Dependence argues that women s equal rights depend on advocating for women as women The world is not ready to welcome women as women a culture that fears dependence and asks everyone to aim for autonomy and independence will always be a society hostile to women Women are expected to care for those around them while living in a society that despises need and penalizes those who care for the weak The Dignity of Dependence aims to liberate women and men from this corrosive and false ideal of the human person as strongest alone Leah Libresco Sargeant argues that to thrive human beings need to exist in webs of mutual dependence not in isolating radical autonomy Women s equal dignity doesn t require women to deny biological reality or attempt to be interchangeable with men Sargeant advocates for building a culture that accepts and celebrates women as they are rather than demanding that women keep their relationships and their bodies in check The fight for women's dignity is a fight for a full human dignity a dignity that isn't threatened by dependence It is our need for each other that makes us human Gather the Fragments Maureen O'Brien, 2023-03-07 In this memoir Maureen O Brien reflects on the gospel story of the miracle of the loaves and fishes and what she learns about herself the people around her and a fragmented but still beautiful world While she s sharing her story of finding God s love she s also sharing the stories of so many others known and cherished by God even when the world leaves them shattered finding their way through the world and feasting on the fragments of grace that are always in abundance if we learn to look to see to accept to share Was a Number Runner Louise Meriwether, 2002 New edition of a tough tender bitter novel of a black girl struggling toward A Tree Grows in Brooklyn Betty Smith, 1992-09 A young girl from an impoverished family comes of age in womanhood Brooklyn at the turn of the twentieth century **Encyclopedia of Contemporary Writers and Their Work Geoff** Hamilton, Brian Jones, 2015-04-22 Presents an alphabetical reference guide detailing the lives and works of authors associated with the English language fiction of the twentieth and twenty first centuries **The Parent Trap** Nate G. Hilger, 2022-04-26 How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It s almost as if parents are set up to fail and the result is lost opportunities that limit children's success and make us all worse off In The Parent Trap Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today s socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a

program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country. The Parent Trap exposes the true costs of our society s unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform The Untold Story of the Talking Book Matthew Rubery, 2016-11-14 Afterword Speed Listening Notes Credits Acknowledgments Index Fiction and Nonfiction Carolyn M.
