

# INTRODUCTION

- The following presentation showcases the different types of organizational tasks that were undertaken by the management of World Bank.
- The management of World Bank concentrated on the improvement of the Knowledge Management to ensure the creation of “**Knowledge Bank**”.
- The creation of the knowledge Bank was necessary as because it could help in the bank to reach out different new areas and help the people of these distant areas with effective and innovative solutions from a vast range of stored knowledge (Lord and Washington 2018).
- The stored knowledge of the organization had always a greater impact than any instant idea of poverty reduction or any other kind of developmental activities being undertaken by the management of the organization.
- The Knowledge Management of the organization helped them to decentralize their operations and reduce their dependency on Washington D.C.
- The reduction of dependency helped the organization to be more effective in nature.
- The main change of the organization was brought in the strategy. The strategy of the company helped them to achieve their goals and objectives.

*A Scientific and Popular Treasury of Useful Knowledge* Alvin J. Johnson & Son, 1880      *Egypt, Positive Results from Knowledge Sharing and Modest Lending* Ismail Arslan, 2009-01-01 At head of title IEG World Bank IFC MIGA      *Principles of Knowledge Management* Geisler, This text provides a comprehensive introduction to the new field of knowledge management It approaches the subject from a management rather than a highly technical point of view and provides students with a state of the art survey of KM and its implementation in diverse organizations The text covers the nature of knowledge tacit and explicit the origins and units of organizational knowledge and the evolution of knowledge management in contemporary society It explores the implementation and utilization of knowledge management systems and how to measure their impact outputs and benefits The book includes a variety of original case studies that illustrate specific situations in which the absence or existence of knowledge management systems has been crucial to the organization s actions Charts and figures throughout help clarify more complex phenomena and classifications and each chapter includes review questions and a comprehensive index      **Change and Continuity at the World Bank** Peter J. Hammer, 2013-01-01 This fascinating book examines the World Bank s capacity for change illustrating the influence of overlapping political organizational and epistemic constraints Through comprehensive historical and economic analysis Peter J Hammer illuminates the difficulties faced by recent attempts at reform and demonstrates the ways in which the training and socialization of Bank economists work to define the policy space available for meaningful change The author examines the patterns of change and continuity at the World Bank during the presidencies of James Wolfensohn 1995 2005 Paul Wolfowitz 2005 2007 and Robert Zoellick 2007 2012 and discusses the role that various Chief Economists have played in the evolution of the Bank s research activities His analysis of Bank reforms both successful and unsuccessful demonstrates how neoclassical economics sets the Bank s research and development agendas and limits reform possibilities derived from different academic traditions This clear and balanced account is an important case study in the role that epistemic constraints can play in the formation of public policy with implications for both the World Bank and other international organizations Students professors and researchers with an interest in economic development institutional economics and policy studies will find it an invaluable resource as will government officials and practitioners working in international development      *Knowledge management* Alex Koohang ,Keith Harman,Johannes Britz, 2008      **Digitizing Industry Knowledge for Software Development** Manoj Kumar Lal,      **Sharing Knowledge** Catherine Gwin, 2003 This review examines the effectiveness of the World Bank s strategy to facilitate the sharing of development knowledge and information with client countries as well as the institutional infrastructure put in place to implement it including resources governance and technology Findings include that the Bank has made good progress in establishing the tools and activities to support its initiative but it has not established adequate business processes and management responsibilities The review recommends
