

Nature vs nurture Argumentative Essay

Whereas nurture is the environment around us that can influence our upbringing and it is the society around us that affect the way we think or do certain things. It refers to a person's childhood and how they were brought up and what they learn. Nature vs. Nurture debate does not have a firm conclusion to say which one has more value as it is a debate that has been discussed between philosophers to identify which one has more influence in our lives. Some philosophers argue that the nature is most influential in our lives as it is part of our genetic makings, something that we cannot change even if we want to.

Others argue that nurture is more influential as it determines our personality and our perspective of things, the way we view things. For example, a teenager wanting to be a doctor when they grow up is not part of our nature, it goes more towards nurture because it is the way we are brought up that influences our decisions in life. If a child had a parent who is a doctor and they watch their parent making people feel becoming well, then they might want to do the same as they might get fascinated by it. This decision that the child made to become a doctor is the doing of nurture because the child was influenced by what he saw around him.

Nature on the other hand is nothing that can be fixed or change at any cost. For example, if a child was born with illness such as Cystic Fibrosis then this is something that they cannot recover from, they might get medication to help them survive but it is not something that they can get well from as it is part of their genetic making. Furthermore, some people argue that nurture has more influence in our lives because a serial killer does not become a murder because it is in his genes, but because they are influenced by what they see around them.

Some philosophers claim that a person's development is influenced by both nature and nurture. For example, if a person is born with blonde hair and blue eyes, this is something natural that they cannot change, however, if they live in a posh area, then their accent would be posh; this is something that is nurture is responsible for because the community a person lives in Wool_sld determines the accent they would have. Dry Money and the boy with no penis is the story of David Rimes who was turned in to a girl when he was baby due to his Penis being burned off during circumcision.

When David was born he was called Bruce and his twin brother was called Brian. Dry John Money was a sexologist; he debates about sex changes operations on transsexual. When Brace's penis was burned off, his parents Janet and Ron Rimes were very upset over and did not know what to do. When they found out about Dry Money, they finally found hope, knowing that he would be able to help their child. Dry Money believed that nurture can win out nature anytime. For example, he believed that

The Erotic Margin Irvin C. Schick, 2020-05-05 Gender and sexuality have long held an important place in western attitudes towards the people and regions of the world from the titillating accounts of harem life in the Middle East to terrifying captivity narratives of North America The Erotic Margin is a first attempt to pull together the large disparate and often contradictory literature and view it as a corpus Schick argues that such images served to construct spatial difference and thereby helped Europe represent its own place in the world during an age of rapid geographical expansion Informed by the recent literature on human geography as well as feminist and postcolonial theory The Erotic Margin focuses on erotica and sexual anthropology as well as travel literature in which from the eighteenth century on both traveler and destination were portrayed in unmistakably gendered and sexualized terms Reviewing examples ranging from the New World to India the Near East to black Africa and the South sea islands to the Barbary Coast the book reflects on why foreign women were variously portrayed as alluring or threatening foreign men as effeminate weaklings or dangerous rapists and foreign lands as sexual idylls or hearts of darkness

Excellence in College Teaching and Learning George Henderson, Susan Smith Nash, 2007 This book will improve the quality of instruction that college students need It makes numerous suggestions that must be tended to when teachers instruct students For example the authors speculate about ways teachers can present what may at times seem to be a mountain of information without burying students under it why teachers must continually update their Internet skills and whether courses are taught on campus or online they should not be academic fluff or pedagogical gimmicks Throughout the book the authors punctuate sentences and paragraphs with metaphors similes hyperboles and ironies in order to adequately capture a panoramic view of the consonance and dissonance that characterizes effective and ineffective teaching Scattered throughout the book are suggestions about ways teachers can become more responsive to students For example it provides suggestions on how classroom and online teachers can consciously manage sounds movements colors and the other aspects of teaching as though they were like drama music ballet or literature in order to keep students attentive This is one of the few books that give equal attention to teaching classroom and online courses Face to face teaching is more art than science so the first part of the book is interpersonally expansive Online teaching is more technology and science than art Therefore the second part of the book is more straightforward less interpersonal By reading this book teachers will find out what will work for him or her and it provides a lot of interesting information about other teachers including the authors Also provided are succinct overviews of several instructional methods including their theoretical foundations that can be used independently or together to enhance the education of college students Many of the topics discussed in one chapter are revisited in later ones This spiral approach to learning is actually repetition and supplementation for knowledge transfer The exercises at the end of each chapter serve dual purposes they are both self assessments and summaries of selected data The book will serve as an excellent resource for would be new and experienced teachers as well as professional development staff and librarians

Rhetoric in the Rest of the West Shane Borrowman,Marcia Kmetz,Robert L. Lively,2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued

to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition
