Heideggerian Marxism Herbert Marcuse, 2005-01-01 The Frankfurt School philosopher Herbert Marcuse 1898-1979 studied with Martin Heidegger at Freiburg University from 1928 to 1932 and completed a dissertation on Hegel's theory of historicity under Heidegger's supervision During these years Marcuse wrote a number of provocative philosophical essays experimenting with the possibilities of Heideggerian Marxism For a time he believed that Heidegger's ideas could revitalize Marxism providing a dimension of experiential concreteness that was sorely lacking in the German Idealist tradition Ultimately two events deterred Marcuse from completing this program the 1932 publication of Marx's early economic and philosophical manuscripts and Heidegger's conversion to Nazism a year later Heideggerian Marxism offers rich and fascinating testimony concerning the first attempt to fuse Marxism and existentialism These essays offer invaluable insight concerning Marcuse's early philosophical evolution They document one of the century's most important Marxist philosophers attempting to respond to the crisis of Marxism the failure of the European revolution coupled with the growing

repression in the USSR In response Marcuse contrived an imaginative and original theoretical synthesis existential Marxism

Rationalism, Religion, and Domination Wolfgang Schluchter, 1989-01-01 Publication of this material in English should be a major event in American Weber studies Together with Economy and Society Weber's comparative studies in the sociology of religion represent not only his own central contribution to theoretical sociology but also one of the most ambitious and fruitful research programs in the history of modern social theory Schluchter analyzes both of these projects and shows how they are related There is nothing in the Anglo American literature on Weber's sociology of religion that can match the rigor and thoroughness of these essays They should raise the standards of scholarly debate concerning both the general theoretical significance and the details of Weber's sociology of religion Guy Oakes Monmouth University There is next to nothing in the field of Weber interpretation that reaches the superior grasp and breadth of knowledge displayed in these essays Exciting and illuminating they should be essential reading for anyone interested in comparative religion and domination Thomas Burger Southern Illinois University Capitalism and Classical Social Theory, Second Edition John Bratton, David Denham, 2014-01-24 Most texts on classical social theory offer exhaustive coverage of every possible theorist making it difficult to use the book in one semester Capitalism and Classical Social Theory Second Edition represents a departure from this approach by offering solid coverage of the classical triumvirate Marx Durkheim and Weber but also extending the canon strategically to include Simmel four early female theorists and the writings of Du Bois The result is a manageable but thorough examination of the key classical theorists The second edition has been updated throughout and includes two new chapters one on Weber and rationalization and one on Du Bois and his writings on race A new concluding chapter links classical theory to current developments in capitalism during an age of austerity **Capitalism and Classical Social Theory, Third Edition** John Bratton, David Denham, 2019-05-31 In this third edition of Capitalism and Classical Social Theory John Bratton and David Denham build on the classical triumvirate Karl Marx mile Durkheim and Max Weber by extending the conversation to include early female theorists such as Mary Wollstonecraft and Charlotte Perkins Gilman as well as the writings of W E B Du Bois and G H Mead Connecting current headlines in the political mainstream to concepts like alienation anomie class gender race and the environment Capitalism and Classical Social Theory sheds light on how classical social theories may be applied and understood within a contemporary context This revised and expanded third edition features topical discussions of socio economic shifts in the post Trump and post Brexit world and uses original excerpts and additional readings to further contextualize the significance of classical social theory today *Capitalism and Classical Social Theory* John Bratton, David Denham, 2014-01-24 Capitalism and Classical Social Theory Second Edition offers solid coverage of the classical triumvirate Marx Durkheim and Weber but also extends the canon strategically to include Simmel four early female theorists and the writings of Du Bois **Civil Society and Fanaticism** Dominique Colas, 1997

Includes bibliographical references and index **The Social Lens** Kenneth Allan, 2013-05-13 This fully updated edition of Kenneth Allan's acclaimed social theory text emphasizes the diversity of classical and contemporary theory, critical thinking, and the importance of historical context. Chosen for the diversity of their perspectives and their suitability for introducing students to contemporary social thought, a wide variety of theorists appear in the text with their individual voices vividly intact. The author engages students in the historic and contemporary changes that have spawned diverse social theories and invites them to see theory as an element within a broader range of critical thinking skills that can be applied to current social problems. Contributor to the SAGE Teaching Innovations and Professional Development Award *Global Inequalities Beyond Occidentalism* Manuela Boatcă, 2016-04-22 Based on theoretical developments in research on world systems analysis, transnational migration, postcolonial and decolonial perspectives, whilst considering continuities of inequality patterns in the context of colonial and postcolonial realities, *Global Inequalities Beyond Occidentalism* proposes an original framework for the study of the long-term reproduction of inequalities under global capitalism. With attention to the critical assessment of both Marxist and Weberian perspectives, this book examines the wider implications of transferring classical approaches to inequality to a twenty-first century context, calling for a reconceptualisation of inequality that is both theoretically informed and methodologically consistent, and able to cater for the implications of shifts from national and Western structures to global structures. Engaging with approaches to the study of class, gender, racial, and ethnic inequalities at the global level, this innovative work adopts a relational perspective in the study of social inequalities that is able to reveal how historical interdependencies between world regions have translated as processes of inequality production and reproduction. As such, it will be of interest to scholars of sociology, political and social theory, and anthropology concerned with questions of globalisation and inequality Marx's Scientific Dialectics Paul Paolucci, 2007 This book examines both problems in traditional readings of Marx's texts and how he used several methods of science to inform his dialectical thinking, historical materialist research, political economic analyses, and his communist project. A case is made for Marx's continuing methodological relevance **Politics of Time** Leszek Koczanowicz, 2008 What has really happened in Poland since the election of 2005? After such spectacular events as the practice of lustration and the questioning of solidarity with the European Union, one has to ask what is the nature of this newly emerging society. As with many of the recent developments in former communist countries that seem to be mysterious and irrational, the situation and ensuing problems are complex, and the answers neither trivial nor easy. This book by the distinguished Polish philosopher addresses these complexities through the role of the communist past in post-communist Poland. It describes the events that led to the collapse of the Solidarity program and the growing influence of the nationalistic and religious parties in the government. The author investigates the nature of social and political temporality and develops a theoretical framework that allows him to apply his conclusions not only to Poland but also to other formerly communist countries **Marxist Historiographies** Q. Edward Wang, Georg G.

Iggers, 2015-07-16 *Marxist Historiographies* is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective. Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed. Edited by two highly respected authors in the field, this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa, Asia, North and South America and the Middle East. Rather than presenting the chapters geographically, it is structured with respect to how Marxist influence was shown in the works of historians in a particular area. This title takes a dual approach to the subject: some chapters are national in scope, addressing the Marxist impact on historical practices within a country, whereas others deal with the varied expressions of Marxist historiography throughout a wider region. Taking a truly global perspective on this topic, *Marxist Historiographies* demonstrates clearly the breadth and depth of Marxism's influence in historical writing throughout the world and is essential reading for all students of historiography.

Minerva's Owl Jeffrey B. Abramson, 2010-09-30 As Hegel famously noted, referring to the Roman goddess Minerva, her owl brought back wisdom only at dusk when it was too late to shine light on actual politics. Jeffrey Abramson provides a lively and accessible guide for readers discovering the tradition of political thought that dates back to Socrates and Plato, with contemporary examples that illustrate the enduring nature of political dilemmas.

Poverty, Justice, and Western Political Thought Sharon K. Vaughan, 2007-12-07 The number of people who live in poverty has always far exceeded the number who do not. The normative question of how governments ought to treat the poor goes to the heart of the idea of justice and thus it is an essential element of political theory. Yet there has been no formal study of the treatment of poverty in Western political thought. The chapters of *Poverty, Justice, and Western Political Thought* include an analysis of the main arguments of Plato, Aristotle, Locke, Rousseau, Smith, Mill, Tocqueville, Hegel, Marx, Rawls, and Nozick about the causes, effects, and solutions to the problem of poverty and how their treatments of poverty relate to the idea of a just society. This book asks: What is the relationship between poverty and justice in the state? If we are to understand the relationship between the poor and the idea of a just state in the tradition of Western political thought, then we must be able to recognize how these theorists' definitions, assumptions, and conclusions about poverty contribute to or detract from the idea of justice. At the core of this work is the claim that the demands of justice necessarily entail that the political theorist engage with the problem of poverty with the goal being to suggest some thoughtful and reasonable approaches to the problem. *Poverty, Justice, and Western Political Thought* demonstrates that historical analysis and reconstruction of the treatment of poverty is critical because we are part of a historical community. Rather than being artifacts of scholarship, philosophical debates and ideas that are hundreds and thousands of years old continue to be relevant today because they are part of the foundation for society's beliefs about who the poor are, why they are poor, and what responsibility, if any, society has to them. This book will benefit political theorists and philosophers interested in the history of political thought, poverty, or

distributive justice as well as non theorists Pragmatic Humanism Marcus Morgan, 2016-01-29 Is sociology best understood as simply chipping away at our ignorance about society or does it have broader roles and responsibilities If so to what or perhaps to whom are these responsibilities Installing humanity as its epistemological and normative start and endpoint this book shows how humanism recasts sociology as an activity that does not merely do things or effect things but is also self consciously for something Rather than resurrecting problematic classical conceptions of humanism the book instead constructs its arguments on pragmatic grounds showing how a pragmatic humanism presents an improved picture of both the nature and value of the discipline This picture is based less around the claim that sociology is capable of providing authoritative revelations about society and more upon its capacity to offer representations of the social in epistemologically open transformative ethical and hopeful ways Ultimately it argues that sociology's real value can only be disclosed by replacing its image as a discipline aimed towards disinterested social enlightenment with one of itself as a practice both dependent upon and at its best self consciously aimed towards human ends and imperatives It will appeal to scholars and students across the social sciences and to those working in social theory sociology and philosophy of the social sciences in particular **A New Science** Bruce Mazlish, 1989 In this book Mazlish examines the historical origins of sociology especially in terms of its relationship to the humanities and economics He looks closely at how what he terms the cash nexus the omnipresent substitution of money for personal relations was perceived as changing the nature of human relations in the 19th century and led to the development of sociology as a means of dealing with this condition
