4th Dimension Living In A 3rd Dimension World:

4th Dimensional Living in a 3 Dimensional World Yong-gi Cho, 2006 Many of Dr Cho's books talk about life in the fourth dimension a realm that is more real than the physical world in which we live He points out that the world we know was fashioned in the invisible fourth dimensions the spiritual realm and the things we see are only temporary whereas spiritual things are eternal In light of this he wants each of us to gain entrance to the fourth dimension the place where the God of might and miracles lives and moves

Fourth Dimensional Living in a Third Dimensional World David Cho, 2007-01-15 Life in a Higher Dimension Dr David Yong Gi Cho is the pastor of the world's largest church and a best selling author Many of his books talk about life in the Fourth Dimension a realm that is more real than the physical world in which we live He points out that the world we know was fashioned in the invisible Fourth Dimension the spiritual realm and the things we see are only temporary whereas spiritual things are eternal In light of this he wants each of us to gain entrance to the Fourth Dimension the place where the God of might and miracles lives and moves How do we move from this sphere into the Fourth Dimension Dr Cho provides a road map for us by showing us the things we need to change in order to get there and live there We must change the way we think We must live by faith not by sight We must dream God's dreams We must change the way we speak We must change the way we behave Yes these are the keys that open the door to the Fourth Dimension for every child of God who wants to know and experience God in all His fullness As you read this book you will gain glimpses into the spiritual dimension a wonderful place of love peace and joy and you will be inspired to go there and stay there Though you are in the world you do not have to be of the world By faith we understand that the worlds were prepared by the word of God so that what is seen was not made out of things which are visible Hebrews 11:3 NKJV

Rediscovering the Fifth dimension Jan Edvin Andersen,2023-05-31 This brand new universal model and physics was first published in book form September 26th 2015 Remember the important date This book is a brand new textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and a very special universal substance This substance is actually the difference between whether something can be seen discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi physical substance is produced only by the Higgs field That's the only reason they were able to discover this Higgs field as the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles Remember this This is very important if you want to understand the universe as it really appears This new quantum physical hologram model's atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and 1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5 dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFO's can disappear from today's high tech radars The reason why the UFO can disappear from radar is that there are no physical particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect occurs in the UFO The particle accelerator's final and very clear evidence just says that there can be no physical particles and that it actually proves that there has never been a big bang Still today is this fake big bang universe only researched and taught Why Is it only because scientists don't understand the right universe that the particle accelerator actually proved to them should be there The energetic oscillating field universe *The Fourth Dimension* Dr. David Yonggi Cho,2017-03-13 META MEDITATION KORAK DAY,2021-05-19 Meta Meditation goes beyond meditation's limitations rectifying within the innermost for life's success and happiness This non fiction is the 11th book of an Amazon 1 Bestselling Author Korak Day who has 25 years of

The Fourth Dimension Rudy von Bitter Rucker,Rudy Rucker,1985 A detailed description of what the fourth dimension would be like

The Mystery of Numbers: Revealed Through Their Digital Root Talal Ghannam,2012-07-04 What is it that brings all these different things together The subatomic particles and the Vedic square The hydrogen atom and the golden section Fibonacci numbers consciousness and alchemy Nikola Tesla music and the ether Electromagnetism gravity and the fourth dimension The procession of the equinox the Mayan dooms day the Hindu Brahma cycle and Atlantis It is Numbers or more precisely their Digital Root In this book the author examines the amazing world of numbers particularly those which have intrigued and fascinated ancient and modern mathematicians alike However he does it from a very novel point of view by implementing the digital root operation in which the individual digits of any of these numbers are summed up until a single digit is left over The author will show that when applying this simple operation to magical numbers and to many other groups of numbers an amazing world of hidden interconnections repetition cycles numerical symmetries and geometrical patterns emerge Especially when the geometrical the circle and the numerical aspects of the digital root world are combined together It is in this circular numerical world where numbers individually and collectively exist in their most basic yet perfect and symmetrical states and where the basic nine numbers are differentiated into three groups of amazing properties which will be shown to underlie the essence of the whole universe from the atom and its forces to the solar system and its geometry This book will take us on a numerical and spiritual journey starting from prime and figurate numbers to Fibonacci sequence and the golden section to alchemy and the Mayan calendar to the atoms and its forces along with the ether and the fourth dimension In addition the author will show how these new revelations of the digital root world are corroborating the numerological and mystical qualities that have been attributed to numbers by philosophers and mystics throughout the ages This book will paint a so holistic and meaningful image of the world that will forever change our perception not only towards numbers but towards the whole universe as well

Rediscovering the Two Quantum Dimensions, the 5th and the 4th dimension! J.E. Andersen,2021-07-05 Late in 2016 the scientists with a little help from the big LHC the particle accelerator down in Cern finally concluded that there are no physical particles to be found inside this universe Meaning only energetic oscillating fields was to be found Can you even grasp that thought that everything in this universe is absolutely anything but being this postulated 3 dimensionally and fully physical universe that you thought you could understand and that you have been educated in Everything you believed this universe to be does not exist at all You don t find anything inside this universe that is only 3 dimensional and only fully physical And everything you did not believe in is the universe we actually live inside with only energetic oscillating fields We live inside a paranormal universe with 5 very active quantum physical dimensions It is actually these two quantum physical dimensions the 5th and the 4th that really runs the show We can only see discover and detect this universe inside the 3rd dimension and that dimension is the quantum physical screen of the universe This is where the Higg s field is operating with the funny universal stuff a stuff that can be there disappear and reappear again That leads us into the stealth technology and the physics behind the famous stealth plane the new 5 dimensional quantum physics

The only kind of believes and the only kind of education today lies inside this 3 dimensional and fully physical standardized big bang model and physics and all of that is a big lie That was the final conclusion from the big LHC down in Cern This very famous and shocking discovery actually proved my new 5 dimensional model by proving the energetic oscillating quantum physical atom that lies in a 5 dimensional spacetime My new 5 dimensional quantum physical model and totally new physics was theoretically fully proven already in 2012 Then the big process writing down all of this new philosophy and theory Out of that came the new 5 dimensional quantum physical physics Very different on any level This new model matches Einstein s extended relativity theory and can be understood as a Pier Review with Einstein s 5 dimensional model It explains the gravity the differentiated expansion explains the very big inflation and many more hidden secrets of the universe Read about the Author and the book and understand how this universe was created and how it functions *Life on the Cutting Edge* Sal
