To Understand Things as Well as Words John R. Van Wyk, 2025-06-17 One significant way that the influential Puritan minister Jonathan Edwards 1703-58 remains relevant today is through his approach to teaching His holistic pedagogical approach addressed the total person mind intentions and actions Crucial to Edwards also was mentoring students to assist their spiritual development and to encourage and to help enable their leadership potential This volume fills a significant gap in the academic study of Jonathan Edwards his work as a teacher and

educational theorist Edwards, Germany, and Transatlantic Contexts Rhys Bezzant, 2021-12-06 Jonathan Edwards engaged in notable ways with the church in Germany through his writings on spirituality theology and missiology but this contribution has rarely been acknowledged in academic publications In this book scholars who have an interest in both Edwards and the church in Europe offer contributions to a significant worldwide conversation on Edwards s texts and teachings He found an ally in Martin Luther sought out encouragement from German Pietists and engaged with Western traditions of philosophy which proved useful in sharpening subsequent reflection on God s work in the world Edwards was not just a remote colonial American pastor but an active participant in the transatlantic republic of letters and contributed to the birth of the global missions movement for which the church in Germany was itself a significant base *Edwards the Mentor* Rhys S.

Bezzant, 2019 Among his many accomplishments Jonathan Edwards was an effective mentor who trained many leaders for the church in colonial America but his pastoral work is often overlooked Rhys S Bezzant investigates the background method theological rationale and legacy of his mentoring ministry Edwards did what mentors normally do he met with individuals to discuss ideas and grow in skills But Bezzant shows that Edwards undertook these activities in a distinctly modern or affective key His correspondence is written in an informal style his understanding of friendship and conversation takes up the conventions of the great metropolitan cities of Europe His pedagogical commitments are surprisingly progressive and his aspirations for those he mentored are bold and subversive When he explains his mentoring practice theologically he expounds the theme of seeing God face to face summarized in the concept of the beatific vision which recognizes that human beings learn through the example of friends as well as through the exposition of propositions In this book the practice of mentoring is presented as an exchange between authority and agency in which the more experienced person empowers the other whose own character and competencies are thus nurtured More broadly the book is a case study in cultural engagement for Edwards deliberately takes up certain features of the modern world in his mentoring and yet resists other pressures that the Enlightenment generated If his world witnessed the philosophical evacuation of God from the created order then Edwards s mentoring is designed to draw God back into an intimate connection with human experience

Jonathan Edwards: Allan G. A Biblical Approach to Mission in Context Michael Ufok Udoekpo, 2022-12-19 A Biblical Approach to Mission in Context is an erudite collection of twenty essays with forewords and epilogue produced to honor Professor Teresa Okure's contribution to the study of biblical theology in context. It also stands in its own right as a vade mecum of current trends in biblical scholarship, gender and contextual hermeneutics. Written by an international array of respected scholars, Okure's colleagues, former students, siblings and fellow commentators, this volume includes detailed exegetical studies, discussion on theological methods and contextual approaches from a variety of standpoints and an effort to relate biblical exegesis, theology and inculturation, faith hermeneutics to the current interest in social contextual interpretation that reflects values beyond the African context. In sum, the breadth of interests and enthusiasm found in this volume is a testimony to the intellectual and pastoral vitalities and passion that Teresa Okure herself brought to the discipline of biblical studies. The brief narrative of personal encounter written by Bernadette Okure, SHCJ forewords by John Cardinal Onaiyekan and Bishop Camillus Raymond Umoh, as well as an insightful epilogue by Fr Aniedi Okure, OP, provide additional insight into the historical and socio-cultural contexts within which Okure's formation and contributions unfolded.

The Oxford History of Poetry in English Julia Boffey, A. S. G. Edwards, 2023-04-12 The Oxford History of Poetry in English is designed to offer a fresh, multi-voiced and comprehensive analysis of poetry from Anglo-Saxon culture through contemporary British, Irish, American and Global culture, including English, Scottish and Welsh poetry, Anglo-American colonial and post-colonial poetry and poetry in Canada, Australia, New Zealand, the Caribbean, India, Africa, Asia and other international locales. The series both synthesizes existing scholarship and presents cutting-edge research, employing a global team of expert contributors for each of the fourteen volumes. This volume explores the developing range of English verse in the century after the death of Chaucer in 1400, years that saw both change and consolidation in traditions of poetic writing in English. In the regions of Britain, Chaucer himself was an important shaping presence in the poetry of this period, providing a stimulus to imitation and to creative expansion of the modes he had favoured. In addition to assessing his role, this volume considers a range of literary factors significant to the poetry of the century, including verse forms, literary language, translation and the idea of the author. It also signals features of the century's history that were important for the production of English verse: responses to wars at home and abroad, dynastic uncertainty and movements towards religious reform, as well as technological innovations such as the introduction of printing, which brought influential changes to the transmission and reception of verse writing. The volume is shaped to include chapters on the contexts and forms of poetry in English, on the important genres of verse produced in the period, on some of the fifteenth century's major writers, Lydgate, Hoccleve, Dunbar and Henryson, and a consideration of the influence of the verse of this

twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth. All of their distinctive contributions receive careful attention. Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2 contained on the enclosed CD-ROM contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches we all participate in, this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.
