington for varied and complex reasons driven perhaps by some deep emotional commitment to an issue or believing that their time in Congress can make their dream of the presidency a reality No matter what their motivation or particular route freshmen have three traits in common they will be members of one of the most powerful deliberative bodies on the planet they will have far less leverage and influence than they might have imagined and finally none of them not even the most experienced political hand will have any idea exactly what will take to succeed as a United States Senator In The Upper House political analyst Terrence Samuel journeys inside the legislative arm of the government to discover what makes a modern senator He gets to the heart of the Senate and follows the people Harry Reid Jim Webb Amy Klobuchar Jon Tester Chuck Schumer Bob Corker and the institution through displays of dazzling power bewildering helplessness and sacred traditions both ancient and modern Fairness and Freedom David Hackett Fischer, 2012-02-10 From one of America's preeminent historians comes a magisterial study of the development of open societies focusing on the United States and New Zealand Military Decision-Making Processes Kevin Dougherty, 2013-11-08 President Bill Clinton speaking as might any commander in chief on the eve of his decision to deploy

ground troops to Bosnia in 1995 declared he had no responsibility more grave than putting soldiers in harm s way Such a statement suggests that a study of the decision making process associated with the weighty matters of using force would be enlightening Indeed it is The decision making process is far from standardized nor is it simple While all individuals associated with important decisions about national security and the lives of America's service members take their responsibilities seriously the processes by which they reach their conclusions are varied and complicated The book traces eight traditional and emerging theories or models of decision making by first explaining the components of each model and then by analyzing its practical application through three case studies Each chapter concludes with a discussion of the utility and explanatory power of the particular model Instructors considering this book for use in a course may request an examination copy here

The New Dominion John G. Milliken, Mark J. Rozell, 2023-08-04 The New Dominion analyzes six key statewide elections to explore the demographic cultural and economic changes that drove the transformation of the state s politics and shaped the political Virginia of today Countering the common narrative that the shifting politics of Virginia is a recent phenomenon driven by population growth in the urban corridor the contributors to this volume consider the antecedents to the rise of Virginia as a two party competitive state in the critical elections of the twentieth century that they profile Working Class Manifesto Paul J. Bern, 2011-05-21 The Political Manifesto For All Americans From The Middle Class On Down Has Finally Arrived The First Mass Counter Offensive Against The Class War That Was Initiated By The Rich Against All The Rest Of Middle America Has Begun With The Publication Of This Book The Problems Of Mass Unemployment Wholesale Foreclosures A Broken Public School System And Healthcare System Of Mass Inequality Due To An Illegal Transfer Of Wealth Predatory Student Loans And A Rigged Economic System Have Now Become The New Civil Rights Issues Of The 21st Century Before The Publication Of This Book The Civil Rights Movement In America Had Been Marking Time Ever Since Rev Dr King Was Assassinated In April Of 1968 But As Of Now That Historic Movement Of The People Has Been Re initiated This Book And Its Author Lend Another Voice To The Growing Chorus Of American Dissenters Who Want An End To Ten Years Of Endless War This Book Is Intended To Be The Handbook For This New Civil Rights Antiwar Movement There Has Not Been A Book Like This Published Since Common Sense By Thomas Paine Was Published At The Start Of The US Revolutionary War This Book Is A Must Read For Everyone Who Is Concerned About America's Future The Senator Next Door Amy Klobuchar, 2015-08-25 One of the U S Senate's most candid and funniest women tells the story of her life and her unshakeable faith in our democracy Minnesota Senator Amy Klobuchar has tackled every obstacle she s encountered her parents divorce her father's alcoholism and recovery her political campaigns and Washington's gridlock with honesty humor and pluck Now in The Senator Next Door she chronicles her remarkable heartland journey from her immigrant grandparents to her middle class suburban upbringing to her rise in American politics After being kicked out of the hospital while her infant daughter was still in intensive care Klobuchar became the lead advocate for one of the first laws in the country

guaranteeing new moms and their babies a 48 hour hospital stay Later she ran Minnesota's biggest prosecutor's office and in 2006 was the first woman elected to the U S Senate from her state Along the way she fashioned her own political philosophy grounded in her belief that partisan flame throwing takes no courage at all what really matters is forging alliances with unlikely partners to solve the nation's problems Optimistic plainspoken and often very funny The Senator Next Door is a story about how the girl next door decided to enter the fray and make a difference At a moment when America's government often seems incapable of getting anything done Amy Klobuchar proves that politics is still the art of the possible Fight Jim Webb, 2008-05-19 I m the only person in the history of Virginia elected to statewide office with a Union card two Purple Hearts and three tattoos Jim Webb the bestselling author and now the celebrated outspoken U S Senator from Virginia presents a clear eyed hard hitting plan of attack for putting government to work for the people rather than special interests and for restoring the country's standing around the world Infused with the intelligence force and firebrand style that has earned Senator Jim Webb enormous national attention from his earlest days in office A Time to Fight offers a thorough and provocative assessment of the thorniest issues Americans face today along with cogent solutions drawn from Webb's lifetime of experience as a much decorated Marine a widely traveled award winning journalist and novelist a highly placed member of the Reagan administration a Senator with a son who fought as a Marine in Iraq and perhaps most important a proud scion of America's vast but frequently ignored working class Webb exposes how America has entered a dangerous unprecedented cycle of seemingly unsolvable unknowns Our economic policies particularly in this age of globalization have produced widely divergent results leading to a country calcifying along class lines Our demographic makeup has been altered dramatically and is set to keep on changing through both legal and illegal immigration Our editorialists and politicians talk about the American dream and some urge us to bring democracy to the rest of the world But more than two million Americans are now in prison by far the highest incarceration rate in the so called advanced world Our foreign policy is confused without clear direction increasingly vulnerable to such largely unexamined long term threats as China's emerging power while it has become bogged down in the never ending struggles of the Middle East As this drift toward societal regression has taken place America's leadership has largely been paralyzed unable or unwilling to stop the slide Where are the leaders Webb asks Has our political process become so compromised by powerful interest groups and the threat of character assassination that even the best among us will not dare to speak honestly about the solutions that might bring us back to common sense and fundamental fairness Through vivid personal narratives of the struggles members of his family faced and citing the courageous actions of presidents ranging from Andrew Jackson to Teddy Roosevelt to Dwight Eisenhower A Time to Fight provides specific viable ideas for restoring fairness to our economic system correcting the direction of national security efforts ending America's military occupation of Iraq and developing greater government accountability Webb brings a fresh perspective to political dynamics that have shaped our country His stirring populist

manifesto calls upon voters to make the choices that will change America for the better in this election season

Reclaiming The American Democratic Impulse Thomas E. Vass ,2014-02-28 In his recent book The Liberty Amendments Mark Levin promotes the enactment of 10 amendments to the U S Constitution using the second method of amendment outlined in Article V of the Constitution of 1788 Levin offers no clues to how or why he thinks on the 1000th effort this path of amendment would be successful Chronicles ,2008 American Family Willard Paul Armes, 2020-04-02 A personal story of the origination of two family s early Celtic Norman Welch origins through their Scot Irish and English descendant s migrations to Colonial America A survival story of overcoming severe limitations while continuously seeking to protect and provide for their families through persistence faith and pure grit Migrating from the Appalachian Mountains Berkshire spurs of western Massachusetts and Pennsylvania south into the remote southern Appalachian Mountains of Tennessee and North Carolina they would raise their large families With little outside support a distrust of centralized government and a fierce independence they would sustain their families through farming logging coal mining and the sale of meat vegetables and occasionally home brewed moon shine Book Review Index - 2009 Cumulation Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year The Other Irish Karen F McCarthy, 2011-11-01 What do Mark Twain Neil Armstrong and John McCain have in common Theyre all descendants of a merry group of Scots Irish braggarts that crossed the Atlantic from Ireland in the early 1700s and settled in Americas South Also known as the Other Irish this wild bunch of patriotic rebellious fervently religious rascals gave us the NRA at least fourteen presidents decisive victories in the Revolutionary War a third of todays US Military country music Star Wars the Munchkins American style Democracy and even the religious right not to mention NASCAR whose roots go back to Prohibition era moonshine runners Yet few Americans are familiar with the Other Irish or their contributions to American culture Now author and documentary filmmaker Karen McCarthy shines a probing light on this fascinating topic illuminating the extent to which the Scots Irish helped weave the fabric of our nation The Last American Diplomat George W. Liebmann, 2012-01-27 Can John D Negroponte be described as The Last American Diplomat In a career spanning 50 years of unprecedented American global power he was the last of a dying breed of patrician diplomats devoted to public service a self effacing and ultimate insider whose prime duty was to advise guide and warn a bulwark of traditional diplomatic realism against ideologue excess Negroponte served as US ambassador to Honduras Mexico the Philippines and Iraq he was US Permanent Representative to the UN Director of National Intelligence and Deputy Secretary of State to George W Bush His

was a high flying and seemingly conventional career but one full of surprises Negroponte opposed Kissinger in Vietnam supported a proxy war but opposed direct American military action against Marxists in Central America facing bitter Congress opposition in the process He swam against the floodtide of George W Bush s neocon dominated administration warning against the Iraq war as a possible new Vietnam and criticising aspects of Bush s War on Terror He disconcerted the administration by arguing that the re establishment of Iraq would take as long as five years And he was influential in international social and economic policy working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann s incisive account is based on personal and shared experience but it is no hagiography beyond the author s discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world's last remaining superpower Reclamation Reform Act of 1979 United States.
