Emmot, Floyd Clymer, Velocepress, 2008-10-01 82 pages 30 illustrations size 5 5 x 8 5 inches Originally published in 1962 by Floyd Clymer this manual includes complete technical data service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for all 125cc and 150cc

widemount engined Vespa Scooters from 1951 through 1961 beginning with the Vespa 125 VM1T through the GS150 VS51T it also covers the Douglas 42L2 and Clubman There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation making it an invaluable resource for collectors and restorers of these classic Vespa scooters      **Suzuki GP100 & 125 Owners Workshop Manual** Chris Rogers,Pete Shoemark,1991-01-01      **BSA A7 - A10 'Service Sheets' 1947-1962 for All Rigid, Spring Frame and Swing Arm Group 'a' Motorcycles** Floyd Clymer,2021-07-05 196 pages and more than 250 illustrations and charts size 8 25 x 10 75 inches In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets These sheets were dealer only publications and as such the print quality was at times somewhat questionable It was not until the early 1960 s that BSA eventually started publishing model specific workshop manuals that were available to the general public Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960 s At some point in the 1930 s BSA adopted the practice of identifying their various model types by groups and the models manufactured from 1945 through the early 1960 s were in Groups A B C D and M The service sheets that were associated to a particular group were identified numerically and while there were some exceptions due to overlapping data between models in general terms the numbers relate to a particular model group They are as follows The 200 series of service sheets were applicable to Group A models the 300 series to Group B the 400 series to Group C the 500 series to Group D and the 600 series to Group M In addition there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups Unfortunately as these service sheets were issued individually and at random times the numbering sequence within any group is not necessarily consecutive and at times illogical Consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles The most complete compilation of the 1945 and onwards service sheets was issued by BSA in the form of a dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages This manual is a compilation of the service sheets that were collated and published by BSA in the late 1950 s and early 1960 s under part

numbers 00 4017 pre swing arm and 00 4047 swing arm which excluding duplicates consisted of 44 service sheets in total. However an additional 14 sheets from the ring bound dealer only publication have been added to produce a single manual containing 58 service sheets 190 pages that cover the entire range of pre unit A7 and A10 models from 1947 to 1962. Please note that service sheets in the 300 700 and 800 series that are included in this publication will also include data that is applicable to other model groups as that was the original intention.
