How many different ways can you think of to make a gift, for the year 1000?

- **Design**
- **Construction**
- **Finishing**
- **Display**

Design - The process of creating a plan for something that will be made. It involves thinking about the purpose, the materials, the tools, and the steps to make it.

Construction - The process of making something from a plan. It involves using tools and materials to create the physical object.

Finishing - The process of making something look good. It involves adding details, such as paint, varnish, or a final coat of wood.

Display - The process of showing something off. It involves creating a presentation that highlights the object's features and purpose.

3

Key skills checklist

Checklist of skills and knowledge that you need to be able to do to be successful in 3D Design.

- **Design** - Creating a plan for something that will be made.
- **Construction** - Making something from a plan using tools and materials.
- **Finishing** - Making something look good by adding details like paint or varnish.
- **Display** - Showing something off in a way that highlights its features.

4

Sources - make it mean something to you!

Research is a key part of the design process. It involves finding out what other people have done and what they like. This helps you to create something that is unique and meaningful.

- **Books** - A great source of information and inspiration.
- **Magazines** - Often feature articles and images that can inspire your design.
- **Online** - A vast source of information and images, but be careful of copyright.
- **People** - Talk to other designers and artists to get their ideas and advice.
- **Travel** - Seeing different cultures and environments can provide new ideas.
- **Art** - Studying art can help you understand how to use color and form.
- **Science** - Understanding how things work can lead to innovative designs.
