The Dangerous Man Karen Sawyer,2012-11-01 A collection of controversial research and alternative worldviews presenting new and exciting ways of thinking about life as we know it **Attunement** Clifford Chalmers Cain,2019-12-20 We live in a century in which we must either change our way of regarding and acting toward nature or else imperil our survival as a species and jeopardize as well the fate of the planet itself This book by a theologian and environmental scientist examines four religious figures from European and Asian contexts who could aid us in developing a more sustainable and caring orientation which would allow us to live more in tune with creation twelfth century German nun Hildegard of Bingen thirteenth century Italian monk and patron saint of ecology Francis of Assisi nineteenth century Japanese Zen monk and poet Taigu Ry kan and the first pontiff from Latin America twenty first century Pope Francis By emphasizing our intimate and unavoidable organic connection with the network of all life and our charge to care for and protect it they point us in the direction of a new paradigm a healthier perspective a metanoia a change of heart mind attitude and action that would partner what we know about nature an environmental consciousness with what we do an ecological conscience Our children our grandchildren and our great grandchildren deserve at least this much Allegorical Form and Theory in Hildegard of Bingen's Books of Visions Dinah Wouters,2022-12-05 This book analyses how the three books of visions by Hildegard of Bingen use the allegorical vision as a form of knowledge It describes how the visionary s use of allegory and allegorical exegesis is linked to theories of cognition interpretation and prophecy It argues that the form of the allegorical vision is not

just the product of a medieval symbolic mentality but specific to Hildegard's position and the major transformations taking place in the prescholastic intellectual milieu such as the changing use of Scripture or the shift from traditional hermeneutics to cognitive language philosophy. The book shows that Hildegard uses traditional forms of knowledge prophecy the vision monastic theology allegorical hermeneutics in startlingly innovative ways by combining them and by revising them for her own time.

Never Say Never Rhonda Sanders, 2010-08 We've all heard the phrase never say never. Whether it's from parents teachers or well meaning friends this simple three word phrase has probably found its way into your life on several occasions. In Rhonda Sanders' case these words came from God. After uttering the negative word never too many times to count often right before doing the very thing she vowed never to do again Rhonda realized that God was still in control and that never was a word she should never use again. She learned to depend on God to take care of every detail of her life and hopes that you will be inspired to do the same after learning how and why she chose to banish never from her life. After giving up hope in the sanctity of marriage Rhonda's famous last words were I'll never get married again. She is now happily married. Rhonda doubted her ability to write a meaningful book stemming from her life experiences. **Never Say Never**

Imitatio Ezechielis: The Irregular Grammar of Revelation Reconsidered Garrett Evan Best, 2025-02-27 Revelation contains the most unusual Greek written in the ancient world. In *Imitatio Ezechielis* Best makes a unique contribution by arguing that the irregular Greek is due to John's imitation of the nature of the grammar found in the inaugural vision of his prophetic exemplar Ezekiel. The wide ranging and multidisciplinary argument draws on Greek and Hebrew linguistics ancient rhetoric mimesis criticism and Jewish merkabah mysticism.

Thinking and Seeing with Women in Revelation Lynn R. Huber, 2013-09-12 Lynn R. Huber argues that the visionary aspect of Revelation with its use of metaphorical thinking and language is the crux of the text's persuasive power. Emerging from a context that employs imagery to promote imperial mythologies Revelation draws upon a long tradition of using feminine imagery as a tool of persuasion. It does so even while shaping a community identity in contrast to the dominant culture and in exclusive relationship with the Lamb. By drawing upon the work of medieval and modern visionaries Huber answers a call to examine the way real readers engage with biblical texts. Revealing how Revelation continues to persuade audiences through appeals to the visual and provocative imagery she offers a new sense of how the text metaphorical language simultaneously limits and invites new meaning unfurling a range of interpretations.

Throughout her adult life the twelfth century Benedictine nun Elisabeth of Sch nau claimed to receive divine revelation through a series of ecstatic visionary experiences Her reflections on these experiences were recorded and provide both a rich source of understanding of the religious life of a medieval woman and an important perspective on the religious and political ferment of mid twelfth century Germany Anne L Clark has written the first comprehensive study of Elisabeth of Sch nau In it she points out that Elisabeth did not transcribe her own revelations but rather dictated them to the other nuns of the convent and to her brother Ekbert Clark takes on the problem of Elisabeth s literacy and examines the nature and extent of Elisabeth and Ekbert s collaboration In addition Clark offers a new interpretation of Elisabeth s relationship with Hildegard of Bingen her celebrated and more studied contemporary Clark contends that Elisabeth was not a timid emulator of a brilliant mentor instead she had her own spiritual perspective and her own means of expressing it In this way Clark firmly establishes the originality of Elisabeth s visionary accounts In the course of the book Clark highlights the social dynamics revealed in these religious meditations particularly Elisabeth s place in a world in which women were subordinated to male authority and lay people were subordinated to the religious authority of the clergy Elisabeth of Sch nau is an informative and groundbreaking work It will be of particular interest to scholars and students of medieval religion and mysticism as well as women s studies

Curiosities of Literature Isaac Disraeli,1881 **Autobiographical Writing by Early Modern Hispanic Women**

Elizabeth Teresa Howe,2016-04-08 Women s life writing in general has too often been ignored dismissed or relegated to a separate category in those few studies of the genre that include it The present work addresses these issues and offers a countervailing argument that focuses on the contributions of women writers to the study of autobiography in Spanish during the early modern period There are indeed examples of autobiographical writing by women in Spain and its New World empire evident as early as the fourteenth century Memorias penned by Do a Leonor L pez de Cord ba and continuing through the seventeenth century Cartas of Sor Juana In s de la Cruz What sets these accounts apart the author shows are the variety of forms adopted by each woman to tell her life and the circumstances in which she adapts her narrative to satisfy the presence of male critics whether ecclesiastic or political actual or imagined who would dismiss or even alter her life story Analyzing how each of these women viewed her life and conversely how their contemporaries both male and female received and sometimes edited her account Howe reveals the tension in the texts between telling a life and telling a lie Voice of the Living Light Barbara Newman,2023-09-01 Hildegard of Bingen 1098 1179 would have been an extraordinary person in any age But for a woman of the twelfth century her achievements were so exceptional that posterity has found it hard to take her measure Barbara Newman a premier Hildegard authority brings major scholars together to present an accurate portrait

of the Benedictine nun and her many contributions to twelfth century religious cultural and intellectual life Written by specialists in fields ranging from medieval theology to medicine to music these essays offer an understanding of how one woman could transform so many of the traditions of the world in which she lived Hildegard of Bingen was the only woman of her age accepted as an authoritative voice on Christian doctrine as well as the first woman permitted by the pope to write theological books She was the author of the first known morality play an artist of unusual talents the most prolific chant composer of her era and the first woman to write extensively on natural science and medicine including sexuality as seen from a female perspective She was the only woman of her time to preach openly to mixed audiences of clergy and laity and the first saint whose biography includes a first person memoir Adding to the significance of this volume is the fact that Hildegard s oeuvre reflects the entire sweep of twelfth century culture and society Scholars and lay readers alike will find this collection a rich introduction to a remarkable figure and to her tumultuous world With the commemoration of the 900th anniversary of Hildegard s birth in September 1998 the publication of Voice of the Living Light is especially welcome Hildegard of Bingen 1098 1179 would have been an extraordinary person in any age But for a woman of the twelfth century her achievements were so exceptional that posterity has found it hard to take her measure Barbara Newman a premier Hildegard autho

Homilies on the Gospels Saint Hildegard, 2011 Hildegard of Bingen 1098 1179 describes the virtue of Fortitude teaching the other virtues in the fire of the Holy Spirit Like Fortitude Hildegard was enkindled by the Holy Spirit and edified many with her teaching Hildegard of Bingen s Homilies on the Gospels are here translated for the first time from Latin into

English Hildegard's sisters recorded and preserved her informal preaching in this collection of homilies on twenty seven gospel pericopes. As teacher and superior to her sisters Hildegard probably spoke to them in the chapter house with the scriptural text either before her or recited from memory according to Benedictine liturgical practice. The Homilies on the Gospels prove essential for comprehending the coherent theological vision that Hildegard constructs throughout her works including the themes of salvation history, the drama of the individual soul, the struggle of virtues against vices and the life giving and animating force of greenness, *uiriditas*. Moreover, the Homilies on the Gospels establish Hildegard as the only known female systematic exegete of the Middle Ages. **The Quotable Saint** Rosemary Guiley, 2002.
