Madwomen in Social Justice Movements, Literatures, and Art Jessica Lowell Mason,Nicole

Crevar,2023-01-10 Madwomen in Social Justice Movements Literatures and Art boldly reasserts the importance of the

Madwoman more than four decades after the publication of Sandra Gilbert and Susan Gubar's seminal work in feminist literary criticism *The Madwoman in the Attic*. Since Gilbert and Gubar's work was published the Madwoman has reemerged to do important work rock the academic boat and ignite social justice agency inside and outside of academic spaces moving beyond the literary context that defined the Madwoman in the late 20th century. In this dynamic collection of essays scholars, creative writers and Mad activists come together to re-define the Madwoman in pluralistic and expansive ways and to realize new potential in Mad agency. This collection blazes new directions of thinking through Madness as a gendered category comprised of a combination of creative works that re-imagine the figure of the Madwoman, speeches in which Mad-identifying artists and writers reclaim the label of Madwoman and scholarly essays that articulate ambitious theories of the Madwoman. The collection is an interdisciplinary scholarly resource that will appeal to multiple academic fields including literary studies, disability studies, feminist studies and Mad studies. Additionally, the work contributes to the countermovement against colonial, sexist, patriarchal and institutional social practices that continue to silence women and confine them to the metaphorical attic. Appealing to a broad audience of readers, *Madwomen in Social Justice Movements: Literatures and Art* is a cutting edge inquiry into the implications of Madness as a theoretical tool in which dissenting, deviant and abnormal women and gender non-conforming writers, artists and activists open the door to Mad futurities. *Illness and Image* Sander L.

Gilman, 2018-01-16 The humanities in higher education are too often labeled as impractical and are not usually valued in today's marketplace. Yet in professional fields such as the health sciences, interest in what the humanities can offer has increased. Advocates claim the humanities offer health care professionals greater insight into how to work with those who need their help. *Illness and Image* introduces undergraduates and professionals to the medical humanities using a series of case studies beginning with debates about male circumcision from the ancient world to the present to the meanings of authenticity in the face transplantation arena. The case studies address the interpretation of mental illness as a disability and the new category of mental illness self-harm. Sander L. Gilman shows how medicine projects such categories existence into the historical past to show that they are not bound in time and space and therefore are real. *Illness and Image* provides students and researchers with models and possible questions regarding categories often assumed to be either trans-historical or objective, making it useful as a textbook. **Transcript of the Enrollment Books** New York (N.Y.).
