The Attitudes Towards Anglicisms in German. A Survey Analysis Focussing on Age-related Differences Nico Röhrs,2021-01-03 Seminar paper from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 3 University of Bremen language English abstract This paper is concerned with the subject of anglicisms Anglicisms are lexical items which are transferred into our everyday language use They are surrounded by a constant debate about their necessity While linguists mostly appreciate their advantages linguistic purists regard them as a threat and try to remove or limit them Through analyzing a survey this study presents the attitudes towards anglicisms in German Thereby the influence the participants age has on their attitudes is especially focused on After setting the scene by giving an overview about already existing research on the spread of English anglicisms in German and linguistic purism the survey analysis shows that older generations attitudes towards anglicisms tend to be more negative As the paper focused on the social characteristic Age future studies could discuss the influence class affiliation or education has on the attitudes towards anglicisms

Remade in France Valérie Saugera,2017 Remade in France Anglicisms in the Lexicon and Morphology of French chronicles the current status of French Anglicisms a popular topic in the history of the French language and a compelling example of the influence of global English The abundant data come from primary sources a large online newspaper corpus for unofficial Anglicisms and the dictionary for official Anglicisms and secondary sources This book examines the appearance and behavior of English items in the lexicon and morphology of French and explains them in the context of French neology and lexical activity The first phase of the latest contact period 1990 2015 has its own complex linguistic characterization

including a significant influx of nonce borrowings and very low frequency Anglicisms heterogeneous and creative borrowing outcomes and direct phraseological borrowing This book is a counterargument to the well known criticism that Anglicisms are lexical polluters On the contrary the use of Anglicisms requires the inventive application of complex linguistic rules and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic The findings bring novel interdisciplinary insights to the domains of borrowing in a non bilingual contact setting global English as a source of lexical creativity in the French lexicon the phases patterns and processes of integration of English loanwords the morphology of borrowing and computational corpus linguistics The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource

The Use of Anglicisms in the German Magazine FOCUS Nadja Grebe, 2010-11-08 Seminar paper from the year 2010 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1 0 Ernst Moritz Arndt University of Greifswald Institut für Fremdsprachliche Philologien course Contact Linguistics language English abstract Most of all linguists who find themselves engaged in Contact Linguistics agree upon the fact that the influence of the English language on German is constantly increasing and has especially risen during the last decades of the 20th century cf Viereck 1980 11 Gtzeler 2008 58 59 Due to the close collaboration in the political and economical sector the contact between the two language regions has become more intense and has thus led to a higher frequency of borrowings from English As a direct consequence of this process a public discussion on the drawbacks of the use of anglicisms in German has started and found its peak in the foundation of the Verein Deutsche Sprache formerly called the Verein zur Rettung der deutschen Sprache in 1997 cf Gtzeler 2008 61 The increasing presence of loanwords as commonly believed as well as the ongoing public discussion on their use is reason enough to analyze the use of anglicisms in the German language by using the example of the German newsmagazine FOCUS In this context it shall be examined whether the frequency of anglicisms in 2009 is higher than the frequency in 1993 Furthermore as the corpus consists of texts from two different categories namely Deutschland and Modernes Leben numerical differences concerning those sections is also subject of the study As a result proof for the following theses is expected 1 The frequency of anglicisms used in 2009 is higher than in 1993 2 The number of borrowings in the section Modernes Leben will be greater than in the section Deutschland

Anglicisms in German Advertising Slogans Anna Theresa Wendel, 2014-08-26 Seminar paper from the year 2013 in the subject English Language and Literature Studies

Linguistics grade 1 0 University of Trier language English abstract For quite some time advertising is a gateway for anglicisms into the German language The VDS Verein Deutscher Sprache Association of German Language also shares this opinion They say that the main transmitters for anglicisms in Germany are the mass media and the advertising and entertaining industry Although anglicisms belong to the most explored aspects of advertising language there haven't been many empirical studies yet Their proportion in a temporal comparative and in connection with various product groups is rarely studied in the German speaking area Especially the researches of Dagmar Schütte and the database slogans.de offer a basis to investigate these questions In this paper it will be mainly referred to slogans since they appear in every kind of media and because they are the main representatives of the trends in the advertising language First the evaluation of Schütte 1996 which reaches until 1991 should be checked Then it should be examined whether the increase of English slogans continues onwards in the 1990s and the 2000s Furthermore the sectoral distribution of English slogans will be analyzed In order to provide a prospect to the future this work will also contain a chapter about the new language trend in German advertising Schütte defines an anglicism as a linguistic sign consisting wholly or partly of English morphemes regardless of whether it is connected to a common meaning in the English language usage or not In the following this definition is adopted what means that the term anglicism is generally an English coined word or expression

The importance and influence of anglicisms in German language and audio-visual advertising Claudia Stehr, 2007-05-13 Seminar paper from the year 2002 in the subject English Language and Literature Studies Linguistics grade 1 3 Technical University of Braunschweig

Englisches Seminar course Language in Advertisement language English abstract Language is not stable it is a communication system used by human beings As people and the environment they live in change and develop it is natural for language to change and to get influenced as well The amount of English words in the German language increased highly since 1945 and especially since advertising plays an important role in our society After the second World War the connection between Germany and the Western world got stronger and more intensive than it had been before Especially the areas media literature music and theatre but also politics sports and economy have very high influences on the growing use of English words in German language The German Academy of Language in Berlin says that no more than five per cent lexical amount of anglicisms are existing in the German language That indeed is not much but this does not propose anything about how often these words are used in the every day language There are no concrete guidelines or laws about the usage of Anglicisms and advertising agencies tend to plead that they only orientate on those English words which are already used by Germans This has to be doubted thinking that the words mail express logistics finance Stimulating Facial Freshener or Concentrated Line Smoother are not always understood directly nor by many Germans But the understanding of Anglicisms will not be the subject of this paper In my research paper I want to point out which influence the English language has on the language of advertising and how anglicisms are seen in our society I refer to the audio visual media TV advertisement and try to conclude

about the importance and influence of Anglicisms in general In this paper the term Anglicism stands for English and American borrowings as well To supply evidence for my thesis I give and analyse a few examples of advertising spots from the German channel ARD and I also present my results of a questionnaire about Anglicisms in the German language which was filled in by 60 Germans At the beginning I want to go into the terms anglicism language of advertising and I point out the most important reasons for the usage of Anglicisms to give the reader a clear view in which way these terms have to be looked at and dealt with in this paper

Anglicisms in German Alexander Onysko, 2007 Offers a detailed account of the influence of English in German based on a large scale corpus analysis of the newsmagazine Der Spiegel This book presents a study that is structured into three parts each of which deals with fundamental questions and as of yet unsolved and disputed issues in the domain of anglicism research and language contact

Anglicisms in the German Business Press Marc Rathmann, 2007 The debate about the use of Anglicisms in German during the past decade has focused primarily on general language use whereas languages for specific purposes with the exception of advertising have not come under similar scrutiny The study presented in this book focuses exclusively on the English lexical influence on German business language over time and across different text types Randomly selected articles cover stories editorials and letters to the editor of one of Germany's major business magazines Wirtschaftswoche serve as the corpus of this study The author describes and analyzes the use of Anglicisms in this business weekly over a period of 30 years and answers questions such as the following

- 4 Is there empirical evidence for an increasing use of Anglicisms in German business language appearing in print media
- 5 Are there significant differences in the use of Anglicisms in the selected genres and do professional journalists and readers differ in their use of these loanwords
- 6 Do opinion centered articles differ from fact centered articles in the use of English loanwords
- 7 Which Anglicisms are used most often

This book should be of interest not only to scholars in the fields of linguistics and language teaching but also to the general reader interested in Anglo American influences on German language and culture and English loanwords in particular
