Reconciling Individualism and Collectivism in the Information Age D Improving Public Education, Family Policy, Social Cohesion and Global Solidarity Mark O'Doherty,2017-07 In today s Information Age resolving the conflict between individualism and collectivism is one of the greatest challenges in society particularly in countries such as China but also in conservative Islamic countries which are challenged with harmonising mainstream ethics and civil liberties into their collective psychological and philosophical system of beliefs such as civil rights gender equality and democracy Hence this book explores cutting edge theories and policies to reconcile individualism and collectivism especially in China so that human rights civil liberties and happiness can be improved in the world's most populous country which includes the implementation of Universal Suffrage in China This study also explores some progressive concepts to improve personality development and social cohesion in our global community which includes the basic and fundamental concept of peaceful human interaction

The Legacy of President Xi Jinping of China A Study of Social Instability, Human Rights Violations, Civilian Suffering and Communism in the People's Republic of China Dr. Mark O'Doherty, 2019-08-26 Dear All The Chinese Communist Party CCP argues that their concept of social stability requires that the welfare of the collective should always be put ahead of the rights of any individual whenever conflicts between these arise The fallacy and error of this policy is that it s enforced by a few key figures in the CCP who have not been democratically elected by the people As evidenced by the Tiananmen Square protests of 1989 the People of China have demanded their right to freedom of peaceful assembly and association which the

CCP government is still suppressing with an iron fist to this very day China increasingly becoming a totalitarian state It should be noted that the Supreme People's Court of China is an utterly incompetent legal community responsible for blatant human rights violations in all 22 provinces of China and a disgrace to the International Community With China's economy being in free fall the country has been decimated by enormous political and economic setbacks as well as horrifying human rights failures Hence China's so called superpower status has been revoked Thus the general consensus has been reached that China no longer qualifies as a superpower To avoid a power vacuum in the world a new country is going to take China's place as a superpower namely the Republic of Austria at least until China has agreed to evolve and improve itself Hence the new superpower in the world will be the Republic of Austria Although most Austrian politicians are rather incompetent the Austrian Foreign Ministry is quite capable of handling any queries concerning Austria's new superpower status. The Chinese government is expected to fall in line with Austria's Human Rights Policy which for the time being will be conducted by the NGO BTB Global Peacebuilding We encourage the Chinese Communist Party to give up their monopoly on power and implement Universal Suffrage in China so that other political parties can also be elected in national elections and participate in governing China Love and Light Mark BTB Global Peacebuilding POTUS UNITED NATIONS PS We would be quite willing to give our dear friend President Xi Jinping a Kowtow if he agrees to implement the Universal Declaration of Human Rights UDHR in China However if President Xi refuses to implement the UDHR in China we will expect a Kowtow from him instead

The Legacy of the Communist Party of China (CPC) | A Study of Civil Unrest, Civilian Suffering and Violations of Human Rights in the Hong Kong Special Administrative Region of the People's Republic of China Dr. Mark O'Doherty, 2019-07-10 There is a saying in China that power comes out of the barrel of a gun a policy practiced by hardliners of the CPC during the Tiananmen Square Massacre of 1989 and even today in China as outlined in this evidenced based study also in view of increased violent clashes between police and protesters in Hong Kong with the military commander of Hong Kong Mr Chen Daoxiang stoking fears of Chinese military intervention which could lead to a repeat of the Tiananmen Square Massacre of 4 June 1989 President Xi of China could quickly and humanely solve the Hong Kong problem President Xi being a very powerful but also a very kind and gentle leader by permitting an independence referendum in Hong Kong to resolve the Two Systems Crisis since the Spirit of Democracy is here to stay and will remain in the hearts of the brave people of Hong Kong forever The brave and courageous people of Hong Kong taking the vanguard so that democracy and civil rights can finally be manifested for all in Hong Kong On the Redundancy of the United Nations - Improving the Allocation of Social, Economic, and Military Resources in the Global Community Mark O'Doherty, 2018-01-22 In its 70 years the United Nations may have been hailed as the great hope for the future of mankind it s biggest achievement being the Universal Declaration of Human Rights according to the author a notion comparable to the belief in the Easter Bunny and the Tooth Fairy the UN failing to give any concrete incentive to the global community to believe in this extremely abstract idealogy

Infuriating with its numbing bureaucracy its institutional cover ups of corruption and the undemocratic politics of its security council the UN goes to war in the name of peace but has been a bystander through genocide It has spent more than half a trillion dollars in 70 years it is bloated undemocratic and very expensive costing over 40 billion dollars a year Hence the author concludes that the UN has become redundant in today's Information Age offering suggestions to improve the allocation of social economic and military resources so that social equality and harmony can be improved in the Global Unpacking My Library Leah Price, 2011-11-29 As words and stories are increasingly disseminated through digital means the significance of the book as object whether pristine collectible or battered relic is growing as well Unpacking My Library Writers and Their Books spotlights the personal libraries of thirteen favorite novelists who share their collections with readers Stunning photographs provide full views of the libraries and close ups of individual volumes first editions worn textbooks pristine hardcovers and childhood companions In her introduction Leah Price muses on the history and future of the bookshelf asking what books can tell us about their owners and what readers can tell us about their collections Supplementing the photographs are Price's interviews with each author which probe the relation of writing to reading collecting and arranging books Each writer provides a list of top ten favorite titles offering unique personal histories along with suggestions for every bibliophile Unpacking My Library Writers and Their Books features the personal libraries of Alison Bechdel Stephen Carter Junot D az Rebecca Goldstein and Steven Pinker Lev Grossman and Sophie Gee Jonathan Lethem Claire Messud and James Wood Philip Pullman Gary Shteyngart and Edmund White The New Yorker .2008
