Minds of Reason Dr. Feridoun Shawn Shahmoradian, 2019-07-22 This collection of essays are strikingly informative since phenomenal strides are taken in search of truth, abating speculation. The well-thought interdisciplinary essays are rare since they can quench the thirst for studious-minded people in search of knowledge and can bring that inquisitive mind closer to the reality of universal existence. The book is entitled *Minds of Reason* and sub-titled *It is not what it is*, which divulges the most arcane enigmatic issues of our time, clarifying imperative subject matter like why there is a God and why not many gods, why we are here, what happens after we die, what existed before the big bang, is our living purposefully driven, if a mind or matter is responsible for creation, and so on. The book *Minds of Reason* delves into exploring for truth; it unveils the awesome traces of God while leaving no stone unturned, convincing the reader that there's more to life than meets the eye. Quintessential discourse on emerging fields for groundbreaking ideological, spiritual, philosophy, scientific, cultural, psychologic, social, political, economic domains, and the rationale behind these intriguingly intricate subjects are clearly discussed. The refined methodology is executed to carefully manifest the essence of what matters to play a catalyst in intuitively abstract findings to muster a dynamic form or variation of clear cognizance for illustrating key arguments to better fathom the essentials of existence. The aim is to insightfully navigate the uncharted territories to further deter obtuse debates where dogmatic theoretical views can transcend to higher perception planes to further avoid vain acrimony, altercation for a paradigm shift in meaningful communication, quantifying manna, gratuitous benefit outcome from both sides of the aisle.

Reign of the Essence Dr. Feridoun Shawn Shahmoradian,2022-08-02 For centuries the debates over if there is a God or not Have tempted curious minds to meditate on the whys and hows of our mysterious universe Splitting into two major faculties or aptitudes are the atheists the skeptics and the theists the believers The irony the paradox is the very scientific notions that were once rendered leveraged to the nonbelievers It has turned into an autoimmune disease attacking the body the white cells striking the tissues that used to support it Because no systematic laws applicable to the physical world are compatible with the unseen world The quantum domain I call the metaphysically oriented submicroscopic realm the sphere of God since the bizarre behaviors are puzzling the beautiful minds of our time The scholarly minded scientists and prominent physicists unanimously confess that no Newtonian laws or any traditional physic have the answer to this majestic exalted environment Reign of essence the encyclopedia of critical thinking is the closest that the reader can come in quenching one s thirst in search of the truth since no better source can philosophically scientifically ethically morally spiritually and historically attribute to facts referencing the visible and the ethereal ghostly atmosphere so evidential to a magnificent programmer Leaving no doubt we live in a computer simulated matrix since the extremely orderly and regulated universe Operates like unique computer bits tuning our world and beyond Acknowledging gravitating to essential premises and apart from fiction and determinant notions that are not thoroughly methodologically investigated

The Herb of Grace: Chain of Charms 3 Kate Forsyth, 2007-11-10. Once there was a gypsy queen who wore on her wrist a chain of six lucky charms. The queen gave each of her six children one of the charms as their lucky talisman, but ever since the chain was broken the gypsies had been dogged with misfortune. It is the fifth year of the Lord Protector's rule and not safe nor seemly to love bright colours nor music nor dancing nor magic nor any of the things that the gypsies most loved and which made them who they were. But now life for the Finch tribe has gone even more horribly wrong: they have been thrown into gaol with only three weeks to live. The only members of the family to escape are Emilia and her cousin Luka. They have been entrusted to find the six charms; then perhaps the gypsies could once again have some luck. What Emilia and Luka do not realise is that there is a price to be paid for each lucky charm and that the cost may prove too high.

15th August 1658. Luka and Emilia must travel to the New Forest to find the Wood tribe whose charm is a rue flower, the herb of grace. Its power is that of plants and herbs which can both heal and poison. On the way the two children tangle with an impoverished widow, the thief-taker Coldham, a highwayman and a witch and find themselves caught up in a Royalist plot to restore King Charles II to his throne.
