

The 50cc Trekker Off Road

bewildering 190 different specifications. This compact facility has the capacity to produce 2000 engines per day and has its own pressure and gravity die-casting plants.

Many engine components are sourced from Mahle, Mikuni and Dell'Orto and parts such as pistons, clutches, cylinders and crankshafts are machined on site. The factory has its own nickel and zinc coating facility and heat-treating plant.

While Peugeot's success in Britain has been meteoric it's not without parallel as Peugeot seeks an ever larger share of the massive European scooter market. The Italian 50 cc scooter sector alone accounts for 570,000 machines a year; together with Spain, Germany, France and Holland the total tops a million.

Peugeot leads markets in France, Finland, Belgium, Holland and Denmark and is aggressively pursuing the German and Italian markets where it established subsidiaries in 1997. Despite stiff competition from Piaggio, Aprilia and Malaguti, Peugeot see the Italian market as the key to its greatest expansion.

Speedfight, Trekker and Vivacity

The mainstay of Peugeot's twist-and-go scooter range are the Speedfight 50 and 100 cc models. Unveiled in the UK in late 1995 as a 50 cc, and then joined by a 100 cc model the following summer, the Speedfight's success was responsible for Peugeot becoming the most popular scooter marque in the UK market.
