through the Science syllabus intended to help students revise and consolidate what they have learned at school. It aims to increase confidence in a range of scientific topics using easy to understand text diagrams quizzes and practical exercises. The important features of this book are interesting topics each unit covered in the book correspond with a unit in the syllabus. Each new concept is contained to one page making it easy for students to complete one topic at a time. Quick questions and exercises there is a set of quick questions or a quick exercise to complete on every page. This makes sure students are absorbing the information and thinking about each topic. Something to do these are fun and informative practical activities for students to try at home always under adult supervision. The activities use household items to demonstrate a scientific concept. Tests two tests are included in the book one halfway through the topics and one at the end. The tests can be used to assess the student's understanding of the concepts covered in the book. Lift out answers answers to all the activities and tests are provided in a convenient lift out section in the middle of the book.

Mental Arithmetic Key Stage 2 Liz Hopkins, 1998. This photocopiable resource for Key Stage 2 is divided into two main parts. The first covers the important areas of mental maths such as the four rules fractions decimals money and time and the second part presents associated topics to enable pupils to employ mental skills in contexts such as shape and measures. The work is at two levels of difficulty National Curriculum Level 3 and Levels 4 & 5.

Mental Maths Strategies Alan Parker, 2004. Mental Maths is the maths we do in our heads without the use of calculators and without writing down the calculation. Mental Maths strategies are the tricks we use to do Maths in our heads. There are different ways of finding the answer to any Mental Maths problem and such strategies are the focus of this series. Even though calculators and computers play an enormous role in the modern world we still need to go back to the basics. We do need to know how to check that the sales assistant at the counter is giving us the right change. Mental Maths has become more important than ever and new primary Maths syllabuses in Australia are reflecting this. For example NSW has placed an emphasis on Mental Maths in its primary syllabus and even the Year 10 School Certificate examination has a compulsory non calculator section. Features of this book include 32 double page units of Mentals are included. 8 units for each school term each unit is divided into four sets A B C and D of 20 questions each. Each numbered question covers particular Maths topics throughout the book for example Question 1 always covers addition while Question 20 always covers geometry. A special eHelp section at the front of the book gives different strategies and explanations to help students solve Mentals problems. These are also numbered so they link to the question numbers in each Mentals unit. A eFun Spot unit containing fun activities and a eRevision unit are included at the end of each 8 units extra practice sections which reinforce particular strategies appear in the lower part of each page. Answers to all questions are in a lift out section in the centre of the book.
