Appointment With Doctor Death:

Appointment with Doctor Death Michael Betzold, 1993 Biography of pathologist Dr Jack Kevorkian discussing his life and his involvement with assisted suicide *Death by Appointment* Ilora Finlay, Robert Preston, 2020-09-28 This is a book about a controversial issue whether doctors should be licensed by law to supply lethal drugs to terminally ill patients It is written primarily for those who want to find a path through the thickets of a subject that transcends many fields of expertise The authors have considerable experience of the matters about which they write involving both research and hands on medical care of dying people They are not neutral about assisted dying they are not convinced that the law is in need of change However the book employs an evidence based approach and brings much needed clarity to such complex issues as how the existing law works how medical practice operates at the end of life and what has been the experience of jurisdictions that have gone down the assisted dying road Above all the book shows respect for the views of others who may judge the evidence differently Appointment with Doctor Death Michael Betzold, 1993 Examines the life career and motives of Dr Kevorkian and discusses the debate surrounding doctor assisted suicide for terminal patients A Date with Death Louis Sia, 2002 A Date With Death is a novel dealing with two former lovers whose relationships were embroiled in both lust and hate encounters after a one night stand Toto a former drug trafficker turned over a new leaf and became a reborn Christian contributing to the building of a new Church and setting up a legitimate tin manufacturing company Molly Tam an arms dealer with a dark secret past had connections with the United States Senators Congressmen and battleships Commanders contravened with shipments of military hardware from the States to the Tamil Tigers in Jaffna Molly capitalized on the only asset she knew to procure favours from the top brass in the States and enlisted the Tamil Tigers to help her evil cause Their interests conflicted and churned into hatred resulting in a war when a subordinate of Toto was caught trafficking in heroin a trap deliberately weaved by his ex lover A continuous chain of revenge from both camps leads to numerous deaths The adventures take the players to far flung places in South Africa and Texas to those closer to home including Thailand Vietnam and the Philippines One of Molly Tam s captives a fortune teller who raped her was satanically eliminated by Land Eating Piranhas fondly termed The Black Widows originating from the thick vegetations of Jaffna **When Doctors Kill** Joshua A. Perper, Stephen J. Cina, 2010-08-12 It would come as no surprise that many readers may be shocked and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly antithetical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don t want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do

more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant biological machine to be marveled at then dissected

The Call of Conscience Michael J. Hyde,2001 This study considers the relationship between the phenomenon of conscience and the practice of rhetoric as it relates to one of the most controversial issues of our time euthanasia The author offers an extensive treatment of Heidegger's and Levinas philosophical investigations of conscience

Choose Your Medicine Lewis A. Grossman,2021 Throughout American history lawmakers have limited the range of treatments available to patients often with the backing of the medical establishment The country's history is also however brimming with social movements that have condemned such restrictions as violations of fundamental American liberties This fierce conflict is one of the defining features of the social history of medicine in the United States In *Choose Your Medicine* Lewis A Grossman presents a compelling look at how persistent but evolving notions of a right to therapeutic choice have affected American health policy law and regulation from the Revolution through the Trump Era

Surviving Medical Care Ruth Brown,2015-01-31 Author Ruth Brown was born with mastocytosis a rare complex and little known disease responsible for producing a multitude of diverse symptoms As a result of her condition she experienced many incredible encounters with medical professionals and institutions In *Surviving Medical Care* she writes of the nearly fifty five years she spent seeking medical attention for a series of seemingly unrelated and sporadic symptoms While living a relatively normal life as a wife mother and software developer she coped with the challenges of her affliction As her condition worsened she desperately sought a correct medical diagnosis and appropriate treatment In her frequent visits with medical professionals her care ranged from outstanding to poor and even horrifically negligent Despite numerous obstacles she never lost her optimism or her sense of humor In this memoir Brown shares how her extensive experience as a patient exemplifies pitfalls of medical care in the United States Her problems arose not from a lack of excellent medical coverage but from a variety of other problems physicians with poor communication skills unnecessary costly and invasive testing medical personnel not trained to think logically or creatively tight schedules in physicians offices overcrowded and understaffed emergency rooms and indifferent physicians While *Surviving Medical Care*

narrates Browns personal story it has much to say about how Americans need to be involved in their medical care and advocate for improvements in the medical system

EYE CONTACT - the Mysterious Death in 2000 in Maine of Kassidy Bortner and the Wrongful Conviction of Chad Evans in New Hampshire Morrison Bonpasse, 2011-08-17 Chad Emery Evans was wrongfully convicted in December 2001 in New Hampshire of the murder of Kassidy Bortner the 21 month old daughter of his girlfriend Amanda Bortner The causes of her death and her injuries are mysterious and disputed but Chad was convicted of second degree murder On June 2 2000 Chad met Amanda and their relationship grew rapidly By early July Amanda and Chad were living together Chad s three year old son Kyle also lived in the home several days a week through shared custody with Chad s former wife On the morning of November 9 2000 Amanda took Kassidy to the Kittery Maine home of her sister Jennifer Bortner and her sister s boyfriend Jefferey Marshall for babysitting for the day Kassidy had a new bruise on one eye due to an accident the previous night when Chad was giving Kyle some batting practice with a brown plastic bat in Kyle s bedroom just before bedtime While wiffle balls were usually used for such fun the ball that Kyle hit into Kassidy s eye was a Tee ball The resulting bruise to Kassidy s left eye was the latest of a series of bruises which had been observed by many people during the fall of 2000 In a time of growing sensitivity to child abuse most of the responsible adults close to Kassidy chose to believe that the bruises and injuries were unfortunate accidents and that they didn t require medical care right away The life threatening severity of the injuries was not known or suspected by anyone Tragically those adults including Chad Evans were unaware that there was something very wrong with Kassidy because of the accidents or perhaps because of a chronic condition disease or toxin Chad Evans never spanked nor hit Kassidy Bortner He loved and cared for her Shortly after Noon on the 9th Jeff Marshall checked on Kassidy and recognized that she was in trouble and seemingly lifeless and he made several phone calls for help The EMT s and Kittery Police arrived quickly but Kassidy was

dead when they arrived As the man living with Kassidy s mother Amanda Bortner Chad Evans was an initial suspect By the time of Chad s 7 10 p m interview with the police and within about seven hours of Kassidy s death the police were focused entirely on Chad and worked thereafter to build the case against him At his December 2001 trial Chad took his attorneys advice not to testify and his attorneys decided to call only one defense witness They called the nationally renowned forensic pathologist Dr Michael Baden as they thought his testimony was sufficient to establish the reasonable doubt needed for a not guilty verdict However their assessment was wrong and the jury found Chad guilty of most of the charges In November 2002 Amanda Bortner was tried and found guilty of two counts of child endangerment and sentenced to two years in jail In 2011 Chad Evans began his tenth year in the New Hampshire State Prison for crimes he didn t commit He passed a lie detector test given in July 2010 In September 2010 a report was discovered of a DNA test conducted by the Maine State police in March 2001 The test on blood found underneath all ten of Kassidy Bortner s fingernails showed that the blood belonged to Kassidy The DNA test on the substance on a paper towel found where Kassidy was sitting on the day she died showed saliva that belonged to a male Prior to Chad s trial the existence of the blood was in a report available to his defense lawyers but it was not mentioned by anyone on either side at the trial The DNA test and report was never disclosed to the defense Also not disclosed was information about Kassidy s medical appointments in August and September 2000 The jury also did not know about a family gathering four days before Kassidy died where only one bruise was seen on her right cheek Eye Contact tells the story of the wrongful convictions of Chad and Amanda and the campaign for exoneration
