Catahan Ph.D., 2015-06-02 Enhancing Competency of Teachers is a fundamental teaching and learning guide. Its main goal is to learn and develop an enhanced value system (EVS) and practice it in everyday life. Filipinos are known worldwide for being friendly and hospitable. However, without limitations, these traits become the roots of corruption in all sectors of Philippine life. This book outlines the sequence of logical modules in teaching and learning enhancement programs (TLEP) in the school settings. It is designed for learners in all educational levels to enhance competencies and effectiveness in human resource development and training. It contains concepts, principles and strategies for effective teaching and learning. The Ethical Moral Theory in Learning provides five sets of significant rules in learning ethical-moral values to become genuine professionals. Verily, the skill, method and social competencies of a person are not enough. They must be supported by a quality EVS that will guide the person to think, feel and act with strict reverence to the will of God. Many books contained different insights, theories, philosophies, principles and concepts in teaching and learning that sometimes confused readers in understanding how to learn or teach productively. In contrast, this text is presented in a very simple and logical manner. It advocates for the need of educational change using EVS as the key. It presents simple
