Narrative, Calling, and Missional Identity in 1 Peter David Shaw, 2023-11-13 A story well told and subsequently imbibed by its recipients has the power to shape one's beliefs, identity, and way of life. So what happens when a person or community is swept up in such a story? In this study, Shaw draws upon the dual methodologies of Narrative Transportation and Social Identity theories to consider how 1 Peter's use of Old Testament narratives and language serves to transport its recipients into an identity defined as elect sojourners. Amidst suffering, 1 Peter calls the Anatolian believers to a priestly ministry, blessing their antagonists as they await their eternal glory in Christ.

The Partisan Next Door Ethan C. Busby, Adam J. Howat, Jacob E. Rothschild, Richard M. Shafranek, 2021-09-29 In the United States, politics has become tribal and personalized. The influence of partisan divisions has extended beyond the political realm into everyday life, affecting relationships and workplaces as well as the ballot box. To help explain this trend, we examine the stereotypes Americans have of ordinary Democrats and Republicans. Using data from surveys, experiments, and Americans' own words, we explore the content of partisan stereotypes and find that they come in three main flavors: parties as their own tribes, coalitions of other tribes, or vehicles for political issues. These different stereotypes influence partisan conflict: people who hold trait-based stereotypes tend to display the highest levels of polarization, while holding issue-based stereotypes decreases polarization. This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity, a turn to what we call responsible partisanship.

Practice Petra Hendry, Molly Quinn, Roland Mitchell, Jacqueline Bach, 2023-03-10 This book situates the Curriculum Theory Project at Louisiana State University within a larger historical framework of curriculum work examining the practices which have sustained this type of curricular vitality over the lifetime of the field's existence Divided into seven parts the authors illuminate seven practices which have sustained the scholarship graduate programs mentorship and networking that have been critical to maintaining a web of international relationships This exploration and coming together of intergenerational

stories reveals a more complete and nuanced narrative of the development of curriculum theory over the last 60 years. Crucially, the project exemplifies the continuing resilience of curriculum theory despite ongoing neo-liberal aspirations to reframe education as a business. Reflecting upon the lived experiences and articulated memories of those who have participated in the project and analysis of documents collected over its 25-year history, it considers curriculum history in writing large through and from this lens of practice. As such, it opens up fresh insights for cultivating the vitality and vigor of curriculum theory more broadly on an international scale and with a view to future directions for the field. It will appeal to both new and experienced scholars working across education foundations, urban education, philosophy of education and higher education, and researchers from across history, sociology, anthropology, ethnic studies and gender studies. **New Horizons in Positive Leadership and Change** Satinder Dhiman, Joan Marques, 2020-03-11 This edited volume provides managers as well as students with the best practices in effectively leading the 21st-century workforce and managing change. Policy and the Political Life of Music Education Patrick K. Schmidt, Richard Colwell, 2017 Policy and the Political Life of Music Education is the first book of its kind in the field of Music Education. It offers a far-reaching and innovative outlook, bringing together expert voices who provide a multifaceted and global set of insights into a critical arena for action today: policy. On one hand, the book helps the novice to make sense of what policy is, how it functions, and how it is discussed in various parts of the world; while on the other, it offers the experienced educator a set of critically written analyses that outline the state of the play of music education policy thinking. As policy participation remains largely underexplored in music education, the book helps to clarify to teachers how policy thinking does shape educational action and directly influences the nature, extent, and impact of our programs. The goal is to help readers understand the complexities of policy and to become better skilled in how to think, speak, and act in policy terms. The book provides new ways to understand and therefore imagine policy, approximating it to the lives of educators and highlighting its importance and impact. This is an essential read for anyone interested in change and how to better understand decision-making within music and education. Finally, this book, while aimed at the growth of music educators' knowledge base regarding policy, also fosters open thinking regarding policy as a subject helping educators straddling arts and education to recognize that policy thinking can offer creative designs for educational change. *Sexuality in Marketing and Consumption* Athanasia Daskalopoulou, Daniela Pirani, Jacob Ostberg, 2024-08-09 This volume provides an in-depth examination of the role of sexuality in consumers' life course and in the marketing of products and services.
