Product Description

The Honda/Acura Immobilizer anti-theft system uses a low-power transponder mounted in the head of the ignition key. When the vehicle is started, the Key Cylinder Module converts the transponder signal and sends a secure, coded signal to the Engine Control Module. If the signal to the Engine Control Module is correct, the vehicle will start.

The 556H uses a unique auto-program sequence to learn the secure code from the Key Cylinder Module and repeats it when remote start is activated, eliminating the need to leave a key in the vehicle.

The 556H Honda/Acura Immobilizer Bypass Module integrates into the wiring for the Honda/Acura immobilizer anti-theft system to allow remote start capability, while still allowing normal function of the factory immobilizer anti-theft system.

WARNING! It is recommended that the 556H Immobilizer Bypass Module only be installed by an authorized Directed dealer. Attempting installation without the proper tools and training can result in damage to the vehicle electronics.

Pre-Installation Test

IMPORTANT! Wire connections from the 556H to the Honda/Acura immobilizer wires should be done **AFTER** all remote start connections are completed and the following test is successful.

After completing all remote start wiring connections, insert the vehicle key into the ignition switch. Do **NOT** turn the ignition on. Activate the remote start.

If the vehicle remote starts, proceed with the 556H installation. If the vehicle fails to start, check all ignition and tachometer connections and retest. Do **NOT** proceed with 556H installation until this test is successful.

A successful test verifies that all ignition and tachometer connections are correct. This will eliminate the remote start as the cause of a failure to start after completing the 556H installation.

Installation Instructions

1. Remove steering column shroud to gain access to the wire harnesses at the rear of the ignition switch.
2. Locate the appropriate wires exiting the ignition switch and immobilizer receiver. The wire colors are listed in the *Wire Color Guide*.
3. Wire the 556H as shown in the wiring diagram.
